The Oregon Mist.

United States and County Official Paper

ST. HELENS, FEBRUARY 10, 1893.

BRIEF MENTION.

Kimball Pianos are the best.

Dr. Willis Morse came down from Salem Saturday for a brief visit.

Gilmore endorses the Kimball Pianos.

Attorney Rice has been in Portland most of the week.

Pianos direct from factory. L. V. Moore, Portland.

The famous Liberati band has again been engaged to furnish music for the Portland exposition in 1893.

Kimball Pianos' endorsed by Patti.

Ralph Duniway, one of Portland's leading young attorneys, spent several hours in St. Helens Tuesday.

Pianos and organs. L. V. Moore, portland.

County Clerk Quick has been confined to his house most of the week from the effect of falling and hurting his lame leg several days ago.

L. V. Moore, Portland, Kimabll Pianos.

The grand masquerade ball takes place in St. Helens next Tuesday night, to which all look forward expecting to have a good time.

Kimball pianos. Moore, Portland, Or.

J. M. Payne, of Clatskanie, made proof on his claim before the county clerk last Tuesday, with Charles Bureau and Peter Herdkletz as witnesses.

Kimball pianos are first class.

At Scio, Linn county, last Saturday a farmer named Otto Serfling shot and killed his wife and then sent a bullet crashing through his own brain. Both died instantly.

Kimball pianos are reliable and durable.

Just now, the boy with a new red sled and a pair of skates is getting more solid enjoyment out of life than any President, king, emperor, czar or sultan on the footstool. They never think of trouble, but just "let 'er slide."

Kimball pianos L. V. Moore Portland.

Professor Looney has received an invitation to attend the marriage ceremonies of his niece, Miss Gussie Steiwer to Mr. R. D. Gilbert, which takes place at Salem next Wednesday. Miss Steiwer is a sister of Senator Steiwer, of Gilliam county, and niece of Senator Looney of Marion county.

Kimball organs. L. V. Moore, Portland.

True, Butler's brain weighed four ounces more than Webster's and Guiteau's weighed just four ounces more than Byron's. No human power can tell from the size of brain how much "think" there is in it, any more than it can depend on a pair of scales to tell the quality of a beefsteak.

Kimball pianos and organs on easy terms.

On Wednesday of last week Martin Gallagher, a quarryman, working for Robert Aiken on Lewis river committed suicide by jumping into the river. As soon as the man was noticed in the water efforts were made to rescue him but were unsuccessful. On Thursday the remains were taken to Portland for burial.

Kimball pianos have elastic touch.

The familiar sound of the Sarah Dixon's whistle Wednesday morning as the steamer rounded Warrior rock for the first time in two weeks, was a signal to our people that the blockade was raised and river traffic again resumed. Her arrival at Clatskanie after that city has been cut off from the outside world for a fortnight will be regarded as one of the great events in the history of that place. The Dixon being the only steamer touching at Clatskanie is always hailed with delight by the populace.

Kimball organs. Moore, Portland, Or.

The pupils of our school think it becoming while the new year is in its infancy to "turn over new leaves." Everybody does, you know! and so by their own united effort have procured and are turning the leaves of a fine, new "Webster's Unabridged," furnished with a patent adjustable stand of the most improved design. This book was purchased in Portland during the holidays by Professor Looney. If in the future a marked advancement in moral and educational attainments of these pupils be noticeable it may be partially accounted for by the new leaves they turned over in 1893.

Kimball pianos defy competition.

The benefit ball at Scappoose last Friday night was well attended—by St. Helens people. About half a dozen sleigh loads of people went from this place. To see the seekers for merriment from here plodding their way through the three feet of snow en route to Scappoose is an evidence of what people will do for the sake of a little sport. The trip was not made without many interesting incidents. Nearly every sleigh was disabled in some degree before reaching the destination. One which started out with four horses was compelled, after going half a mile, to return two horses to town after having broken the tongue out of the sleigh. To accomplish the rest of the journey some of the occupants would get out and walk behind going down grade to guide the conveyance. Mr. Thomas Cooper walked a good part of the distance because of his horse giving out. About 9 o'clock the party arrived at Scappoose and the "ball began to roll," which was continued until daylight next morning. At 12 o'clock lunch was served at the hotel, which was greatly enjoyed by the hungry mob from off the road, but who, from their thrilling experience, were in the best of humor. The affair was a success in many ways. It afforded those from this densely populated metropolis a splendid outing (out in the snow), tickled the Scappoosetes to see what geese we were, and raised $43 for the object intended.

James Clayborn, a fugitive from justice, who is under indictment for aiding and abetting in a prizefight at Scappoose last spring, was arrested Friday by detectives in East Portland and on Sunday Sheriff Massie brought him back to St. Helens, where he was arraigned before Judge Blakesley and his bail fixed at $100, which he was unable to furnish. The sheriff took him to Portland Monday where he will be delivered to Jailer James for safe keeping if he cannot furnish the required security in that city. Clayborn says that during his ramblings in Eastern Oregon recently he met and talked for a couple of hours with Burdette Wolfe, and the latter related to him the story of the Birdie Morton murder in detail.

See the Kimball pianos before buying.

The orchards of Oregon are worth looking after. The state has 36 nurseries covering about 1576 acres and containing about 9,000,000 young trees, and orchardists have upward of 100,000 acres of growing trees. One-half of this acreage is in prunes, one fourth in apples, one-tenth in pears and the remainder in various kinds of fruits.

Don't buy before seeing the Kimball pianos.

The death of James G. Blaine reminds us that our neighbor, Mr. C. S. Emerson, of Houlton, was a member of the Maine legislature in 1862, during the time that Mr. Blaine occupied the position of speaker in the house. He was quite well acquainted with him and says that at that time he displayed those traits of character that afterwards made him prominent in the national councils.

Kimball pianos—deep bass, clear treble.

Road survey No. 83, from Mr. Luman's place to Mr. Kappler's on Milton creek, has been made according to the order of court, the viewers' report being favorable.

L. V. Moore pianos and organs. Portland.

Quarterly examination for teachers began Wednesday. Present: Miss Mary Harmer, M. E. Harmer, Miss Mollie Horner, Mrs. Way and Harvey L. Shatte.

Kimball organs are reliable, L. V. Moore.

Mr. E. E. Quick has received the wedding cards of Mr. R. Reichardt, a former resident of this county, to a Miss Avery, of Iowa, their residence being Chicago.

Kimball pianos and organs warranted 5 years.

Clark Allen, of Clatskanie, has filed a homestead on the n½ of sw¼ and s½ of nw¼, sec 23, t 7 n, r 4 w, in the office of the county clerk.

Governor Pennoyer has vetoed the world's fair appropriation bill.

CLATSKANIE.

This town has had little to do with the outside world lately.

The ice went out of the Clatskanie river on Tuesday of this week to give the steamer a chance to come in. No steamer here for over two weeks.

Coal oil has been scarce for the past few days. Myers' tank, among the merchants, held out the longest, and after his was empty the marshal divided the city supply among the families, selling one gallon to each to last until relief would come from some outside quarter.

Albert Miller has faithfully made his daily trips to Mayger with the mail sack, frequently returning without mail, however. He now drives out and back, his father having made him a light sled for that purpose.

Sam Kelly drove out to Mayger's the first of the week to find coal oil, returning with one case.

Last Saturday the population generally turned out to snowball each other and made a grand success of it. The snow was plenty, and there were spectators enough to make a man feel ambitious to distinguish himself and extinguish the other fellow, and some of the attempts to do both called forth the heartiest applause on the part of the non combattants: for at times when a couple would have an unusually lively skirmish hostilities at other places would cease long enough to watch and applaud the performance. At one time Harvey Brown nearly covered up the county superintendent, but the latter was game if not large, and would shake the snow off his back or out of his ears and come up smiling for another round, while cheer after cheer would go all along the line and the snowballs fly thicker and faster. Among the surprises we report no glass windows broken, showing good marksmanship.

The excellent sleighing has brought out more new designs in conveyances. Henry Doerr built one that ought to be sent to the world's fair.

Another source of amusement during the snow season has been found in coasting, in which both boys and girls, and their fathers and mothers, have taken a part. Each evening, when not too inclement, the voices of large and small can be heard on Nehalem avenue as "swift they go o'er the fleecy snow" down to the foot of the hill. Talk about sport! why, Clatskanie has had plenty of it lately, and just at a time when there was very little else to do.

Saturday morning it was discovered that a flock of wild geese had lit near town. Frank Elliott brought word to some of our townsmen as he came for a gun and he and C. A. Himpel started out prepared for a shoot. Jimmy Rice was after the geese from another direction and the three were successful in getting from one to three geese each. Later other hunters went out but the birds had flown. Beef being scarce on that day the birds were appreciated.

John Lindgren brought over a lot of eggs for shipment the first of last week hearing that a boat was coming in. The eggs are yet at the wareroom and so cold they will not hatch.

The fact of there being no boat into our town did not prevent the arrival of a pair of boys at the residence of Mr. and Mrs. C. Gomme on Saturday evening, January 28. They came to stay and are being well cared for.

We are going to need horsefeed pretty badly if a supply is not brought in soon. Hay is not scarce but shorts and bran generally are about exhausted. A supply is expected in, however, before this is placed in print, inasmuch as the weather bureau promises a thaw.

DELENA.

Owing to the cold weather and deep snow your correspondent has been unable to find much interesting news. People generally are enjoying themselves, though some are somewhat uneasy lest the snow should stay on too long, in which case hay will run very short as many have not prepared for such an extreme winter. Snow, in the Beaver valley, ranges from twenty-six to thirty inches, owing to locality.

We noticed Mr. and Mrs. Holsapple out sleighriding last week.

Mr. E. L. W. was seen going out to Lost creek last Monday. There must be some attraction there. Mr. W. has our best wishes, hoping we may, at least, get a piece of the cake, if not an invitation to attend—What?

Mrs. Eunice Douglass, daughter of Dr. and Mrs. Meserve, is visiting relatives and friends at this place. Mrs. Douglass expects to remain several weeks in the valley before returning home at Troutdale.

Miss Emma Wagner spent Monday and Tuesday last the guest of Miss Fannie Meserve.

Miss Attla Matthews expects to give a musical and literary entertainment at Lost creek schoolhouse this (Friday) evening, to which all are cordially invited. Miss Matthews is a very earnest worker, and no doubt will make a grand success of the undertaking.

The snow last Sunday morning broke down Wagner Bros.' shingle mill, but fortunately did but slight damage to the machinery.

DEER ISLAND.

The present is the worst snow storm that this part of the country ever saw, excepting the winter of 1861-2, which began in December and lasted until spring, and a considerable colder. The snow was about the same depth and so hard that teams could travel on top of the snow most anywhere. One feature about this winter is its mildness. The thermometer has not been down to zero here.

Last Thursday A. F. McDonald received news that his aunt, who resided at The Dalles, died, and he started for that place but could not get through from Portland, so he returned Saturday, the day she was buried. Miss McDonald was a native of Isle of Sky, Scotland. She was the youngest child of Malcolm and Isabella McDonald. Her father had been superintendent of the Banlagh estate for many years previous to his emigration to Cape Breton Island, Dominion of Canada in 1841. He took up land along with his sons, Angus and John, but did live but about two years. Miss McDonald was never married, living with her brother, Angus, and moved to Oregon with him and his family in 1884. She was, at the time of her death, about 75 years old; had been for many years a member of the Presbyterian church and a strong believer in the doctrine of that religion.

SCAPPOOSE.

Thawing began yesterday with a rain. Snow now lies from three to five feet deep.

Trains are running on irregular time, but "get there just the same."

Miss Maggie McKenzie is spending a few weeks visiting relatives at Vancouver.

J. A. Lousignaut is quite sick at his home with erysepelas.

S. F. Shattuck is still confined to his room and the blacksmith shop is closed in consequence.

Holaday Bros. are the happy possessors of a set of the celebrated "encyclopedia britannica."

The benefit ball was a success to all concerned. About $40 was netted. Much credit is due our friends from St. Helens, who braved the storm in sleighs in order to be present.

Misses Gertie and Hattie Mullins and Mary and Maud Watts are attending private school, with Mrs. J. G. Watts, teacher.

Messrs. Mat Englert and C. R. Konkle are the happy fathers of a boy and girl, respectively, for this week's record. Pretty good for these hard times.

Scappoose postoffice is now a money order and postal note office.

Electricity Cures Deafness.

A CARD: Ten years ago one of my ears commenced failing and gradually grew worse, until it was with difficulty I could hear with it. Ringing noises gave me great annoyance. I consulted Dr. Darrin January 28, and was cured of both troubles with electricity in two hours. The proprietor of the Quimby House can vouch for the above statement. Address me at Columbus, Wash.

JAMES A. DEMPHINEY.

Drs. Darrin still hold forth at 270½ Washington street, Portland; Review Building, Spokane, Wash.; McClellen Hotel, Roseburg, Or. and give free consultations daily from 10 to 5; evenings, 7 to 8; Sunday, 10 to 12. They make a specialty of all diseases of Eye, Ear, Nose and Throat, Catarrh, Deafness, Bronchitis, La Grippe, consumption, Dyspepsia, Heart, Liver and Kidney diseases. All Nervous, Chronic and Private Diseases of Men including Stricture, Hydrocele, Varicocele, Impotency, Seminal, Weakness, and all peculiar Female Troubles are confidently and successfully treated.

Most cases can receive home treatment after a visit to the doctor's office. The poor treated free, except medicines when required. Drs. Darrin have a large country practice, and send their electric batteries and remedies by express on receipt of symptoms and $20 monthly for same. Inquiries answered and question blanks and circulars sent free.

Pneumonia.

At no time in the history of the country has pneumonia been so prevalent as during the winter months of the last two years. In times past a common cold was not considered at all serious, but of late years the great tendency of colds to result in pneumonia has made people apprehensive. The trouble is that colds are not always properly treated. No preparation containing opium, wild cherry or chloroform should be used, as they have a tendency to dry up a cold, whereas it should be loosened and the lungs relieved. It has been observed that when Chamberlain's Cough Remedy is used the cold never results in pneumonia. The reason is that this remedy stimulates the mucous membrane which lines the throat and lungs, to a healthy action, causes a free expectoration, throwing off the poisonous matter, and counteracts any tendency toward pneumonia. For sale by Edwin Ross.

Vessel Bottom Up.

PORT TOWNSEND, Wash., Feb. 7.—The barkentine Retriever, seven days from San Francisco, arrived at Hadlock this morning and reports seeing a double-deck vessel bottom up, 32 miles southwest of Cape Flattery, last Friday.

The vessel was green painted above the copper, about 180 feet long and was very deep down in the water. The name was not decernible, nor was there anything else to determine her identity. Shipping men are in a quandary about the identity of the vessel. Her description does not apply to any vessel overdue at this port.

Recent arrivals report unprecedented storms last week off the Oregon and the Washington coasts. Many vessels arrived are reporting the loss of sails and other minor damage. In some quarters it is believed that the derelict reported by the Retriever is the British ship St. Monian, 180 days from Santos, Brazil, for this port. The latter vessel, given up for lost by the charterers, is 90 days overdue.

Several tugs left this morning to search for the wreck. Another unauthenticated report current is that there are two derelicts off Cape Flattery.

The Wilmington Burned.

The steamer Wilmington, owned by the Merchants Steamship Company of Portland, was burned at Linnton Monday morning. The ill fated steamer was on her regular trip between Victoria and Portland with a cargo of lime. While out at sea she encountered a terrific gale which carried away a large part of her rigging and the heavy seas caused a leak in the hold letting the water in in great volumes which caused the lime to slack from which the fire originated. The fire had been smouldering for several days, and when the vessel reached Linnton Sunday night the fire had gained such headway that the vessel was moored and the work of trying to save the cargo commenced, which was continued until early Monday morning when the fire broke through the deck. The entire woodwork was soon destroyed leaving nothing but the iron hull, which is in such a wrenched condition that it is worthless. The vessel and cargo were valued at $50,000, partly insured.

JAPANESE PILE CURE

A new and complete treatment, consisting of Suppositories, Ointments in Capsules, also in Box and Pills: a Positive Cure for External, Internal, Blind and Bleeding, Itching, Chronic, Recent or Hereditary Piles, and many other diseases and female weaknesses: it is always a great benefit to the general health. How It Became Popular.

When people find an article much superior to anything of the kind they have ever before used, they are almost sure to tell their friends about it, and especially if they know of some friends needing such an article. Dealers also soon learn the true value of their goods, and when they have an article of unusual merit they will almost invariably mention the fact to their customers. This accounts in a great measure for the large sale on Chamberlain's Cough Remeby. Here is an instance: W. L. Needham, a prominent citizen and business man of Orrsburg, Mo., has been selling Chamberlain's Cough Remedy for several years and recommends it to his customers' because in his experience it has proven to be the best for colds, croup and whooping cough. He says it is the most popular medicine that he handles, and gives the best satisfaction. 50 cent bottles for sale by Edwin Ross.

From the Piney Woods.

Of the north to the Everglades of the South druggists are besieged by people with every shade of rheumatism, inquiring about Dr. Drummond's remedy. "Will it cure me?" And the druggist points to the fact that the Drummond Medicine Co. 48-50 Maiden Lane, New York, offer a reward of $500 for a case their remedy will not cure. That kind of answer is satisfying, and the sufferer planks down five dollars and goes home and is cured. Not only relieved but cured. Agents Wanted.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Edwin Ross' drug store. Large bottles 50c and $1.

Notice of Sale.

I will on SATURDAY, the 4th day of FEBRUARY, 1893, at 11 o'clock a. m., sell at public auction, at my house on the "Wapato Farm," on the Willamette Slough, in Columbia County, Oregon, two horses belonging to the firm of I. F. Powers, described as follows. One bay horse, will weigh about 1200 pounds, and the other a sorrel with a white face, and will weigh about the same. The said sale is for the board and the pasturage of said horses from the 15th of November, 1891, until the present, amounting to $112, and the costs of advertising and sale.

Jan. 13, 1893—4t F. D. HENRICI.

For Sale!

I have a number of registered Poland China pigs, which I will sell at my place at Scappoose, Oregon.
