### NOTICE AND ASSESSMENT. 11, L. T. & Mary Cornish 25.00 12, L. T. & Mary Cornish 13, L. T. & Mary Cornish 67.50 Of a portion of West Street in ac-COUNTY AGENT NEWS ordance with the following Notice to the Owners of the real property; 67.50 Block 5. By F. C. HOLIBAUGH To the owners of the real property 7. Elsie L. Dew subject to assessment for the im-E. I. Ballagh 7.00 provement of that portion of West Roy & A. B. Stewart. -9. 12.00 Prepare for Grass Seeding Street between a point 100 feet west-Roy & A. B. Stewart. 18.00 fendant above named: 25.00 In the name of the State of Ore 67.50 gon, you are hereby required to aperly from the west side of Church The lawn should be given a rough O. C. Orsland grade now, preparatory to sowing Street and the intersection of said grass seed following the first soak. West Street with the westerly edge C. E. Olsen West Street with the westerly edge E. Olsen ing rain, suggests A. L. Peck, pro- of the St. Helens-Deer Island Coun-R. & M. Garcia fessor of landscape gardening at the ty road, all in the City of St. Helens, 67.50 on or before the expiration of six R. & M. Garcia 25.00 weeks from the date of the first agricultural college. Sow broadcast Oregon: R. & M. Garcia You are hereby notified and reat he rate of 1 pound of seed to 300 Roy & A. B. Stewart. 12.00 said first publication is made and 7.00 dated August 18, 1922, that being the quested to make and file with the Roy & A. B. Stewart. . E. I. Ballagh square feet of lawn area and do not Recorder of said City of St. Helens, 19. For those who prefer narrow Oregon, in writing, within fifteen 20, W. J. Muckle bladed grasses a mixture is suggested consisting of 50 per cent Kentucky days from the first publication of bluegrass and 50 per cent red top. It this notice, to wit: within fifteen Block 6. clover is wanted use 40 per cent red days from the Sth of September, top and 10 per cent white clover. 1922, any objections, remonstrance John Grauman 3.00 7.00

For those who lack experience ment as hereto attached. seed. it is well to mix seed with six to eight, times its bulk of sand.

## Carbon Bisulphide Kills Ants.

Depredations in the pantry or the kitchen by the small red and black WHEREAS, the improvement of a ants may be stopped by application of portion of West Street between a is a liquid which changes into a gas and macadamizing the same, it have when exposed to the air. It is heav-ier than air and therefore permeates the Common Council, and the whole downward through the passages of cost thereof as estimated and as now the colony. Carbon bisulphide is ascertained, being the sum of \$6, very inflammable and caution in 286.93. using it while smoking or opening NOW THEREFORE, We, the Com near a stove should be observed.

Plant Roses in Fall.

Roses may be planted in the fall for successful growth for home use. according to A. L. Peck, professor of landscape gardening and floricul-ture. Two-year-old roses are the in accordance with the benefit dito use as they develop more quickly and give better results. All lot, part of lot or parcel of land afbrokn stems and roots are pruned off before planting.

# CHANGE SYSTEM TO CONTROL WHEAT property, to-wit:

Stinking Smut of Wheat May be Checked or Eradicated Through Adoption of Proper Methods.

Bunt, or stinking smut of wheat, the cause of the great crop losses in Oregon and other states, may be controlled or completely eradicated through planting resistant or immume varieties rapidly being developed, it is reported by Horace Woolman, field agent, office of cereal investigations, United States Department of Agriculture.

Wheat bunt can be controlled only by an entire change in the system of farming or by production of re-sistant varieties, the Oregon Agricultural experiment station believes. Rapid progress is being made by the station and it is the belief of the specialists that it will be but a short time before all the susceptible varieties of wheat grown in Oregon can be replaced by immune or highly resistant ones having all other desirable qualities.

Rusts, Hessian fly, chinch bugs, and other enemies have from time to time caused immense losses, but the 17, Augusta Ziegler bunt has steadily taken its ton in all parts of Oregon where wheat is Farmers of Oregon lose great many thousands of dollars from the treatment of seed for bunt because of seed killed or injured by treatment. Losses due to treatment

Sow clover separate from the fine or remonstrances, to said apportion-This matter will be heard and de-termined by the City Council of said

city at the regular meeing of said Council on September 25, 1922. First publication of apportionmen September 8, 1922.

two tablespoonfuls of carbon bisul-phide poured down the entrance to side of Church Street and the in- 20, Mary Miller the colony. Earth should be firmly tersection of said West Street with pressed over the entrance to hold the westerly edge of the St. Helens-the fumes inside. Carbon bisulphide Deer Island County road, by grading

> mon Council of said city do hereby apportion said cost upon the lots, parts of lots and parcels of land abutting upon and indirectly benefitted by said improvement, and hereinafter particularly described, with the names of the owners thereof and rectly and indirectly derived by each fected, in the amount set opposite and against each said lot, part of lot or parcel of land so hereinafter set forth, and we declare the same to b a proposed assessment upon sai-

NOTICE TO FRUIT GROWERS AND DEALERS.

Attention is called to the following extracts from 1920 horticultural laws of Oregon:

Par. 8881. It shall be unlawful 11, A. for any person, firm or corporation 12, A. to import or sell any infested or di-seased fruit of any kind in the state 14, A. of Oregon, except that such fruit 15, A. A. Anderson ..... may be sold to evaporators, fruit 16, A. A. Anderson ..... canneries, fruit product factories, or other by-product factories under the 17, A. A. Anderson following conditions:

First. Such fruit so sold shall be used solely for the production of manufactured fruit products, beverages, or other manufactured products, or by-products. Second. The nature of the infes-

tation or infection shall not be such as to make the article of food or beverage manufactured from such fruit unhealthful or unfit for use as a food or beverage.

As the foregoing extract declares it unlawful to sell infested or di-seased fruit, notice is hereby given that after September 10th inspec-16, Wm. tions will be made of all fruit found in hands of dealers, and wherever 12. same is found to be infected with 13. San Jose scale or worms or other 14, Wm. pests or disease, infected fruit will 15, be seized and destroyed. By order of F. C. Holibaugh.
