INLAND HIGHWAY COMMITTEE MEETS

Plans Made to Bring Matter to Attention of State Highway Commission and Have Highway Made a Part of State's System.

Representatives from Astoria, Mist, Vernonia, Forest Grove and St. Helens met Saturday night at the Oregon Gills hotel dining room to discuss plans for the Inland highway through the Nehalem valley. The delegation from Clatsop county was headed by Judge T. S. Coffenberg and he was accompanied by the two county commissioners and representatives from James Mott.

Vernonia was represented by Mayor C. D. White, Lester Snedden, secretary of the Vernonia Chamber of Commerce, and Paul Robinson, editor of the Vernonia Eagle.

There was considerable discussion as to the best manner by which to expedite the matter and bring it to the favorable consideration of the highway commission.

Representative Sherman Minor made a motion that the county judge of Columbia, Clatsop and Washington counties and the secretaries of the commercial bodies of the Vernonia and Forest Grove be appointed a committee to meet with the highway commission at the next meeting which was held last Monday. Judge White heard it impossible to attend, but the court was represented by Commissioner W. J. Patterson.

Little was accomplished because of the fact that a delegation from Astoria were in conference with the commission relative to the proposed appropriation for rebuilding a street through the burned area in Astoria.

Advocates of the Inland route are of the opinion that inasmuch as the road connects the three counties mentioned and will bear a heavy portion of the Portland-Astoria traffic, that the state should make it a part of the highway system and that state aid should be given towards paving the road. It is an important highway and with the development now going on in the Nehalem country it will become a more important connecting link of the highway system.

COUNCIL ADOPTS EXPENSE BUDGET

No One Appears to Object to Budget as Prepared by Council and It Is Adopted—Improvement Bonds Sold—Lease on Tidelands Considered.

At their meeting Monday night the council adopted the budget of city expenses as was prepared by the council and the budget advisory committee. No citizen appeared to make any objection to the proposed budget and upon motion made by Councilman Overturf and seconded by Councilman Barnett the budget was adopted.

The bid of Clark, Kendall & Co. for the improvement bonds was accepted. Theirs was the only bid submitted. The bonding company agreed to take the bonds at par and accrued interest from date of issue to date of delivery. The bond issue which is for street improvements amounts to $8,027.83 and the bonds will draw six per cent interest.

An ordinance providing for the lease of the tide lands owned by the city to the St. Helens Lumber company was read for the first and final time and will come up for final passage at a subsequent meeting of the council. The proposed ordinance, which is published in this issue of The Mist, provides that the lumber company may lease the tidelands for a period of years. The ordinance, as it is stated, needs more work done to it to provide adequate frontage facilities for the steamers which will take cargoes to foreign and Atlantic coast ports.

The council decided to allow the St. Helens high school basketball team use the city hall for practice and for their games and Professor Austin, the team coach, assured the council that the hall would not be abused.

Several matters of minor importance were disposed of before the council adjourned.
