UNFAIR ...and... Unnecessary TAX

The Taxpayers' League of Portland are advising the voters here to vote against the Fair measure for the reason that taxes should not be used for purposes of this nature.

We advise the taxpayers of your community to do the same; you cannot escape your proportion of this tax no matter what the proponents of the fair may say to the contrary.

Save Repairs Paint Now

It Costs More to Rot a Building Than to Paint It

A GOOD way to determine how much it costs to rot a building is to find out how much lumber, needed to repair or rebuild, would cost.

You'll find that it costs several times as much as the paint which saves repairs. Paint your buildings when they need it. Rotting property is wasteful and extravagant.

The most economical paint, in the long run, is the best paint. It's easy to apply—saves labor cost. It covers more area per gallon than "cheap" paint.

The best paint serves five or more years longer than "cheap" paint.

The best paint is economical because it is scientific in formula and preparation. It is right.

We've made best paints for 73 years—to meet the weather conditions in the West. They contain the finest materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—combined in scientifically exact proportions with long-time skill.
