Don't for Swimmers.

The following is a list of don'ts for swimmers, prepared by the American Red Cross: DON'T—Swim on a full stomach. (Wait until at least two hours after eating.) DON'T—Swim is overheated. DON'T—Continue swimming when exhausted. DON'T—Swim is you have heart trouble. DON'T—Dive without an accurate knowledge of the depth of water. DON'T—Struggle if caught in a swift current or undertow. (The force of the current will bring you to the surface.) DON'T—Wade into the water with the arms above the head. (You will not be ready to stroke if you step into a hole.) DON'T—Lean backward when wading into the water. (Always be ready to fall forward.) DON'T—Panic or struggle to swim if you swallow water. (Clear the windpipe of water first.) DON'T—Cry for help in fun. (You may some time need help, and not get it.) DON'T—Go in swimming alone unless you are an expert. But not all the dark horses in politics have horse sense, more's the pity.
