A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost a half century and has constantly grown in favor and popularity as its good qualities became better known. It is the standard and main reliance for these diseases in thousands of homes. The facts that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children.

Six and a Half Million Farms---

Late census reports state that in the United States there are six and a half million farms with an average of 148 acres. The total value of these farms is nearly seventy-eight billion dollars.

It is evident, therefore, that farming is, not only in importance but in size, the basic industry of our country.

Our facilities are always at the command of the farmer.
