## SPECIAL COURSES FOR WAR VETERANS

Plans to give disabled war veterans of this district taking training on their own land projects special winter courses at state agricultural schools of Washington, Oregon and Idaho were formulated this week at a conference of United States Veterans' Bureau agricultural supervisors held in Seattle. A total of 250 service men receive \$80 to \$135 a month while establishing themselves on small land projects and 500 others are taking agriculture along various lines.

The training supervisors of the northwest district also recommend that war veterans carry on diversified farming rather than to specialize in the production of one thing on the grounds that it is more profitable and a safer investment. The veteran should have at least \$500 cash before taking up land for himself, it was voted. Announcement was made that the project trainees are paying approximately half of their government compensation toward land purchase.

Vocational training of disabled war veterans will hereafter be accepted by the civil service commission as meeting preliminary requirements of civil service examinations, according to an announcement made by L. C. Jessup, northwest district manager of the veterans' bureau.

This move on the part of the commission means a great deal to veterans who have completed their vocational training courses. Mr. Jessup stated. More than 900 veterans have completed training in this district and many of them are now unemployed, it was announced. A total of 3,300 are taking training at the present time.

Dropping in is literal as well as figurative when you go calling in the ancient dwellings of the prehistoric cliff dwellers. It takes a hardy adventurer to go calling in that part of the Mesa Verde National Park of Colorado.

### Catarrah Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrah Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the Mucous Surfaces of the System. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrh Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists & Co. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

## SON DECLARES FATHER WAS 135

LA GRANDE, Ore.—There's a young man here who insists that his father, who died recently, be accorded full honor where honor is due. S. B. Shell, thirteenth son of "Uncle Johnny" Shell who died in Kentucky recently, carrying with him the reputation of being the oldest man in the world at the time of his death, declared his father was 135 years of age, and not 124, as at first reported.

The thirteenth son is some shaken at living himself, having covered 62 years, he is compelled to take off his hat to his elder brother, who utters the word "ninety" when folks ask him his age.

The badly-garbed ginders of New York rent their pianos by the day. These pianos are stored in a warehouse and the people who rent them are up at dawn, for the first to arrive are the first to be permitted to get the best instruments, and the latest tunes. They rarely make more than \$3 a day and must pay \$2 a day rental for the instrument.
