A disease over which the doctors are in dispute has raged with considerable virulence in the smelter town of Anaconda, Mont., for the last ten weeks. It is called by some black measles and by others black smallpox.

oche and Goode Springs at once. At the meeting of the International Irrigation Congress in Los Angeles on October 10 Secretary Gresham states that the Department of the Interior will be represented by an officer for the purpose of giving such information as may be desired.

quartz taken out.

As the days pass, the mass of evidence in the District Attorney's and Sheriff's offices at Stockton corroborating the statement of Schultz that he murdered a saloonkeeper near Stockton increases, and when in its entirety it is made public it will prove to be one of the most interesting and romantic tales in the history of American crime.

the people of that section. Mrs. Ada U. Walton, who had been an invalid for twelve years, most of the time bedridden, claims that while on her bed she distinctly heard a voice telling her to arise, as her faith had made her whole. She called for a wrap, jumped out of bed and walked into the dining room. She has had no trouble in walking since.

bed and walked into the dining room. She has had no trouble in walking since. The attention of the outside world is being largely attracted to the exhibits Oregon is making at the great White City. Many of our Eastern exchanges come to us with articles descriptive of the resources of our State. The editor of the Holt County (Mo.) Sentinel, writing from Chicago, pays Oregon the folof the Holt County (Mo.) Sentinel, writing from Chicago, pays Oregon the following high compliment: "As representing the States of the West at the exposition, Oregon, the land of big red apples, stands pre-eminently at the head. Although she has no State building, Oregon makes a magnificent showing of her resources in the several buildings of the fair. Her display in the horticultural building is everywhere acknowledged as being peerless. Here she shows pears weighing five pounds, apples six inches in diameter, plums larger than goose eggs, cherries three and three-fourths inches in circumference and peaches 17½ inches. In her agricultural booth she exhibits grains and grasses that are acknowledged by millmen to be without a parallel. In the flour test made at the fair flour made from Oregon wheat was found to make whiter and finer biscuits than any other PORTLAND AND ASTORIA ROUTE—Morning boat leaves Portland daily, except Sunday, at 7 A. WORLD'S FAIR NOTES.

Very Rich Gold Discovery

The World's Fair Commissioner appointed from New Mexico by President Cleveland has been seated and White, the old member, ousted.

The large statue of Columbus that stood before the main portal of the cold storage building has been donated by its owner, W. H. Mullins of Salem, O., to be creeted upon a suitable pedestal to

be erected upon a suitable pedestal, to mark the graves of the dead firemen.

accompanied by washouts on the roads, delaying trains.

The Women's Christian Temperance Union at Sacramento is waging war on side entrances to saloons.

Some of the Court d'Alene women say they will not ask for a new bonnet until the country has fore coinage of silver.

It has been unofficially decided by the lt has been modicially decided by the local directory not to return to the national government the \$1,929,120 derived from the sale of souvenir coins. The majority of the directors consider their action in voting to rescind the rule for Sunday opening and the return of the appropriation all that is necessary in the matter.

Owing to the fact that it was discov-Owing to the fact that it was discovered that several thousand single-admission newspaper passes to the World's Fair were stolen, the management canceled all these passes, and will get out a new lot to be exchanged for the old ones, to be properly issued as fast as possible. It is not believed many persons secured admission on them till the fraud was discovered. A number of those presenting the stolen passes have been arrested, and an effort will be made to make them tell the names of the persons from whom

the names of the persons from whom they secured them. Oregon is one of the States which has made extensive displays of her fruit products, and her section in horticulture hall has attracted wide attention. The hall has attracted wide attention. The fruit is renewed every two or three days, and is brought daily from the distant seacoast at great expense. C. B. Irvine, who has charge of shipments, has received a large consignment of strawberries. These were five days on the route, making the journey of 2,500 miles through all kinds of weather. Strawberries are considered by fruitmen to be the most liable to injury of any fruit, and the condition in which the consignment reached Jackson Park is thought to be remarkable. The berries were well

was dispensed with. was dispensed with.

One of the most interesting and complete educational exhibits to be seen at Jackson Park is that of the province of Quebec, which is in charge of Boother Andrews of the Christian Brothers. Two sections in the gallery of the manufactures building are devoted to showing the work of the parochial schools in this part of Canada, and one division represents the different stages of scholastic training in the Protestant institutions of the province. The display begins with the that the Department of the Interior will be represented by an officer for the purpose of giving such information as may be desired.

In connection with the recent row at Fe leration cannery on the Naas river, leading the principals, in correspondence critical the policy of the missionaries dealing with the Indians, and holds that the best Indians up there.

A very rich gold discovery about thirty miles from Sisson in the Eddy Mountain has caused much excitement. The hills are full of prospectors, and every inch of ground in the neighborhood is located. The owners of the original strike were poor men, but have abstracted in the neighborhood of \$10,000 in gold from the

The number of pensioners dropped from the rolls since March 4, 1893, is 245, and the total number of pensioners suspended since March 4, pending a further investigation of their cases, is 5,000.

The manufacture of the new arms of the (Kragjerogens) is the investigation of their cases, is 5,000.

fle (Kragjerogenz) is being pressed vig-orously. It is believed the first lot of completed arms will be ready for delivery and issued to the service about Sep tember 1.

The chief of the bureau of statistics reports that during the twelve months ended June 30, 1893, the number of immigrants landed in the United States was 497,936, and during the preceding permitting the well-behaved ones to year 619,320

The charges of perjury made against the Japanese interpreter employed at the United States custom-house in San Francisco have been overruled by the Treasury Department. Acting Secretary Hamlin has sent a letter to the Collector

made by Secretary Smith. It is under stood Burroughs claims that after a soldier has been examined in a legal way and a pension granted the Commissioner has no right to suspend him from the rolls or to reduce his pension, or to com-pel him to be re-examined and go through the form of again qualifying to draw a pension.

An important change has been made by the Treasury Department in the classification of wool that will lower the duty on some grades nearly 100 per cent. The change follows the conclusive defense offices in St. Paul declaring a boycott against the Great Northern in so far, as recognition of its tickets is concerned. The Union Pacific requests all connecting analogous to the grades classified lower in the wool schedule of the McVieler. An important change has been made change follows the conclusive defense of fered by wool importers that certain grades of high-class wool were practically analogous to the grades classified lower in the wool schedule of the McKinley bill. Hereafter material known as 149 and 150 flamatine skin wool and 179 kassapbatchia skin wool, second quality of the first or highest class, will be known as 396 and 397 Servia skin wool and 389 kassapbatchia skin wool, second quality of the third class. The changes in duty according to the rates prescribed for different classes will be seen to be great.
