

Imparts that peculiar lightness, sweetness, and delicious flavor noticed in the finest bread, cake, biscuit, rolls, crusts, etc., which expert pastry cooks declare is unobtainable by the use of any other leavening agent.

·····

Tobacco Smoke Is a Preservative. "You have probably never thought of bacco smoke as a preservative influ-ce, I'll venture," remarked Chatfield Arthur to several companions in the La-clede. "Of course we all know that spirits, and especially alcohol, will keep nole most anything you are of a mind to commit to its permeating care. I have found tobacco smoke to be equally good, with no worse results as regards odor than alchol, unless you dislike to-bacco. I know that I have put bugs, worms and various kinds of reptiles in large bottles and have kept them for years by simply blowing the bottle fall of strong tobacco smoke and sealing it

properly. "The perfect forms would remain for years, in fact just as long as the bottle remained perfectly sealed. Upon open-ing it the result has invariably beenthat is, in cases of long standing-a com pleto collapse. Still the effect is no wors n that of alcohol, for one never thinks of removing a preservative life form from the alcohol. When one puts a form in alcohol, it is understood to be merely for ooks and not for examination or handling."-St. Louis Globe-Democrat.

A Point For Travelers

The advice is given by a well known ociety woman who travels a great deal ar one's best underclothi ng while on the cars. "Never mind if it does get solled," she says. "I have known of the most flagrant cases of neglect during railroad accidents of people whose un-derwear looked as though they might be poor. This is a shameful fact, but the people who pick up the wounded after a wreck are intensely human. Many of them do not propose to open their homes to sufferers unless they are to be paid for it. They judge of the ability of peo-ple to pay largely by their underwear, as the outside garb of most well to do people is more or less the same in these days."

The idea of arraying one's self with a view to accidents when starting out on a journey is perhaps likely to suggest useless forebodings, and this advice is likely to engender a pessimism regarding the character of one's fellow men, but it may be worth heeding .- Her Point of View in New York Times.

Where Embroidery Is Made.

In 1800 St. Gall sent out to the world near \$5,000,000 worth of embroidery. Half of that came to this country to adorn the petticoats and so forth of American wom n. In early times embroidery was made y hand and it was worth its weight in ld. The knowledge of the craft spread through Appenzell, Thurnows and St. Gall, three cantons of the Alps country. A great industry grew The technical skill and readiness of hand of the Appenzell women were marvelous, and gradually the exquisite embroidery made by them secame famous all over the world. Very many thousands of the people are engaged wholly in the skilled business. Girls were trained to it from early childhood. At that time all the beautiful work was done with the hand and in the people's homes. More than half a century ago the hand machine was introduced, and that rapidly changed the whole situation. Today pos-sibly not 5 per cent of the embroideries are made exclusively by hand, and these only of special articles, fine and expensive The hand machine was deand expensive of half the peasants, and factories were founded, where many machines were col lected and worked, but still by hand power only. The character of the work was then and remains now excellent, but the pro-duction was comparatively slow. The prof its were usually large to the dealers. the embroiderer barely made a good living.

It is one of the easiest things in the world to tell pure water from the im-pure. If you want to test the color of St. Louis Globe Democrat

THE OLD DAYS IN ROME.

During the Carnival in the Corso It Was the Duty of Everybody to He Gay. In the good old time-and by the good old times we all of us mean the days that

. .

old times we all of us mean the days that are past and are no more, the days of our yonth, which we remember with a said pleasure, and the joys of which we exag-gerate, perhaps, while the pains we forget --the carnival in the Corso, which, alial is now almost a thing of the past, was a spectacle and an experience full of delight. On that week of asturnalia the old sights and sounds, the old hubbub and gayety and license was renewed, every folly was indulged in and a careless gladness ani mated the world. Every window and hal cony was draped with carpets, tapestries and flowers, gay faces looked out every where and glad laughter filled the air. There were masks and halequins and punchinelli and masquerading and strange unchinelli and masquerading and strange ostumes and singing and mock gallantry

The God Momus reigned. All the world focked in from the country, and the old dresses and costumes which in every town dresses and costumes which in every town in the vicinity of Rome were then worn daily, were to be seen. Now those cos-tumes have for the most part utterly dis appeared, and are only to be seen now and then, or on the persons of the models who pose for the artists. They were very gay, very various, and it was a pleasure to see them. Now they have given way to the commonplace and shabby dresses of today But in the old carnival they were every where to be seen. Improvised balconies and stagings were erected all along the Corso, and these were filled with country so, and these were filled with country girls in their costumes.

girls in their costumes. Up and down the street, in double files, slowly and at snail's pace, throngs of car riages followed each other, filled with flowers which theoccupants scattered right and left, laughing the while they pursued their slow way through the dense crowds that filled the streets. Flowers and con-lett of the streets. fetti showered upon them as they passed, and there was a general hubbub of jollity and confusion and madness, as if old Rome's descendants were still alive and shoating in triumph.-W. W. Story in Scribner

A Touch of Human Nature.

It is impossible for one who has been "human" to forget that he or she was "human," and everything tends to prove this assertion. A story is being told that brings out this truth. In a convent near St. Louis there is a nun past middle age She is as pure and devout as it is possible to be. That is to say, she is entirely un to be. worldly. Many years ago, when she was a young girl, her father owned a large plan tation and numerous slaves in Kentucky. At that time there was a negro slave who loved the beautiful young girl. It was not the devotion of a faithful servant, but the doration of a lover. Though he never made an open avowal

of his passion, he followed her around and watched her until his love became a matter of public notoriety. The girl was very devout and finally left her home to enter a convent. She entered in the bloom of young womanbood and is now a woman advanced in life. A few days ago members of her family from Kentucky visited the convent, where she now is. Upon seeing them visions of the old, old days and the worshiping love of the dusky slave must have crossed her mind, for her first ques-tion was as to what had become of the negro lad who had persecuted her with his adoration.-St. Louis Republic.

A Zuln Porter.

Among the queer odds and ends of hu manity that have lodged hereabout none is queerer than a certain Zulu, who may be is queerer than a certain Zulu, who may be seen any morning at the Court street sta-tion of the Kings County Elevated road, where he now pursues the peaceful occupa-tion of porter. This gentleman may be recognized from other Africans by a huge topknot of natural wool, which began to grow many years ago in his native land He also wears a pair of large goggles, through which his eyes gaze with an ap-pearance of great restfulness. The Zulu is put down on the pay rolls of

The Zulu is put down on the pay rolls of the company as Thomas Murphy. When he is at home in Zululand he is called Quongo Perceriah. Mr. Murphy says he was been in Gluon in 1950. He was born in Gilou in 1850. He came to this country with Chief Two Strike, and rity. This bow is most difficult.

Why People Marvel at Telepathy.

Nothing in nature is really abnormal. It most prohable that a power to influence the minds of others, with a susceptibility to be influenced by other minds, exists in human beings universally, in a greater or less degree. To the hypothesis, abstracted less degree. To the hypothesis, abstracted ly considered, that mind can act on mind directly-that is, not only through no known medium, but without any medium whatever-1 see no valid objection. The action of mind on body, and that of body on mind, is far more mysterious than any action of mind on mind. For it is com paratively easy to understand that things of the same kind can affect one another directly. Yet to many persons mysteries with which they are familiar seem to be no mysteries at all, they wonder only at that which is unusual, and marvel at tele pathic phenomena as savages at an eclipse. -Blackwood's Magazine.

The Hobbles of Royalty.

The Prince Regent of Bavaria has a large collection of beetles-the most complete in Germany-and is also a great observer of the habits of anta, bees, files, moths, etc. Of other royal persons King Oscar of

Sweden may be mentioned as a collector of books of poems with autographs of the writers.

The Czar Alexander III has preserved age preserves fifty pints of fruit or a barrel of cider, and only costs 60 boy, and the king of Roumania's ambition cents. Fruits preserved with Anti-fermentine retain their natural taste and appearance. Ask your druggist or procer tor Anti-formen.

As Old Expression.

"Conspicuous by his absence," an ex pression of considerable force, came into pression of considerable force, came into prominence after having been used by Lord John Russell in an address to the electors of London. He was afterward candid enough to admit that it was not ar original expression with him, but taken from one of the historians of antiquity His confession is to classical research and the expression was found in the and the expression was found in the "Ar nais" of Tacitus From this author we also have "God always favors the heavles: battalions," an expression afterward used by Terence, Voltaire and Sevigne.-Phila delphia Ledger
