THE OREGON MIST. SUBSCRIPTION, \$1.50 PER YEAR. ST. HELENS, JULY 15, 1892 BETTER ROADS WANTED. movement throughout the

country for better roads is beginning to attract considerable attention, and the exhibit at the World's Columbian the exhibit at the World's Columbian Exposition of improved roads and road-making machinery promises to bring this matter more forcibly before the people. The press all over the country is agitating the importance of road improvements, and circulars and open letters are being sent broad-cast over the land to create a public sentiment looking toward the build-ing and maintainance of better roads. The following excerpt taken from an open letter to the people from Albert A. Pope, of Boston, Mass., gives some of the most potent arguments ad-

vanced : "The movement throughout the country for better roads is one of the most significant and important events of the 19th century. It is a popular norising against the bondage which is npon the people that are hampered by poor means of communication; it is a tariff all the more burdensome because of its insidious and needless character

"Good roads cheapen the cost of transportation by saving time, reduc-ing the wear of draught animals and of vehicles, and thus lessens the cost of material to the producer and consumer. One of the saddest signs of the times in the older states is the tendency of population toward the cities and the abandonment of farms. The modern development of "slums," the wretched outcome of life in tenement houses, can be laid largely to the bad roads existing in the farming districts, which in certain seasons of the year prevent then roads are such as to make them difficult of access.

The opportunities presented by the Workl's Columbian Exposition of teaching the 20,000,000 of visitors what good roads are and how to make and maintain them should not be lost sight of. A comprehensive display of since his escape. It is not likely that any these things would advance the movement 100 years and would hasten the coming m of a nobler civilization and a wider Christianity.

Wilson Recaptured.

Charles Wilson, the murderer of Mamie Walsh, near Milwankie, some time ago, was recaptured at Newberg, Yamhill county last Friday by Constable Carter. Wilson came along the road in front of Carter's ouse and aroused the suspicion of the constable, who shortly after gave chase, over taking the fugitive a short distance below. Wilson offered no resistance at first, but social intercourse, making country life cheerless, isolated and narrow. Churches and schools are neglected ening them at the same time. He was

ing them. Mr. Merrill says "strictly honest men do not get rich very fast." Following this theory if that gentleman's life has been cor-respondingly honest with his statements in the Chief, he ought to be a very rich man. He also says he has been a subscriber to Tax Misr ever since it started. This is another falsehood according to the books: this office. And is it not true if a man wil-fally misrepresents one thing he will many; as is the case with our friend, Merrill. He as is the case with our friend, Merrill. He says Tax Misr stated that "the republicans paid liberally for their campaign work."
It did not say anything of the kind. We similar the say anything of the kind. We did say that the republicans paid for the publication of their ticket. He says further that, "It also refused to publish the people's party ticket because they would not pay for it," and implies that we had no right to make any charge for the same. Well, he gets his subscription practically free, and demands that we do his party's work for ng, next he will want to charge us so ch a cubic inch for the air we breathe. re is no ends to the wants of such a But suffice it to say that if George Mersill could once more get an office he sould yet be happy. The Kentuckians used to may, "When you are chasing a fox and most a skunk, keep right on after the ox;" hence we will proceed on our course.
