

SUBSCRIPTION, \$1.50 PER YEAR.

ST. HELENS, NOVEMBER 18, 1892.

PARTY SOLD OUT.

There is a strong feeling among many prominent Oregon democrats that their party and principles were sold out by political trickery at Portland, amounting almost to treachery.

This pronounced feeling that there was trickery comes up from all parts of the state, and cannot be an expression by concert, or coming from any faction, but is as one voice from many different parts of the godly inheritance known as "this Oregon of Ours."

J. H. Whitman, at Medford, received a circular advising all democrats to support the Weaver electors as the surest way to elect Cleveland. Mr. Whitman at once replied as follows:

"The circular is discouraging, disorganizing and disgraceful in its every sentence to such an extent that I dislike to charge it upon any political organization; but it has an author somewhere, and whoever the perpetrators may be, I desire now to denounce them as both cowards and scoundrels, and to denounce the personal insult heaped upon me by sending the trash to me, thereby assuming that I am likewise a coward and scoundrel, capable of perpetrating such base treason to my party and its principles as to distribute the circular."

The democratic managers at Portland have not disowned the circular to this date. The Journal predicts that they will not, and democrats will simply have to put up with it.—Salem Capital Journal.

EFFECT ON LABOR.

The effect on labor of the recent election cannot be beneficial. Money was scarce all through the presidential year. It will not be easier under all the circumstances attending the democratic victory, says the Salem Journal.

We may be disappointed happily in the expectation, but we do not expect to see any more money in circulation than there has been, and there was none too much at best. We do not look for the democrats to inaugurate a free-trade policy, but any policy that is applauded by the foreign manufacturers and by all of the foreign press does not imply better conditions for American labor.

This election returns for Columbia county indicate that the republicans still have a plurality, notwithstanding the fusion. The republican electors received a plurality over the Weaver electors of 167 votes, and a plurality over Pierce (fusion) of 29. One gratifying result of this election is the fact that our vote since last June has increased from 1425 to 1843 votes, a gain of 418 in five months. This is conclusive evidence that Columbia county is growing very rapidly.

CARDINAL GIBBONS, in a sermon delivered before the election took place, made a plea for pure ballots. If we could have pure politicians perhaps pure ballots might follow.

Protection a Fraud and Robbery.

To the Editor of the Oregon Mist: On Tuesday, November 8, a political cyclone swept over fair America. Upon this political sea two ships of stupendous magnitude—Free Trade and Protection—were coursing along under full sail in a dense fog, with foghorns constantly sounding from either ship. Unceasingly the warning went forth from the Free Trade that Protection to American industry is "a fraud; a robbery of the great majority of the American people for the benefit of the few."

Mr. P. Cronin, who has been working in the Tichenor mill the past season, left this week with his family for his claim near the lower Nehalem, where they expect to spend the winter or longer.

The Marvin safe formerly in Conyers' store is now in the drug store, where it is expected to do duty hereafter.

Prof. Cleaton is back from the county seat and at his place, presiding over the schools of this city.

Mr. and Mrs. Z. Bryant are back from a long visit to the Willamette valley, and again occupy the "River-view."

Mr. Wm. Lane and Miss Lizzie Paul of Nehalem were married a few days ago at the bride's father's. They will probably reside near Bureau's mill, where Mr. Lane is working.

and "the few" are getting all the benefits! Money is too dear and too scarce and the necessities of life are costing more than they should, and as for luxuries—well, they are monopolized by "the few" for whose benefit the "great majority" are being robbed! This is a bad state of affairs. "What fools we (republican) mortals be," that we could not see that the protection policy was a suicidal one; that it was nothing more nor less than a gigantic fraud—a deliberate and deep-laid plot to "rob the great majority for the benefit of the few!" How blind we have been all these years that we could not see that the only salvation for the tax-ridden people of America was free trade! But, thanks to the wisdom of the "great majority of the American people," this great veil which has obscured our vision so long has been lifted, and the dawn of a glorious day is now upon us. Mr. Grover Cleveland was elected on the free trade platform by the great majority of the American people, and it is one of the fundamental principles of the democratic party that the will of the majority shall be respected! Free trade is the thing. The great majority have demanded it. They look upon it as the only thing that will save the country from the demeriton bow-wows! It will place us at peace with all the world, and the nations of the earth will point to us with pride and envy and proclaim, "Great is America!" It will build up manufactures and open up new industries; increase our commercial relations by opening up new channels for the disposal of our products, and thereby furnish employment to the great armies of unemployed! Money will be plenty and cheap, and the grinding monopolies and bloated bondholders will be knocked higher than Gilderoy's kite! In the face of these benefits and the promises of the democratic platform, and his being elected to carry out the principles there enunciated, can Mr. Cleveland and a democratic congress afford to disregard the will of the great majority of the American people in the demand for free trade? "Experience is a dear school" and "free trade will never sink into innocuous desuetude until the lesson has been thoroughly learned. Respectfully, M. M. M.

A Cure for Rheumatism.

Dr. P. A. Skinner, of Texarkana, is an enthusiast in the praise of Chamberlain's Pain Balm. He used it for rheumatism, and says: "I found it to be a most excellent local remedy." For sale by Edwin Ross, druggist.

CLATSKANIE.

It is reported in Clatskanie that Cleveland was elected president last week. If the report proves to be correct, we will have a few applicants for postoffice, collector of the port of Clatskanie, U. S. Marshall, lighthouse keeper at Bureauville, and a few other positions.

Commissioner Barnes was in town this week. We were glad to see the commissioner, because he had to travel over that miserable piece of county road past Karvonen's stable, that neither he nor the road supervisor seem able to keep from being made nearly impassable by the refuse from that stable being thrown into it. The present indications point to the same condition of affairs there this winter as last, when it was next to impossible to get through with a horse.

Harvey Tingli was over from lower Beaver this week and declares that he is satisfied with the result of the election, since the new granddaughter is flourishing so nicely and its parents, Mr. and Mrs. Harold Syverson, doing as well as could be expected.

Lyman Jones has his new house nearly enough completed to have a housewarming last Friday evening. The neighborhood pretty generally turned out to tender congratulations and try the strength of the joints in "tripping the light fantastic toe."

Charley Lee's skinned nose was not from being in a fight, for Charley is well known as a peaceable man. But he found out in shooting at ducks that his gun went off at both ends and the back action was most too much for his face. It is better now.

Mr. P. Cronin, who has been working in the Tichenor mill the past season, left this week with his family for his claim near the lower Nehalem, where they expect to spend the winter or longer.

The Marvin safe formerly in Conyers' store is now in the drug store, where it is expected to do duty hereafter.

Prof. Cleaton is back from the county seat and at his place, presiding over the schools of this city.

Mr. and Mrs. Z. Bryant are back from a long visit to the Willamette valley, and again occupy the "River-view."

Mr. Wm. Lane and Miss Lizzie Paul of Nehalem were married a few days ago at the bride's father's. They will probably reside near Bureau's mill, where Mr. Lane is working.

Mrs. A. M. Tichenor and the youngest boys, George and Bert, went to Portland last week rather expecting to spend the winter there, if they don't get homesick. Time will decide that.

OFFICIAL VOTE OF COLUMBIA COUNTY,

At an Election Held Tuesday, November 8, 1892.

Table with columns for candidates and votes. Includes names like Charles John F. Dunne, George M. Irwin, etc.

ALL GOODS MARKED IN PLAIN FIGURES.

140 FIRST STREET 140 UNDER THE GILMAN HOUSE.

J. M. MOYER & CO.

Are now prepared to offer their Renowned All-Wool Goods at a Great Reduction from former prices.

- List of goods and prices: Lot No. 2000, Lot No. 2010, Lot No. 2020, Lot No. 2030, Lot No. 2040, Lot No. 2050. Includes items like Dark Gray Tweed Suits, Blue Wide Wale Suits, etc.

J. M. MOYER & CO.,

Successors to Brownsville Wooden Mills, 140 FIRST STREET, CORNER ALDER, PORTLAND. STRICTLY ONE PRICE. NO DEVIATION.

They took the dog (Shep) along, who is mislaid at the schoolhouse, where he spent the time during the sessions of school in looking after Bert's interests.

Mrs. W. L. Traylor is down from upper Clatskanie, stopping at the City Hotel for medical treatment.

A Cure for Cholera.

There is no use of any one suffering with the cholera when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know—W. H. Clinton, Helmetta, N. J.

The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This Remedy was used there with great success. For sale by Edwin Ross, druggist.

DELENA.

A great amount of rain has fallen in the last few days. The roads are very muddy and but little teaming is being done here.

We are pleased to learn of the wedding of Mr. Adolph Olson and Miss Carrie Nelson, which took place at the residence of the bride's parents on Thursday of last week. We wish them a long and happy life.

Mrs. Wagner has been troubled with neuralgia for several days, but is now recovering rapidly.

Election day passed off quietly here, with a good republican majority showing a marked decline in the people's party ranks since last June.

John Parker brought a fine yoke of oxen over from the Cowlitz on the 8th inst.

John Palm, Sr., has been laid up for the past week with lameness of the back, but was improving at last report.

Mrs. C. W. Mayer and Miss Nellie Mayer, of Mayger, were in this vicinity last Sunday. Come again.

Miss Fanny Burk closed a very successful term of school here last Friday. Miss Burk takes great interest in the advancement of her school, and is in all respects a first-class teacher, as her many friends in this district can attest.

Meserve Bros. expect to move their

Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery, for consumption, coughs and colds is guaranteed to give relief, or money will be paid back.

A Cholera Scare. A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera.

THE STEAMER IRALDA Is now making regular round trips from OAK POINT TO PORTLAND Daily Except Wednesdays.
