The men are quiet and orderly citizens and well liked here. The sequel to this riot will end before the court at St. Helens as it understood a warrant will be sworn out and the instigators brought before the court. It is said that the attacked parties laid out their assailants, but a mob seeing their favorites being licked took it up and the lone officer could not handle the situation.

### Why Suffer With Rheumatism?

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.

### Preserves Paper.

A solution has been found of the question of how to preserve newspapers in public libraries, according to the American Paper and Pulp Association. Each sheet is mounted between two thin sheets of Japanese tissue, shutting out the air from the original sheets, thus preventing decay and only slightly reducing legibility and strengthening the page. Bound volumes of newspapers treated with the tissue are in daily use in libraries, free from year and tear, and will last indefinitely. The problem was solved after eight years of experimenting at a cost of 40,000, under the supervision of the public library.

The world may not be growing better, but it certainly can't grow any worse.
