# NATIONAL CAPITAL.

Question of Sheathing Our Naval Vessels Receiving Attention From the Secretary.

Secretary Morton of the Department of Agriculture has devised a plan to test the fitness of applicants for positions not governed by the civil-service rules. Each applicant on thing his application will be required to answer a set of questions. tions as to moral and physical qualifica-tions and on the work which he will be required to perform. He hopes by this means to secure a high standard in the department.

A Republican Senator, who stands high in the party councils, says the proposed Senatorial investigations of a private character and the reorganization schemes will come to nothing this session. They cannot be considered while the contested setts are under consideration and when that subject is disposed. tion, and when that subject is disposed of the Senate will probably adjourn, as the quorum would otherwise disappear within two days after the President tified the Senate he has no further b ness to present to it.

Secretary Carlisle is having prepared a list of the employes of the Freasury Department, with the salaries they receive, and will have it arranged by States. The list has been prepared already to such an extent as to show a great disproportion among the States, some having many more clerks than their proper quota and others less. The Sec-retary, it is understood, intends by every

Assistant Secretary Bussey has The claim for increase was made under the act of Jane 27, 4800, and the Assist-ant Secretary holds that all such claims should be treated as strictly increase claims whether new disabilities are claimed or not, for which a fee of only 12 can be allowed. It is said that probably 200,000 clamps will be affected by

this decision.

The Senate Committee on Foreign Re The Senate Committee on Foreign Re-lations held a meeting the other morn-ing. It is understood that, while favor-able to making public the text of the Russian treaty, it was unable to agree upon a favorable report by reason of dis-agreements relative to the correspond-ence accompanying the convention. A well-known Sepator, who is the chan-rion of general humanitarian levislapion of general humanitarian legisla tion, states that, when published, the treaty will be found neither more less objectionable than several of

looking into the expenditures of the Behring Sea Commission reached some allowances which were extravagant and

settled by this decision.

The Grand Jury at Portland, Or, has indicted M. Koshland of the firm of Koshland Brothers, wool dealers, who failed a few weeks ago. He is charged with fraudulently obtaining about 125, 500 by means of false certificates which he issued to the Bank of British Columbia on wool in his warehouse.

The advent of a Chinaman at Great Falls, Mont., who proposed to open a laundry there, created much excitement, and caused a mass meeting of laboring men, who sent a committee to consult with the authorities. Police protection mors of these exposures have made

men, who sent a committee to consult with the authorities. Police protection was given the Chipaman, but he was forced to forego his design and leave town.

The Planz murder case at San Jose is again Defore the people in the shape of hints at evidence being found, and that sensational arrests will shortly follow.

The theory of suicide has never been rounder the annearmers of the clothing. popular, the appearance of the clothing and the shoes tending to show that the body had been dragged to where it was found. The murder was committed last November.

bill which provides that upon the petition of the parents of fifty pupils in important diction of the parents of fifty pupils in important dictions where Mexicans predominate. The strongest opposition was from the sections where Mexicans predominate. The ground of the opposition was that the result would certainly be the exclusion of English in many schools.

The question of sheathing our naval tis said, proposes to give some earnest consideration. Naval Constructor Hichborn has prepared some important data on the subject. He shows that the Atlanta on her trial trip with a clean bottom attained a speed of 15.5 knots an hour with a 3,345-horse power, white the Boston, her exact duplicate.

the largely increased coal bills when the the undal bottom is foil. For a vessel, the the Chiengo the cost would be be-tween 4300 and 1400 for docking alone. To this mun must be added about 31,000 for scraping and painting. In Great Britain competition has brought the charges for private docks down to a min-imum, but the docks in India, China, Antellia and on the Pacific Coast are Australia and on the Pacific Coast are very expensive. Captain Hichborn recommends that all cruising reseels intended for general service in foreign waters be sheathed if above L000 tons displacement, and that ressels of less than 1000 tons displacement, and that ressels of less than 1000 tons displacement, and that ressels of less than 1,000 tons displacement intended for general service as cruising gunboats, etc., be of a composite construction, with steel-framing wood outside, planking and copper sheathing.
