PERIS.—R. H Bailey, of this place, attended the teachers' examination in the county seat last week....R. Frye was in your city last week....Among the wonders at this place is that it has snowed every Thursday for the past two months....A recent report came to us showing that Jesse Hendricks, jr., who was reported as having got hurt by falling off a log some time since, was hurt while cousting....One of those who attended the masked ball at St. Helens from this place reports everything as being a success, but says it would not have been had the management depended on their home folks altogether for their dollars and dancers. As they did not, it was a little above the expectations of some of those who remained at home, or went around talking to keep others away, because they could not get in for half price or free, and have as good time as they have usually had at other balls....J. H. McDowell, of Nashville, Tennessee, said in his political speech not long since that the Cleveland-Sherman combination is making more votes for the people's party than all the populist campaign orators and newspapers combined. He said that in the south the populists averaged 30,000 voters in each state, while in the north two-thirds of that number had not yet been received. We think that number will soon be reached in the north and west if they take in any and everyone as they do in this part of Oregon. We do sincerely hope that all states will be able to elect coroners this coming election.

MAYGER.—The dance at Blackford's was a grand success, there being about sixty people present. Harry French was in his glory, as he brought the Widow Greene, and we hear that our friend, Frank L., is very down-hearted, but I think he is too slow. Frank will come out all right in the spring if things are favorable....I see that every time Brother Henderson wants a good square meal he goes to the Hotel de Fluhrie and fills up, and it generally takes from two to three days. Ta ta....Our friend, C. McDonald, has been troubled of late with sore throat, but Miss Alice Aikins prescribed liquid glue for his throat, and it acted like magic....Our amiable host, Mrs. Fluhrie, thinks of going into the chicken business, and has bought a fine lot of chickens of Mr. Anderson. Eggs will soon be cheap again....It keeps Louis Fluhrie all his spare time of evenings entertaining Mr. Mayger by playing pedro, and his—I.M.T.....Fluhrie brothers' shingle-mill has cut one million five hundred thousand shingles since it started up two months ago, and they run with a half crew of men....Mr. Johnson has moved up to Skunk hollow to cut wood....We hear the Blue Vitrol mill will start up next week....Our blacksmith, McDonald, shod Blackford's horses last Saturday, and came near being eaten up.

RETURNED FROM AFRICA.—Alexander Macauley arrived here Saturday, enroute to his home near Vernonia, from which place he has been absent seven years. During his absence Mr. Macauley spent three years in the Coeur d'Alene mines, the next two years in the East African diamond fields, and the past two years in the Wahoo gold diggings in Emin Bey's province, Equatorial Africa, at which place he was very successful. Last December Mr. Macauley left the diggings, in company with eight friends, to go to the coast for supplies. On the way his party was attacked by some two hundred natives, and during the fight, which lasted an hour, three of the miners were killed, and three wounded. Mr. Macauley received a shot in his left foot which compelled him to come to the United States for medical treatment. During his convalescence he decided to visit his family, whom he had not heard from since going away, and who will be overjoyed at his return. Mr. Macauley speaks in glowing terms of the Dark continent, and will return to that country as soon as his wound will permit.

HE GOT THEIRS.—There is an item afloat to the effect that in a neighboring town is a lodge of the farmers' alliance, which meets Monday nights. There is only one lodge room in the town, and Tuesday nights it is occupied by the Knights of Pythias. The president of one of the sub-alliances came to town Tuesday, and seeing a light in the lodge room, concluded he would go over there. He gave the proper knock at the outer door. The wicket was raised, and an ear placed to hear the pass word. "I plow, I hoe, I spade," whispered the alliance man. The ear was replaced with an eye, and in turn it gave place to a mouth, which whispered in reply, "The h—l you do," and the wicket dropped with a bang. The indignant farmer shortly after met a "brother," to whom he told his tale of woe. "Why, dod burn it," was the sharp comment of the brother, "them's Knights of Pythias and you've give 'em our pass word." "Dogged if I ain't" was the response, "but (brightening up) durn 'em I've got theirs."

SUBSTANTIAL ROADS.—Good roads would make it possible for the farmers to take advantage promptly of the highest markets, no matter at what season of the year, and would lessen the expense of keeping horses in working order, and fewer horses would be required in the country to perform the farmers' work. They would afford ready communication with the outside world at all times of the year, and would practically shorten the distance to the local market. They would bring every farming community into closer social relations, and an evening drive would be more of a pleasure than a vexation, as it now is. The most important point of good roads is that they would require less to keep them in repair than do the dirt roads, and would increase the demand for farm property.

ASSESSORS' CONVENTION.—The assessors of Oregon are to meet in Portland today, and it is expected the convention will be a representative one, and that much benefit may result from the conference. A number of important questions in connection with the matter of assessing will come up for discussion.

BIG TIMBER LAND SALE.—Thomas Devine, the well-known speculator in timber lands, has disposed of a tract of 6,400 acres, situated in the Nehalem valley, to a company composed of New York and Boston capitalists, for $72,000. This is the first deal made in Oregon timber lands for some time, and shows that eastern people are looking for investment in this kind of property. This is probably the first large tract of timber land bought in this section by New York and Boston people. Nearly all purchases of this kind have been made by capitalists of Michigan, and none have been made east of Detroit. Another company is negotiating for a large tract of the same kind of land, and there is a prospect that quite a number of sales will be made the coming season.

NOW IS THE TIME.—Certainly, when trade is most needed it behooves the merchant to make his greatest efforts to obtain it; and if he is using mediums that have proved themselves valuable and effective in producing returns when business was brisk, he should continue using those mediums when it is dull; and if any change is made in the amount of advertising done, it should be in the direction of increasing, rather than diminishing the same. He would thus, instead of adding to the panicky feeling, impress the readers of his announcements with some of his own confidence in the value of his goods, and serve to bring to an end the period of depression, and hasten the return of confidence in the community and normal conditions of trade.

IT PAYS.—In this age the business man who does not advertise is doomed. Every style of advertising pays, but the greatest results are acquired from utilizing the advertising columns of a properly-conducted journal. An inch advertisement in a newspaper is worth a dozen on the fence. We never knew of but one case in which advertising did not pay. It occurred in Chicago. A burglar overlooked $80 in a bureau drawer, and the paper so announced. He returned the next night and not only secured it, but a suit of clothes besides. Death and discontinuance of an advertisement are regarded as positive evidence of going out of business.

NEWLY ORGANIZED.—Thomas B. Reed division of the Columbia County republican club was organized at Milton Friday evening, with a good enrollment, and a fair prospect for a large and enthusiastic membership. This plan of organizing the republicans of this county is proving a flattering success, and the work of organizing similar clubs all over the county will be vigorously prosecuted. The state committee and our congressional representation have pledged us their hearty support and co operation, and the campaign in Columbia county this year promises to be the warmest in its political history.

FADING AWAY.—At one time in the history of Oregon, the Rogue river Indians were a powerful and warlike tribe. The prominent part they took in the early wars in the southern part of this state, show that these noble red men were a foe not to be held in contempt by the "Boston men." But this once numerous tribe has faded away before the advancement of civilization until there are only two survivors left. These two Indians who "lag superfluous on the stage," are now on the reservation at Grand Ronde in Yamhill county, and are drawing rations from Uncle Sam.

SLIGHTLY UNFORTUNATE.—As the little steamer Carrie F. was coming from Kelso to this place last Wednesday night with a crowd of excursionists to attend the dance, she was so unfortunate as to run into a fish net just this side of Kalama. The net got tangled up in the propeller and had to be cut loose, but even then there was so much of the net wrapped around the wheel that it greatly retarded the progress of the little craft.

OREGON RANKS SEVENTH.—Although the State of Oregon has not made much noise about its mineral wealth, the report of the director of the mine shows its rank, as a gold producer, to be seventh, having an accredited production of the government mints, and assay of offices. Oregon today unquestionably offers one of the best fields on the North American continent for the gold miner, and many have been extremely fortunate during the past year.

TEACHERS' CERTIFICATES.—At the examination of applicants for teachers' certificates held here last week by Professor Cleeton, an unusually high average was made by all who took the examination, and with three exceptions all earned a certificate. The successful applicants were Misses Maud Bryant, Ora Gilham, and Hattie Mullen, and Harvey Shatto and C. W. Beers.

FOR SALE.—The fine Norman stallion, "Tempest," is for sale cheap. For full information concerning age, pedigree, etc., call on R. Cox, or Muckle Bros., St. Helens, Oregon.

Thomas B. Reed republican club meets at Houlton tonight (Friday.)

It is thought that on Wednesday night the thermometer reached the lowest point registered this winter.

Justice Woodham, of Reuben, was in town Wednesday evening, and was initiated in the republican club.

Wednesday and Thursday mornings the sun raised clear and red over the grand Cascade range, the snowy peaks glistening like burnished silver. It reminded Mr. Dolman so much of his old Nevada home that he went around marking down the prices of goods, all day.

Ben Harrison Division of the Columbia county republican club met at their hall Wednesday evening and proceeded with the regular business. There will be a regularly arranged programme for next Wednesday evening and every republican in this precinct is requested to be present. Ladies are also requested to attend. Much enthusiasm is manifest, and the club promises to be an instructive and entertaining thing to attend.

It's amusing to note the prognostications of local weather prophets. We've quit.

A long list of real-estate transfers were crowded out this week on account of more important matter.

The fast and favorite passenger steamer, Sarah Dixon, continues to arrive and depart promptly on schedule time. Obliging officers and prompt service has earned for this steamer an enviable reputation with the traveling public.

The bean-shooter craze is now on in this place, and the small boy is using that weapon quite recklessly. The bean-shooter is a dangerous weapon, and there is an ordinance against it being used in our city which the council should see enforced.

A new counterfeit $10 note has turned up. It is on the bank of Vergennes, Vermont. We advise our brethren to go carefully over their $10 notes to ascertain how many counterfeits they may have. We haven't any; any counterfeits we mean, of course.

Columbia county's state tax for the current year amounts to $6,711.91, and the treasurer has been officially notified to make payment of the above amount to the state treasurer within thirty days from the first Monday of February, in compliance with section 2813 of Hill's Annotated Code.

The boys about town could be seen the fore part of the week skating on the sidewalks, the snow having been packed and frozen sufficiently to admit of skating. Wednesday morning the lakes at the edge of town were covered with about an inch and a half of ice, and a large number of the lovers of skating could be seen enjoying that exercise.

The many friends of Thos. C. Watts, our efficient sheriff, will be pleased to learn that on Wednesday of this week at 5 o'clock in the afternoon, at the rectory of Trinity church, in Portland, Miss Rachel E. Jaquish was married to him, Rev. Thos. L. Cole, officiating. The wedding was a quiet, yet novel one, only a few immediate friends being present. The newly-married couple have the best wishes of a host of friends, and THE MIST, among the others, steps to the front with congratulations for groom, and to the bride we wish much joy and happiness.

### HOW'S THIS?

From the Oregon City Courier.

Under the above caption, the noted reform lecturer, Prof. M. V. Rork, receives the following gratuitous advertisement in the Heppner Gazette:

"Prof. M. V. Rork, state lecturer of the farmers' alliance, was in Heppner over Sunday, lecturing at the courthouse Sunday afternoon. No one questions his right to disseminate the principles of reform throughout the land, but if we are not wrongly informed, Prof Rork is a disgrace to the cause he represents. What right had he last Sunday night to force an entrance into the room of a well-known young man of this town, and if this was a mistake, why did he take or attempt to take improper liberties with this young man's person? Why did he attempt last Sunday to get this same young man to stay with him over night, and what was his purpose judging from his conduct latter on? It is the general opinion, based on this incident and backed by other evidence, that Prof. Rork is a dastardly villian who has an unnatural mania for indulging in crimes against nature, too horrible to relate here, and beyond the comprehension of any decent person. If Prof. Rork thinks that the Gazette cannot prove what it asserts, let him start the ball rolling. It should be an everlasting warning to our people here not to allow every stranger to force himself upon them as a moralist and temperance worker. Last Sunday evening P of. Rork was a very prominent factor in the temperance meeting at one of our churches."

It has been said that while Prof. Rork was located in Salem as minister of the Unitarian church, he also attempted to take "improper liberties" with young men. As he goes about reforming people, it is highly necessary that the people know whether he is an upright man or a beastly, villianous hypocrite.

### FISHHAWK.

We are now having some genuine winter weather, but are glad to report good health in this neighborhood.

One would suppose from the way the young people have been shaking their heels this winter that hard times has but little effect in the Nehalem country. They had a rousing time at Mr. Turpin's on Christmas night, there being about fifty numbers out, and on New Year night Mr. Daywalt gave a dance where there was a jolly good crowd, splendid music, and tables well filled with all the good things any reason able person could ask for. There has scarcely been a week that there has not been a social gathering of some kind in the neighborhood.

Improvements in the way of fencing, clearing land, and building is going on in spite of tariff reform legislation.

W. E. Van has the timbers on the ground for a first-class barn, 26x40 feet with a shed sixteen feet.

Frank Van is making shingles to re-roof his already commodious barn.

Jim Brown is building a comfortable residence just below the county line. He took down a raft of lumber from Lane's mill last Saturday, and also a lot of fine cedar ceiling from Freeman's mill.

E. E. Lindell is using a big lot of lumber from Pittsburg, having received a large raft of about 12,000 feet last Saturday.

D.W.Freeman has timbers on the ground for his new dam, and is expecting to build a new grist mill as soon as the weather will permit.

The fact is there has been more substantial improvements made in the Nehalem valley during the past two years than ever before in the same length of time. Looking at it from an unbiased point of view it is easy enough to understand: When men get ready employment outside at from $45 to $65 per month, of course a majority take advantage of the good wages to the detriment of their improvements at home. The consequences are that it takes their summer's wages to buy their winter's supplies, and not much is done in the way of improving the ranch. Scarcity of employment abroad makes it a paiuful necessity to seek a living in the tilling of the soil; hence the material improvements in agricultural matters.

We are informed that Mrs. Emma Baird has finally secured her well-merited pension. She is entitled to back pay of several hundred dollars which will place her in comfortable circumstances.

Joe Freeman has invented a new method of getting rid of the old folks and "kids." While on his way to Mr. Daywalt's dance on the evening of the 14th inst. in company with his mother, his little brother, Warren, and Mrs. Lonkey and her three little boys, he found a very soft place in the road and there he spilled out his load of humanity. Well, it is useless to say that they changed their minds and concluded they hadn't lost any dance, but on finding there were no bones broken, Joe skipped out and took in the dance just the same. We think he deserves a "cromo" for his Valentine trick.

### THIRTIETH ANNIVERSARY.

**The Knights of Pythias Celebrate at Rainier, this County.**

The thirtieth anniversary of the Knights of Pythias was celebrated by lodge No. 58, at Rainier, by giving a grand supper to their friends on the evening of Monday last. Each knight, of which their are some thirty-two in this lodge, was privileged to invite several of his friends, and the result was that upon entering their beautiful hall one found as happy a looking group of nearly one hundred people, in rich but not gay attire, as they could wish to see, while two long tables had been carefully arranged and loaded to repletion with viands which would cause the mouth of an epicure to water in anticipation of what was before him. All having been seated, Chancellor Commander M. Both arose and announced that a brief program had been prepared, and the exercises were opened with music followed by a brief invocation by Prelate Brous. Knight W. A. Wood then arose, and in dignified and measured terms extended a welcome to the guests, and gave a brief and concise review of the origin and progress of the order. Brother C. L. Colburn, of St. Helens, responded in behalf of the guests in appropriate terms, after which Brother W. J Rice stepped forward and delivered one of his forceful, convincing, and characteristic addresses which rivited the attention of the audience for over an hour. So eloquent and persuasive was his logic that the brother knights may well feel proud of the aims and objects of their order, and the casual visitor, who had not given the subject much thought, felt like King Agrippa when he said to Paul, "Almost thou persuadest me to be a Christian." Closing with a few needless apologies, he was compensated by a hearty round of applause, after which more music followed, including a humorous solo by Mr. Colburn which Rainier never fails to appreciate, and in this case he was so heartily encored that he responded with another song. By this time everyone was in the best possible mood for the elegant supper awaiting them, and cheerfully responded to the invitation of the chancellor, and soon the joyful peals of laughter proved the happiness of all present. More music followed, and although the program was fittingly completed by an appropriate benediction by Prelate Brous, yet the guests lingered for nearly two hours and enjoyed a time which will not soon be effaced from the walls of memory, thereby closing one of the most successful social events in the history of that little town.
