The Oregon Mist

United States and County Official Paper.

FRIDAY, JUNE 22, 1894.

PENNOYER gave President Cleveland a sample of gubernatorial politeness and proposed to follow it up with senatorial courtesy, but Oregon has excused him.

IT has been stated to us that our worthy contemporary, (excuse us) the Sentinel, will reduce the size of their paper in accordance with its receipts. That's what we told you. It is just now gapping its last.

THE flood is receding, the populist pill is getting more bitter and harder to swallow, the country is still hopeful that congress will soon adjourn, and circumstances everywhere have a different complexion.

THE Sentinel man howls very loudly about the republicans carrying the state by "corruption and repeating, bribery and other disgraceful acts." We don't know how the brother got his information unless he judges the rest of the state by the way the populists carried Auburn and Beaver Falls precincts? You evidently speak from experience and personal observation in Auburn precinct. Better wash the stain from your own garments.

BENT on being an office holder, M. Davison is the incumbent of a neighborhood postoffice some place in the back woods on Upper Rock creek. Sizing this fellow up from the exhibition he made of himself in the late campaign, we are convinced he is about in his element, only a little too close to civilzation for absolute safety. At least that was the verdict of the people of the county, and we cannot refrain from complimenting them for their good sense.

THE Sentinel, populist, says: "By rejecting the initiative and referendum and voting with the republicans the people haven't sense enough to know what laws they want." It is safe to say the people of sense never get it from the Sentinel. The populist platform classes foreign born citizens as "paupers and criminals," while the mouthpiece of that party in this county says nobody but populists have any sense. Give the calf time and he will complete the extermination of his fiat party.

IN numerous localities the work of repairing and replacing property that was destroyed by the recent flood will be vigorously executed. Since the season is so far advanced the work will have to be pushed in order to enable the unfortunate ones to do a season's business. The dairy industry has, perhaps, sustained more serious damage than any one kind of business, and it will be late in the summer before the dairies can be operated at the old rate, even should the water continue to rapidly fall.

FOR the welfare of the health of the community THE MIST wishes to urge the necessity of immediate action on the part of our citizens in regard to the thorough cleaning and disinfecting of back yards. The accumulated filth and the approach of hot weather forces to mind the danger of pestilence and disease, and unless there be much care exercised St. Helens is doomed to be the sickliest spot on the Columbia river, this summer. A few handfulls of chloride of lime is probably the most effective remedy that can be used. By all means try it.

OUR populist friends would have people believe that their vote in the state is on the increase. They misquote the facts. Pierce, fusion candidate for presidential elector two years ago next November received about 35,000 votes and the other three populist candidates for electors received about 26,000 votes each. While for congress this year the party only polled a little over 20,000 in the state, or a decrease of about 6,000 votes in nineteen months. If this kind of an increase is any consolation to the party we hope they enjoy it.

A COMMUNITY is measured by the character of the people who compose it. Socially and morally speaking the standing of a neighborhood is what it is made to appear to the world by its people. If, perchance, it be made up of law-abiding, industrious citizens, who attend to their own business honestly and legitimately and let everybody else' alone, such its reputation will be before the world. But doubly noticeable is its actions if composed of the more vicious classes who "toil not, neither do they spin." In some communities are to be found men who employ their time decrying those who attempt to make a living honestly by their energies. It has been said that "out of the fullness of the heart the mouth speaketh." Consequently the prattle of such people goes forth as an evidence of their cussedness, noticed only by those of their own stripe. Coxey's army is the proper place for such vermin to civilization. Society has no place for such creatures.

LAST Friday, in Portland, the annual meeting of the Oregon Pioneers' Association took place. The birth of the Association dates back a good many years, and from outward appearances those hardy old pioneers fully enjoy these annual gatherings, where they can again mingle together and talk over the scenes of danger and privation which attended their journey years ago, to the then unexplored and uninhabited Pacific Northwest. But at each meeting of the Association year after, there is a noticeable falling off in the number in attendance. And so it will continue until divine providence shall have claimed her own. Those who assembled last week to rejoice in the fruits of the patriotic deeds of their earlier life in laying the foundation of civilization in this fair state may be called hence from whence no traveler returneth ere another meeting time rolls around. The Oregon Pioneer performed his work well, and the people of this state should do honor to their memory for all time to come.

SALARY SYSTEM EXPERIMENT.

THE county officers-elect will enter upon their official duties under the salary system one week from next Monday. The salary system has never been tried in Oregon, and at best cannot be considered in any other light than as an experiment for the present. It may or may not work out to the best interests of the county. It is true the fixed amount of salary is not so large for the clerk and sheriff as the amount of their fees in former times, and it is also true that the service under salary will not be so good. Aside from the regular salary provided for the sheriff there are certain emoluments, to which that official is entitled; but these are few in number. The law does not provide for any mileage or expense bill for the sheriff in searching for criminals, no pay for serving warrants of arrest, and consequently offers no compensation for efforts to preserve good order. This, it is true, is along the line of temporary economy. But will the people be satisfied with such a service? It may be said that an official, in anticipation of reelection, will take great pains to accommodate the people. It will, perhaps apply during the official's first term of office, but how about it when he shall entered upon his second term with no hopes of a third? Then he will probably confine himself strictly to routine work and care little or nothing about accomodating the public.

In a public office as well as in mercantile business if a man's income depends upon courteous services rendered, people are sure to be better satisfied with those serving them. But the salary system has not yet been tried, and if, after a fair trial it proves to be practical, the county will profit therby. If, on the other hand, it proves unsatisfactory, the people have a chance to say so in time to cause its repeal. Of course no law could go into effect for two years, or until the expiration of the term of the new officers-elect. As we said before, it is but an experiment and awaits proof of its good or bad qualities.

THE LAW VERY EXPLICIT.

The law regulating the procedure in the collection of delinquent taxes is very plain—so plain that it is easily understood by all classes of people. The law first provides that the tax shall be made out of personal property if such can be found over and above the legal exemption, and in case such cannot be found then real estate is liable for the amount assessed. Section 2816, Hill's code reads as follows:

"If no personal property be found whereon to levy the warrant, or if that levied upon be not sufficient to satisfy the same, it must be levied upon any real property of the person, firm or corporation against whom the tax is levied or charged, or sufficient thereof to satisfy such warrant, including fees of officer and all expenses of sale and executing the warrant."

Section 2820 reads as follows:

"Redemption of any land sold for state, county, school, or military taxes may be made at any time within one year from the date of the certificate of sale, by paying the purchase-money and twenty per centum thereon. and all taxes which the purchaser may have paid thereon, in current gold or silver coin of the United States, or within two years of the date of the certificate, by paying the purchase-money, with thirty per centum thereon, and all taxes paid by the purchaser in such gold or silver coin."

After the expiration of two years from date of issue of sheriff's certificate, if no redemption shall have been made, the sheriff shall execute to the purchaser a deed of conveyance; and such deed shall operate to convey a legal and equitable title to the purchaser. The sheriff shall then take up the certificate of sale theretofore issued, and shall file the same with the county clerk. and the same shall be a public record, and the sheriff's deed shall be prima facie evidence of title to the purchaser. The law is so plain that no man can mistake its meaning. Hence no confusion need arise therefrom.

OREGON'S POLITICAL COMPLEXION.

Some people undertake to create prejudice against the republican party in Oregon, by the assertion that the state has always been controled by that party. Oregon has not always been a republican state. Since the war it has been closely contested between the parties, and the democrats have had a very full share of the innings. In 1868 they elected Hon. Jos. S. Smith to congress, and carried the legislature; 1870 they elected L. F. Grover, governor, Mr. Slater to congress, and a legislature democratic in both branches, that sent Col. Kelley to the senate. In 1872 the republicans carried the legislature and elected the senator, but in 1874 the democrats again elected Governor Grover and sent Lafayette Lane to congress. In 1876 the democrats had the legislature again, and elected Governor Grover to the senate—Secretary Chadwick acting as governor during the remainder of the term. Again in 1878 the democrats carried the state, electing Hon. W. W. Thayer governor, and a legislature that sent Hon. J. H. Slater to the senate. In 1882 the republicans won, but in 1886, and again in 1890, the democrats elected the governor.

The record shows that within twenty-five years the democrats have six times elected the member of congress—Messrs. Smith, Slater, LaDow, Nesmith, Lane and Whiteaker; three times have elected senators—Messrs. Kelley, Grover and Slater, and have held the office of governor during the whole period except four years—from 1882 to 1886—when Hon. Z. F. Moody was governor. It is far from true, therefore, that Oregon has been uniformly a republican state. Nor has it always elected republican presidential electors. The electoral vote of the state went for Seymour against Grant, and one of its electoral votes in 1892 went for Weaver against Harrison. Moreover, the vote on electors several times has been exceedingly close. The Garfield electors in 1880 had a plurality of only 668; and the fight over the electoral vote in 1876—the Hayes-Tilden contest—only calls for mention as an incident to prove how closely contested Oregon has been.

THE secretary of the treasury, Carlisle, is being severely upbraided for having drafted a sugar schedule in the tariff bill in the interest of the sugar trust without any intention of doing so. The country waits patiently for the secretary to explain.

CONGRESS has been in session since last September, during which time the people have been waiting patiently for news that something had been done to stimulate business, or to remove the burden of uncertainty now existing all over the United States. The tariff bill has been the main issue before that body. The democratic party has both branches of congress and the executive, and the populist members in sympathy and voting with them for free trade; yet the tariff bill is as far from final passage as it was when first presented by its author, Wilson, several months ago. That donothing majority of democrats and populists propose to adjourn in a few days without leaving any evidence of their presence except their names on the pay roll. It would have been better for the country had they adjourned the same day they assembled in September.

DIED.

BONSER.—At Fort Simpson, British Columbia, June 3, 1894, of brain fever, Francis A., son of Captain and Mrs. J. H. Bonser, aged 11 years, 1 month, 22 days. Captain and Mrs. Bonser are well known in Columbia county, Mrs. Bonser being the daugher of Charles English, at Deer Island, and the Captain was raised on Sauvies island. Their many friends in this section heartily sympathize with them in the loss of their son.

Fred Ferchen, of Portland, was in town the first of the week.

Mr. and Mrs. W. D. Connell were passengers down on the Iralda Wednesday.

SHERIFF'S TAX SALE.

BY virtue of a warrant issued by the County Clerk of Columbia County, State of Oregon, under the seal of said County and State, on the 6th day of June, A. D., 1894, and to me directed, commanding me to levy upon the goods and chattels of the delinquent taxpayers named in the delinquent tax roll of Columbia County, State of Oregon, for the year 1893, thereto attached, and if none be found then upon the real property as set forth and described in the said delinquent tax roll, or so much thereof as shall be sufficient to satisfy the amount of taxes so charged therein, together with the costs and expenses, I did, on the 15th day of June, A. D. 1894, levy upon (having been unable to find personal property sufficient out of which to make said taxes) the real estate set opposite the names of the respective parties, firms and corporations contained in the following lists to satisfy the amount of taxes and costs assessed and charged against such persons, firms and corporations in said delinquent tax roll, all of said property being situated in said county and state, and described on said delinquent tax roll for said county and state, for said year, as follows, to-wit:
