All communications sent to The Oregonist for publication must be accompanied by the author's real name and not a non-de-plume name.

BRIEF MENTION.

Circuit Court convokes on the 9th of May.

Judge Blanchard was on our streets last Friday.

County Court convokes on the 3d of next month.

Representative Merrill is in town on business last Saturday.

A. F. McDonald, of Deer Island, was in town yesterday on business.

Miss Josie Groves, of Portland, was a passenger down by Potter Wednesday evening.

Captain Tibbitts, commander of a coasting schooner engaged in the lumber business, was in town Sunday.

The new light house tender Columbine, which has been expected here for several days, passed up Tuesday.

Quite a large number of St. Helens' citizens were passengers down from Portland on the Potter Monday night.

Remember that Rose, the druggist, carries a complete stock of everything to be found in a first-class drug store.

The vault to be used in the bank at this place, was supplied by J. H. Johnson, who has been soliciting in this county of late.

Taxes become delinquent on May 1. After that date additional expense will be attached. Taxpayers should not forget this point.

Mr. C. Y. Smith, of the Rainier hotel, is always ready to cater to the wishes of his guests and provides the table with the best in the market.

The work of laying the water mains is being pushed as rapidly as possible and it is hoped by the managers to be ready to supply the city inside of a fortnight.

We are blessed with all conveniences in the way of transportation at this place. A train or a boat to Portland at almost any time during the twenty-four hours of the day.

Steam was raised in the boiler at the works Wednesday afternoon and the advent of the system was ushered in by a loud and continuous whistle, perhaps as a reminder of the fact.

Rosa, the druggist, has been adding to his stock of drugs, chemicals, stationery and notions during the past week and now the stock is complete in every particular. If you don't want to buy, call and inspect.

A local writer cannot be everywhere at the same time, and as there was nothing of particular importance transpired in our city this week, the local columns are rather sparsely filled by brief, pithy paragraphs so much desired by readers of the local paper.

The Clatskanie school directors have engaged County School Superintendent Cleaton to teach another nine-month term of school at that place, beginning in September. His present term will not close there until June. Clatskanie people know a good thing when they see it.

The city fathers are distinguishing themselves in the way of public improvement. New sidewalk has been laid most of the distance on the south side of Cowlitz street and the heretofore dangerous walk in front of the Taylor building has been replaced by a new one. We would say keep right on, by all means, as there is room enough for improvement in this line.

The Columbia Banking Company has been organized with G. A. Massie, W. W. West, J. G. Wikstrom and W. J. Deitz as incorporators. The authorized capital is \$20,000 and the object of the company is to carry on a general banking business in St. Helens, an institution which has been needed here for a long time. The incorporators are all gentlemen of business qualifications and are successful in their undertakings. The bank will probably be ready for business by the first of May.

The steamer Potter, on her way down from Portland Wednesday night met with an accident, but owing to Captain Sullivan's usual presence of mind, no serious damage was done. Just as the big steamer was about mid way between the head of Sauvie's island and the mouth of the Willamette, running close to the island shore where the channel makes a curve, the hydraulic pump to which the steering gear is attached, stopped. The captain being unable to steer the steamer, at once stopped the engines and reversed them. By this he had the steamer entirely under control before she struck the row of piling or breakwater along shore. When the boat struck it created quite a commotion among the passengers, some of whom gathered their bundles and made their way out to fresh air, but upon examination it was found that the damage to the steamer was but slight. The Lurline, following close behind, was signaled and came to the rescue and easily pulled the Potter clear of the piling, after which they both proceeded on their way, being delayed only about fifteen minutes.

St. Helens School Report.

The following is a report of St. Helens public school for the month ending April 14, 1893:

Number of pupils enrolled, 43; total number of days attendance for the month, 730; total number of days absence, 122; average attendance, 36.

The pupils who have excelled in attendance and have received no tardy marks are: Olie Sundby, Fred Watkins, Harry Massie, Eugene Miles, Glen Watkins, Clyde McNulty, Hazel Muckle, Bertha Butler, Hazel Butler, Julia Sabaji, Lottie Cooper, Florence George, Mable Way, Effie Strachan, Pearl Massie, Mamie Muckle, Lenore Watkins, Baby Muckle and Winnie Way.

VALUABLE IMPROVEMENTS.

The Bank Building a Very Creditable Structure.

The new building recently constructed by W. J. Rice, on the river front, at this place, is most assuredly a neat and substantial structure, of which St. Helens should feel justly proud. To be sure, the building is not such a very costly one, yet it is sufficiently so to answer all purposes and demands. A tour of inspection through the building brought to light the many striking features it possesses, and we think the same are worthy a few words of explanation.

The front room is to be used for a banking room, containing the counting table, vault and other necessary requirements for the discharge of such a business as will be transacted there. The Pacific Postal telegraph office is also in the front of this room, and as Mr. Andrews, the operator, has everything neatly arranged about the corner occupied by him, it gives even a more business appearance to the room than before. In the rear of the banking room is Mr. Rice's law and private office, where everything is "carefully arranged with a view to convenience and privacy. In fact, the entire building is as conveniently arranged as could be desired and speaks for itself in behalf of Mr. Rice's good judgment. The wall and ceiling decorations are very neat, and when the building is completed it will add in no small degree to the appearance of our city from a river view as well as from the town.

THE PORTLAND AND ASTORIA.

Corey and Bros. to Pay the Liens and Resume the Work.

There is a report based upon what appears to be good authority, says the Sunday Oregonian, that Corey Bros. will pay the liens on the completed portion of the Portland & Astoria railroad and resume operations at an early date. As it now stands the road is graded eighteen miles from Astoria and a few miles of track are laid. The report comes from Tom Romage, one of the foremen of construction of the road. He went to Salt Lake some time ago and returned here Friday. In conversation with a foreman of a grading gang, who has a claim against the company, he said the work on the road would be resumed soon. Messrs. Remington and Waters, railroad men and capitalists, of Salt Lake, he continued, were en route to Portland with funds with which to discharge the indebtedness of the line. Then Mr. Remington will take charge of the work and will push the road to completion. Mr. Remington has been in Portland and Astoria a number of times. Several months ago he visited the latter city, and then returned to Salt Lake, presumably to interest capitalists in the road. Mr. Waters is not known here. He is probably the moneyed man of the party, and comes here to inspect the road.

GRAHAM—At her home in Portland on Sunday, April 16, of consumption, Mrs. Nettie Graham.

Mrs. Graham was the daughter of Mrs. Elizabeth Perry, of Houlton, and was well known in this section, having been born and raised here. The funeral services took place in Portland Monday, followed by interment at Old Fellow's Cemetery, of which order Mr. Graham was a member.

RICHARDSON—At Gilston, Saturday, April 15, to the wife of D. W. Richardson, a daughter.

SAINDAN—At Deer Island, April 11, to the wife of Thomas Saindan, a son.

RAINIER.

Rainier post-office is now fully equipped with facilities for doing a money order business. The next things wanted are a cabinet, with call and lock boxes, and a more affable clerk, and by that time it will be ready to turn over to Fourth Assistant Postmaster Maxwell.

The scribe for the Cathlamet Gazette thinks Rainier should have a weather eye for the county seat. If Rainier would divest itself of some of the swaddling clothes and babyish curls by getting a reliable survey of the townsite as well as a valid title, build a decent school house, establish a cemetery, and obey the ordinances and regulations of the council there might be some consistency in asking for further responsibility. Better prove faithful over a few things before asking to become ruler of many.

The school board extended Prof. Woods' contract to the last of July. If Clatskanie is pleased with Prof. Cleaton, Rainier is in the swim with Prof. Woods in charge of the school.

M. Pomeroy, in charge of the Reform School farm, at Salem, made us a short visit recently. He says that country isn't just the thing with such weather as the last few weeks has been.

When alluding to the weather, if some ordinance cannot be passed forbidding any allusion to it, the subject should be turned over to the Mutual Acclimation society.

Mrs. S. J. Brain was shocked Wednesday morning by finding her babe dead in his little crib. Dr. McLaren thinks it suffocated. The parents have the sympathy of the entire community in this, their second bereavement.

Mrs. C. H. Johns, of St. Helens, is a welcome visitor at our burg this week.

DEEP CREEK DOINGS.

Evotus Murr—We are glad to note the change in the weather because it has a great effect upon the disposition of the people in general. Sunny weather makes sunny faces, which is an exponent of a sunny temper, and under all circumstances, very requisite to happiness and contentment.

Deep snow, high water and muddy roads have been a source of great annoyance during the past month.

There is some sickness in the neighborhood. Van is confined to his bed with something like pneumonia.

Grandpa Freeman has returned from his daughter's, Mrs. John Seans, where he has been stopping for a month. He is pretty well, considering his age. He cannot expect to recover entirely from his lameness, but he is much better than his claim.

John Seans has given up his homestead, having forfeited his right to it. He is pretty well, considering his age. He cannot expect to recover entirely from his lameness, but he is much better than his claim.

W. D. Smith has given up his homestead, having forfeited his right to it. He is pretty well, considering his age. He cannot expect to recover entirely from his lameness, but he is much better than his claim.

Owing to much bad weather some of our ranchers have run short of feed and hay. A scarcity of feed makes a scarcity of beef, but nevertheless, D. W. Freeman sold six head of fine stall fed calves last week, at a high price. Always sell when the sign is right, is the motto.

What's the matter with some enterprising steamboat man putting a steamer on the Nehalem river. There is a plenty of water eight or nine months of the year, and we think there is plenty of business to justify the enterprise necessary to put it

OVERWHELMING PROOF.

Of the Superiority of Electricity in the Cures of Disease by Drs. Darrin—Who can Doubt when so Many Testify?

So much has been said in praise of Drs. Darrin and their new method of cures by their electric treatment it seems needless to add further proof. We will, however, note the following cures:

Wm. M. Post, Troutdale, Or., almost total deafness, cured; J. T. George, Glendon, Wash., chronic rheumatism five years, cured; Owen James, Spokane, Wash., abscess in left ear, and quincy, cured; Mrs. Mary A. Johnson, McMinville, Or., deafness many years, restored; C. F. Mayhew, 14 Market St., Portland, rheumatism in its worst form, cured; D. S. Well, four miles north of Albina, on Vancouver road, deafness, five years, cured; Wm. F. Hoopes, corner Twelfth and Wash.ington Sts., Portland, cross eye, cured in ten minutes; Mrs. T. B. Hatfield's boy, 214 Eleventh St., Portland, discharging ear and deafness, cured; M. W. Thompson, Vancouver, Wash., hydrocele, six years, cured; Henry Von Helms, Sandy, Or., cancer of the nose and catarrh, cured.

The Drs. will treat the poor free—except medicines—from 9 to 10 a. m., daily, and those who are able to pay will receive medical treatment at \$5 a month for each disease, or in that proportion, as the cases may need, surgical and special diseases excepted. Consultation free. No cases taken if not deemed curable or improvable. Office hours, 10 to 5 daily, evening 7 to 8, Sunday 10 to 12. They treat all curable nervous, chronic, acute and private diseases, and make a specialty of all diseases of eye, ear, nose, throat, catarrh and deafness, loss of manhood, loss of desire or sexual power in man or woman. All peculiar female troubles, irregularities, etc., are confidentially and successfully treated. Most cases can receive home treatment after a visit to the doctor's office. Inquiries answered. Circulars and question blanks sent free. Drs. Darrin charge at the low rate of \$5 per month; or in that proportion as the case may require. This applies to each and every disease except surgical and special complicated cases. The doctors' fall in prices is not only a boon to the poor, but will be appreciated by thousands unable to pay.

DEER ISLAND.

R. P. Graham, of Portland, has become a frequent visitor to this place of late, owing to his connection as receiver of the late firm of Beevis, Nichols & Spawan.

Hon. N. Merrill, of Clatskanie, visited his mother at this place last Friday and Saturday.

John McDonald arrived home about a week ago from San Francisco, via Yaquina, Albany and Portland. He is still employed by the P. F. Telegraph company and intends moving to Kelso with his family, having sold his farm property here to Spawan Bros.

The days the railroad commissioners went over this section of the route, the company tore down the old track they use long for a depot and warehouse and left nothing but the bare platform for people to put their freight on. It is not right for the company to treat its patrons in this way.

Bert Seffert arrived home with his family last Friday from Knappa after being absent about a year. Mr. Seffert is now satisfied with logging and intends to make the ranch his home in the future. He is pleased to have Mr. and Mrs. S. to reside in our neighborhood.

Bumgardner, the district supervisor, and John Schmittka are preparing to move to the Coweman, Cowlitz county, where they have secured a fine home. They are intended to log this summer. The boys are experienced loggers, and without doubt, their success is sure. We regret to see them leave the county, but they are straight-forward, honest men.

Your Delena correspondent is doing a good thing but he is not throwing the mud hard enough to hurt. Wait till it bakes a little, brother, then see how it will hurt. We have nothing to say to you, but please do \$50 a mile, that is, to grade a road sixteen feet wide and plank it. Figure it, brother, and see if your business will pay; mine won't, and lots of my neighbors are like me.

Fearing the editor or some of the devils at the Mist office might think that some of the young ladies of this neighborhood were sending them April fool cases, we are to explain how you came by it. On the 31st of last month Mrs. Elizabeth Merri gave a run-on and a farewell sociable to her daughter and son-in-law, Mr. and Mrs. Elzy George. While at supper Mr. Merri and I remembered the Mist, so they decided to send "him" a sample of the cookery. The sociable being a success, all the children being present except Hon. Norman Merrill and family. There were about twenty persons present.

The likes of this spring weather were never seen here before. No one has done any planting or sowing as yet, to speak of. Fall grain which was sown on the hills and well. The prospect for fruit is real good, and all the old settlers and close watchers of the seasons predict a large crop.

Mrs. Mamie Austin is making her mother Mrs. Thery, a visit before leaving for Portland, where her husband is at present.

Mrs. O. A. Wood is able to be around again, and is in Portland this week with her husband.

It is given out for a fact that the life of the salmon is ended as Mr. Wood is moving to Houlton to open a salmon there, and no one else sees any profit in running a business of the kind these hard times. Well! we must acknowledge that times are hard when a salmon cannot be made to pay.

Moses Price Cured of Rheumatism.

The many cases of rheumatism cured by Chamberlain's Pain Balm during the past few months have given the people great confidence in its curative properties, and have shown that there is one preparation that can be depended upon for that painful and aggravating disease. Honaker Bros., Lorain, Ohio, say: "Mr. Moses Price, of this place, was troubled with rheumatism for a long time. Chamberlain's Pain Balm has cured him. He says that no Balm has so equal." For sale by Edwin Ross, druggist.

STOP THAT COUGH!

Dr. Grant's Cough Cure

It is a cough cure that is sure to cure. It is a cough cure that is sure to cure. It is a cough cure that is sure to cure.
