FORD CAR PRICES TAKE \$50 DROP

According to information conveyed to the Fieldhouse Motor company from the general offices of the Ford Motor Car company, there has been a reduction of \$50 per car on the several models which the Ford company puts out. "The reduction in price is effective immediately," Mr. Fieldhouse said "and our company will deliver cars at the new prices. The price of the new touring car is \$298, f. o. b. Detroit, which is much lower than the pre-war price. Before the war this car was priced at \$369 at factory and the reduction Mr. Ford has made brings the price down to \$298, a reduction of \$62 from the pre-war price. Other Ford cars have been proportionately reduced and I believe it will be difficult to supply the demand at the new low prices."

NEW BOOKS FOR PUBLIC LIBRARY

The public library has recently received two boxes of books from the state library. These are known as the "Traveling Library," and are to be kept by the local library for six months as a supplement to its own collection of books. Fifty books in addition were sent which are to be kept in the local library for sixty days. These consist mainly of technical subjects, such as books on electricity, photography, cooking, interior decorating, the various departments of farming, etc.

The library recently received a gift of five boys' books from Thos. Ketel, Jr., a book from A. F. Medins and also eight new juvenile books presented by Mr. and Mrs. A. P. Raynaud. Among this collection are books by Ralph D. Paine, J. H. Ewing, W. Dane Bank, Oliver Optic, F. Hopkinson Smith, Albert Stearns and others.

These gifts were very gratefully received, as the circulation of juvenile books is large, and the wear and tear correspondingly great and the library has been unable to buy many books recently.

THE "REFEREE" REAL ACTION PICTURE

"The Referee," featuring Conway Tearle, which comes to The Liberty Saturday night for one day only, is a gripping tale of the prize ring, and concerns the fortunes of John McArdle, a referee who refuses to be bribed. The heroine of the story, most charmingly portrayed by Gladys Hulette tells her dad, "Big Steve" a gambler, that she will marry McArdle or no one. She believes McArdle to be "square." Her belief in him is put to the test when the fact is revealed that he is going to referee a crooked fight. When McArdle learns that the fight is "framed" he ends the contest abruptly and calls off all bets.

"You wish to know about your future husband?"

"No. I wish to know about the past of my present husband for future use."

PUBLIC SCHOOL Vote 314 x Yes

The purpose of the compulsory public school attendance bill is to insure the instruction of all Oregon children of grammar school age in a common language, a common history and common ideals, to the end that American unity shall be promoted, American ideals safeguarded and American institutions perpetuated.

This bill is proposed because its supporters believe that only by universal education of our children on standard and uniform lines can these things be achieved.

This bill proposes no religious restrictions. It contemplates no limitation of the right of the parent to teach religion to his child in his own way and according to his own belief. It raises no issue of religious difference.

This bill is purely a measure to insure that all children by attending the public schools shall be taught alike during their grammar school years, so that their outlook may grow to be a unified outlook for the common weal and for their country and its institutions.

To make an all-American nation we must have all-American instruction of our children along recognized standard lines. Ignorance of American ideals and institutions and language is the greatest menace to them, because those who do not understand them properly do not support them.
