sithough on rather a diminutive scale, promises to have its uses. Connected with the system is a burglar alarm, by which the individual in charge of the local bank can give notice to the other business houses of any attempt at rob-bery. As a number of shooting irons have been placed in hands that know how to use them, it is safe to say that bank robbers will meet with rather a warm reception if they visit that town.

warm reception if they visit that town. John Schmidt, a young laboring man of Pendleton, Or., who has always borne an excellent reputation, some time ago bought some property, paying part cash and giving a note of \$700 for the balance. The other evening, his savings having reached this amount, he went to take up the note. When it was handed to him, still retaining possession of the money, he ran away as fast as his legs would carry him. He was followed home, and there gave up the money, which he had placed under his wife's pillow. He said he could not explain the impulse that compelled him to act as he did. Good roads and good teams would help to remedy this, and often farmers could work together to ad-vantage in hauling and shipping their groups

Farmers everywhere just now are anx-lous to grow more hogs. We all know what the result of this will be. A few wise men are giving instead renewed ef-forts toward producing good aheep and cattle. They are working in the right direction. Keep well in mind the fact that by in-creasing the yield per acre you lessen the cost of production. You do not have to double the crop to double the profit, as is the case where you double the amount of the land in order to accom-plish the same result.

MECHLAREOUS. It is a waste of time and money to fer-tilize heavily or to cultivate thoronghly land whose first and greatest need is drainage. Apply your time and money to remedy that, and it will bring the best return. The intensive cultivation may then follow to advantage.

### MISCELLANEOUS.

HOPS, WOOL AND HIDES.

The traffic in oleomargarine continues to grow in spite of all legal efforts to cur-tail it. If dairymen would make all their butter so that it was superior to the best oleo, the latter would soon be driven from the market. So much poor butter increases the demand for the substitute.
