The new Goodyear Cross-Rib Tread Cord

A Real Cord Tire for Small Cars at a Popular Price

The new Goodyear Cross-Rib Tread-Cord in the 30 x 3 1/2 inch clincher type is a tire that the small car owner will warmly welcome.

It gives him, at a price lower than the net price he is asked to pay for many "long discount" tires, every advantage of quality cord tire performance, for it is a quality tire through and through.

It is made of high-grade long-staple cotton; it embodies the reliable Goodyear quality of materials; its clean-cut tread engages the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

The tough tread stock in this tire is carried down the sidewalls clear to the bead, making it rut-proof to an extraordinary degree.

In every particular it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation.

Despite its high quality, and the expertness of its construction, it sells at a price as low or lower than that of tires which lack its important features.

The 30 x 3 1/2 inch Cross-Rib Cord clincher \$12.50

This price includes manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks
