Did You Get the Bottom Price, After All?

The man who buys a "long discount" tire usually finds himself troubled by the above question. Did he pay less for the tire than his neighbor might have paid, or actually did he pay more? Did he get the bottom price, when all is said and done, or could he perhaps have driven a sharper bargain? Was the net price really more than he might have had to pay for a tire of established reputation and value? In the belief that the average motorist prefers a frank and open transaction, we built the new Goodyear Cross-Rib Tread Cord and discounted the "discount" in advance. Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can. We build it of high-grade long-staple cotton, using the patented Goodyear method of group-ply construction, and sell it at a lower price than you are asked to pay for many "long discount" tires of unknown worth. If you want a quality tire, and a reliable value, call today on any of the Goodyear Service Station Dealers listed here.
