Catarrah Cannot Be Cured

by LOCAL APPLICATIONS, as they
cannot reach the seat of the disease.
Catarrah is a local disease, greatly influ-
enced by constitutional conditions. HALL'S
CATARRH MEDICINE will cure catarrah.
It is taken internally and acts through
the blood on the MUCOUS SURFACES of the
System. HALL'S CATARRH MEDICINE
is composed of some of the best tonic
known, combined with some of the best
blood purifiers. The perfect combination
of the ingredients in HALL'S CATARRH
MEDICINE is what produces such won-
derful results in catarrah conditions.

Cupid Reads; Acers.—Judge John
Philip believes in advertising, though
such may not be considered an ethi-
cal by his legal brethren. He also
believes that Cupid reads the papers
for in the last issue of The Mist it
was mentioned that Cupid had de-
scribed the court room of the judge.
"Hardly had the ink on The Mist
become dry," said the judge, "when
I was called to perform a marriage
ceremony." He is of the opinion the
little fellow with the bow and ar-
row read the articles referred to, and
fastened to show the judge that his
absence was not a matter of deser-
tion, but only a vacation.

Too Long Without Paint
Are You Insuring Against
Depreciation

THERE'S no middle ground.
Either your buildings are
well protected by paint or they
are going to require costly re-
pairing or rebuilding within a
few years.
Paint saves your property. It
is an investment in long service
—not an expense. The expense
results from allowing buildings
to rot. Paint now. Save repairs.
The next question is what
paint to use. Use the best. It
costs less in the long run. It
spreads easily—saves labor cost.
It covers more surface per gallon
than "cheap" paint.
And the best paint will serve you
five or more years longer than "cheap"
paint.

The best paints are scientific in
formula and preparation. We've made
them for 73 years—to meet the
weather conditions in the West.

The best materials—PIONEER
WHITE LEAD, pure linseed oil, pure
zinc and pure colors—are combined
in Fuller's Paints in scientifically ex-
act proportions with long-time skill.

Your Winter Fuel Supply

Have you laid it in or are you waiting until it gets
real cold before you think the house would be
more comfortable if the heater or furnace was run-
ning full blast? We believe you will feel better sat-
isfied if you have several tons of ROCK SPRINGS,
WYOMING LUMP COAL in the basement and
when cold weather does come you can say, "Let it
come, I am prepared."

Place Your Order Now

We have an abundant supply of coal on our dock and
will make prompt delivery. We are satisfied you will
find it more economical to use coal than wood in
either the stove, furnace or heater. A few lumps of
coal thrown into the furnace or heater in the evening
will keep a slow, steady fire and the house will be
comfortable when you arise in the morning.

ROCK SPRINGS LUMP COAL is not screenings.
It is just what we say—LUMP COAL for the small-
est lump is four to five inches in size, with the pos-
sible exception of a small percentage caused by
breakage in transit. We repeat and want to empha-
size the fact that it would be wise on your part to
order your fuel supply NOW.

You will be Satisfied with Rock Springs Coai
