**SPEEDY STAR HAS  
NEW SPEED RECORD**

Charles Jones whose newest photoplay, "Pardon My Nerve," is the attraction at The Liberty Saturday night has hung up a new speed record in this dashing romance of a wandering ranchman. The play is said to be packed with stirring action of the plains where in the older days a superabundance of nerve was needed to be able to answer "present" at life's daily roll call. And with all his daring, his nerve, his stunts Jones stops every now and then to frolic and give his audience a hearty laugh.

**BURNING THE  
YULE LOGS**

The name given by the ancient Goths and Saxons to the festival of the winter solstice was Yule, or Yule. The latter term is still reserved by the Scotch.

The burning of the Yule log, known by other names in continental Europe, was an ancient Christmas ceremony descending from the Scandinavians, who at their feast of Jul used to kindle huge bonfires in honor of their god Thor. Similar bonfires were kindled in Europe and elsewhere at the summer solstice.

The English ceremony of bringing in and burning the Yule log on Christmas eve, which still has its local survivals was full of picturesque detail. The log was a massive piece of wood, frequently the rugged and grotesquely marked root of an oak.

It was drawn in triumph from its resting place amid shouts and laughter, every wayfarer doffing his hat as it passed. On its entrance into the baronial halls, the minstrels hailed it with song and music, or in the absence of the minstrels each member of the family sat upon it in turn and sang a Yule song.

**RAKER RE-ELECTED  
AS PRESIDENT**

K. D. Raker, of Goble, was re-elected president of the state beekeepers' association in a meeting held at Portland.

"The universal adoption of honey as a substitute for glucose artificial sugar food would do away with 90 per cent of the cases of diabetes, intestinal and kidney disorders of humanity, was advocated by Mr. Raker, who addressed the body.

Mr. Raker, who is the owner of one of the largest bee farms in the west at Goble, stated that "according to recent experiments by the Colorado experimental laboratories it has been ascertained that intestinal germs of all kinds are unable to live in honey, and the same applies to the germs of typhoid. It is a noticeable fact that all honey-eating races are practically immune from these diseases."

**THANKSGIVING GRACE**

Here is the cup and here the board,  
But what of a grace to greet the Lord?

Here is the food and here the wine,  
But how shall we praise him ere we dine?

Saith God: "Who fills a brother's plate,  
To use his own need never wait."  
And whoso shareth love and peace  
Hath drunk God's health, and God's increase.

—Woman's Home Companion.

A thing of beauty is a joy forever;  
Its loveliness increases; it will never  
Pass into nothingness.

**FRANZ FARM  
IS SUBDIVIDED**

County Surveyor L. J. VanOrshoven has completed the platting of the Fred Franz farm tract on the Yankton road and the edge of Houlton, or West St. Helens. The farm of 45 acres has been divided into 5-acre tracts. These tracts are very desirable for the man who works in the mills in St. Helens or other industrial enterprises, for they are close in and only 30 minutes walk from the court house. The soil is good and especially adapted to garden and fruit raising. A plat of the land may be seen at the office of the Kavanagh Land company who will have charge of the selling of the property. Very easy terms will be given and it is a splendid opportunity for the workers in the mill and others to secure a good homesite location and have enough good land to raise the garden truck and other produce he needs. The land is some of the finest in Columbia county.—Advt.
