Committee on Immigration Submits to the Senate I's Report on Bill Establishing Additional Regulations.

Total receipts from the internal revenue for the first seven months of the present fiscal year were \$96,414,786, being \$7,715,577 more than for the same

period last year.

The Committee on Immigration has submitted to the Senate its report on the bill establishing additional regulations concerning immigration to the United States by increasing by three the number of the excluded classes of aliens. The first includes the illiterate over 12 years of age, and speaking of these, the report says, in view of the slarming changes taking place in the character of immigrants swarming into the United States, the measure is not a harsh one. Aged persons, however, are permitted to come and join their families. The second class comprises persons partially or wholly disabled from manual labor. They are to be made the subject of a special inquiry, and proof must be procured that they will not become public charges. The third class is made up of persons who belong to societies who favor or justify the unlawful destruction of property or life. Under the present law, says the report, they can enter the United States, but the measure proposed is to remedy this condition of affairs.

Springer of Illinois has introduced in the House resolutions for reference to the Committee on Ways and Means, seiting forth that the treaty of annexation with the Hawaiian Islands, if finally radified, will require the government of the United States to pay the public debt of Hawaii and the amounts due the depositors in the Hawaiian postal savings banks, which aggregate \$3,250,001, besides \$20,000 per annum to the late Queen and a lump sum of \$150,000 to the Princess Kaiaulani. It will also obligate this government to pay the inhabitants of said islands a bounty upon supar produced on said islands. The President is requested to furnish the House with information showing the amount of said poetal deposits and the debt of Hawaii, the rate of interest, etc.; also any information about the amount of sugar annually produced in Hawaii and the amount of money required to pay the bounty in case of annexation, besides the probable amount of the other obligations this government will assume as a necessary consequence of such annexation.

The annual report of the Director of the Mint for 1892 shows the value of the gold product in the United States to be \$33,000,000, about the average of recent years. The product of silver was 53,000,001 ounces, of a commercial value of \$50,750,000, a falling off of 320,000 ounces. 000,000 onnees, of a commercial value of \$50,750,000, a falling off of 320,000 ounces from the preceding year. The amount of silver purchased by the government during the year was 54,129,827 fine ounces costing \$47,394,201, an average of 87% cents per fine ounce. From it 6,333,245 silver dollars were coined during the year. The imports of gold saggregated \$18,105,056 and the exports \$70,845,592, a net loss of \$55,579,536. The silver imports were \$31,45,968 and the exports \$37,541,301. The amount of money in circulation (exclusive of the amount in the treasury) was \$1,611,321,573 January 1, an increase of \$18,928,124 during the year. There was an increase of over \$12,000,000 in the gold product of the world during the last calendar year. Of this \$2,500,000 was from Australia and over \$9,000,000 from South Africa. The total silver product of the world increased about 7,650,000 ounces, occasioned chiefly by an increase of 4,600,000 ounces in the product of the Mexican mines.

The Mansona almond plantation in Antelope Valley, Los Angeles county, continues to expand. Two years ago there were perhaps thirty acres set to trees. Now there are about thirteen hourded acres planted, and carload lots of trees are arriving every few days. It promises to become, if it is not already, the largest almond plantation in the world. The trees, if planted in a single row two feet apart, would reach nearly from Los Angeles to San Francisco.

Two schooners from San Diego have been seized by Mexican customs officers at San Quintin, and are held there pending lavestigation. It is claimed the boats were engaged in fishing and abalone catching in Mexican waters, in which case they will undoubtedly be confiscated. Two more schooners were suspected and steps taken for their apprehension. Four schooners are known to be in those waters. The Mexican officials have reported to their home government that a great amount of smaggiing is carried on by means of small vessels from San Diego, which are always to be seen off their coast, extensibly on fishing trips. Application has been made for a smaller steamer to patrol the coast.
