WARREN

Oscar Simons, who has spent the last five months in a trip extending over the southern part of the United States and Finland, returned to Warren on Saturday and was glad to get home.

The school board and budget committee met on Thursday night at the school house and adjusted the budget for the coming year. There will be nearly \$800.00 less money to raise this year than last, although three hundred dollars was allowed for repairs. Warren school district is one of the few in the county or in the state that can boast of being on a strict cash basis; that is, they have no bonds or warrants outstanding and

have a cash balance on hand. This speaks well for those responsible to the people for the management of the school.

Mr. and Mrs. Hedlund, daughter and son of Rev. and Mrs. Bjorquist arrived Friday from Bemidji, Minn. to make Warren their home. They drove through in their "Henry."

Mr. and Mrs. C. W. Bakesley of St. Helens were dinner guests of Mr. and Mrs. A. L. Morris on Sunday. A car ride over the Warren district was enjoyed by them during which they called on W. J. Euferton and helped him pick apples and water melons.

W. C. Cooper is building the barn for Joseph Erickson & Son which when completed will be the finest in Columbia county, having all the walls of hollow tile and modern in every respect.

Wm. Hammerlock has finished the cozy cottage for Mr. and Mrs. Erickson and will soon be occupied by the young couple.

John Carlson is rapidly pushing to completion the new home of John Johnson. When completed it will be one of the finest residences of the Warren district.

Wm. Hammerlock will soon begin the erection of a homey cottage for himself on the two acres adjoining the property of Mrs. Louise Hazen.

Mr. and Mrs. G. Carlson and family spent Saturday and Sunday at their old home in Aberdeen, Wash.

Mr. and Mrs. Harry Sherman and family of Washington were Sunday guests at the home of Mr. and Mrs. A. Erickson. An automobile trip was one of the pleasures enjoyed by the visitors.

There will be a poultry meeting on the J. A. Johnson farm, one mile west of Warren, Thursday, November 2, at 1:00 p. m. This is the first of a series of poultry meetings that will be held on this farm during the coming year, to discuss poultry problems relating to the poultry business. Those meetings were well attended on the Gabrielson farm during the past year and it is hoped that the attendance this year will justify the continuation of this work in the Warren community.

YANKTON GRANGE IS PROGRESSING

Yankton grange has been progressing very nicely during the last few months. There has been a steady increase in the membership in the way of re-instatements as well as new members being initiated which clearly shows that the grange is steadily gaining ground in Yankton. A pie social was given last month which proved a success, both socially and financially, a neat sum being realized, which has been used in repairing the hall and installing a better lighting system which was very badly needed.

Reports from the last state grange held at McMinnville show that Yankton grange No. 391 stands third in the county in membership and we are striving to be still nearer the top. By the time the state grange meets again may the report be Yankton first.

Grange meets on the first and the third Saturdays of each month and let every member try to be present and work for the good of the order.

OLIVE DAVIS, Lecturer.
Yankton Grange No. 391.

Miss VanPelt has been appointed publicity agent of the grange and it shall henceforth be her duty to let people know that the Yankton grange is still here and doing things.

The grange is now the proud possessor of a new lighting system. The lights were entirely paid for with the money obtained through the social activities of the organization.

Frank B. Leslie of the Puget Sound and Alaska Powder company will conduct a demonstration of stamp blasting at the home of J. H. Steward on November 5.

Several of our members intend going to Pomona grange at Clatskanie on November 4.

Some one has gained an entrance to our hall and stolen three of our regalia. A \$50 reward has been offered for his arrest and conviction.

About Colds.

Just because you have had many colds and always recovered from them, you should not presume that colds are not dangerous. It is the cold itself but the serious diseases that it leads to that are to be guarded against. Pneumonia often follows a bad cold because the cold prepares the system for the reception and development of the pneumonia germ which otherwise would not have found lodgement. It is the same with many other germ diseases. You are most likely to contract them when you have a cold. Children who have colds should be kept out of school until they recover. Get rid of every cold as quickly as possible. In other words take Chamberlain's Cough Remedy. It can be depended upon.

Gloom is responsible for many failures. It works against you and hinders your success. Cheer up, remember the hour is darkest at dawn. Think of Jonah, he came out alright. Smile awhile.

Nothing lasts forever, not even hay fever.

BUSINESS is marked with improvement in all lines. As unusual that of the farmer has been left to last. But we believe when the business of the farm takes a turn for the better, it will be lasting.
