## WARREN

Baskets will never be forgotten after July 8th in St. Helens.

Last Friday evening the Swedish Lutheran church was crowded to its utmost by the many friends of Miss Anna Larson to witness her marriage to John Israelson. The bride was one of Warren's most popular and pleasing young ladies and is the only daughter of C. J. Larson with whom she had just completed a two-year trip of a world's tour returning about eight months ago. She is a graduate of St. Helens high school and has

hosts of friends in St. Helens. Her father has provided a nice new home for her besides a fine tract of land. Rev. Sitts officiated. After the wedding ceremony a reception was held and refreshments were served by the Young People's society of the church. The bride is the former organist of the church and also a member of the society. The couple are now touring on their honeymoon.

"Watch for the Baskets—they are coming."

Warren vegetable growers are now shipping their products to St. Helens. F. M. Taylor has the work in charge and has his headquarters at the cannery where the vegetables and berries are assembled. The project is assuming successful proportions. Much dissatisfaction is expressed by the growers of vegetables and fruit here over the condition of the berry fields, so many of which are effected by the root weevil. Too much attention is being paid to propaganda and not enough action by the O. A. C. they claim. No blame is being attached to the county agent but his time is too much taken up and he has too much to do to attend to this besides his regular work. Unless something is done and at once the berry industry is threatened with a complete failure.

Mrs. P. P. Grewell is again able to attend her household duties after a siege at the Portland hospital.

The Social club held their regular dance on Saturday evening. It was well attended.

The Warren Vegetable Growers' hold a meeting on Saturday evening.

## INTERNAL REVENUE NEWS BULLETIN

At least one class of taxpayers will have a concrete demonstration of the tax reduction promised by the administration, according to Clyde G. Huntley, collector of internal revenue.

"For several years," said Mr. Huntley, "there has been an annual special tax of \$10 upon all motor pleasure boats of not over five net tons, and a heavier tax upon boats of greater tonnage, but commencing July 1, this tax will not apply to boats except those of more than five net tons and 32 feet in length."

Most of these taxes paid in this state have been on boats of less than five net tons, and their owners will now be relieved of the \$10 tax. There are only a few motor driven pleasure boats in Oregon that will now be subject to the tax, and their owners must, of course, make return and pay the tax.

Collector Huntley states that several hundred Oregonians will be relieved of the \$10 tax burden, and also that the owners of work and fishing boats of not more than five net tons, who have heretofore been required to make returns and secure exempt cards will no longer be put to that trouble.

The demand for telephone service is constantly growing. The average net number of new Bell-owned telephones installed yearly is in the neighborhood of 500,000.

## DEMAND FROM HALL FOR PART RECOUNT

Portland.—Investigations preparatory to a demand by Charles Hall for a recount of the vote of Multnomah county, or certain specified precincts, cast at the primary election of May 19 for governor, are being carried out at the office of the county clerk by a force of clerks, supervised by attorney's representing Hall.

For several days now a number of girls, working under the direction of Hall's attorneys, have been going over the tally sheets of the primary election, checking the vote cast in the various precincts with the poll books and otherwise delving into the records of the gubernatorial primary insofar as may be possible without an actual recount and an order from the presiding judge of the circuit court directing the opening of the ballot boxes and a recheck of the ballots locked in them and their comparison with the results shown on the tally sheets.

## May Demand Recount.

Rumor, close from the Hill camp, has it that the Goose Bay senator will file a formal demand for a recount of the vote, but that he will not do so until the last possible moment before the expiration of the 20-day limitation within which such actions may be begun under the statute.

The law provides that any demand for a recount of the vote in the contest over the governorship, United States senator or congressman shall be filed within 20 days of the date upon which the official proclamation of the results were issued.

The official count of the primary vote was completed and the results announced on Friday last, June 16. The 20-day period includes Sundays and holidays in its count, so that the time limited by the statute for Hall's demand to be filed runs to Thursday, July 6. It is anticipated, therefore, that Hall's petition will find its way to the desk of the filing clerk of the county clerk's office about that time.

There are nearly 24,000,000 miles of telephone wire in the United States.

## CALL FOR BIDS.

Bids wanted for work at Columbia Heights school. B. E. Lufkin, clerk, District No. 99. 2913

Placed in line the telephones in the United States would reach from New York to Kansas City.

An exchange says: "A lawyer in a court room may call a man a liar, scoundrel, villain, or thief, and no one makes complaint when court adjourns. If a newspaper prints such a reflection on a man's character there is a libel suit or a dead editor. This is owing to the fact that the people believe what an editor says."
