ST. HELENS, OREGON, JULY 20.

Yes, Van, the "show" opened last Saturday morning promptly at 10 o'clock, and Tax Collector Watts immediately announced that he would proceed to collect the delinquent tax for the year 1893, according to law.

PRENDERGAST, who assassinated Carter Harrison, the mayor of Chicago, last fall, paid the penalty of his crime a few days ago on the gallows.

The populists are down on trusts and combines, yet, when the American Railway Union, 131,000 strong, combine, backed by their thousands of dollars, to overthrow the government, and murder, burn, and pillage the cities, wreck trains, etc., the populist leaders get their heads together and say, Amen.

SENATOR HILL, of New York, proved to his constituents and his dominant party that he was a man of independent thought when the roll was called to vote on the tariff bill, he being the only democrat to vote against the measure.

THE official actions of Portland's board of school directors does not seem to bear up well under the special committee investigations. It seems from the committee's report that the directors paid little or no attention to the wishes of the patrons in their selection of teachers for the next school year, but instead, completed the job which evidently had been planned.

If the tariff is added to the price of the article and the consumer pays it, why is it that nails, salt, and many other staple articles are today, and have been since the passage of the McKinley bill, selling on the market for less than the tariff-tax on them?

"I WILL not support Senator Kyle's resolution. You might as well ask me to vote to dissolve the government. My duty under the constitution and law forbids me sustaining a resolution to legalize lawlessness.

THE colored Congressman who sits next to Galusha Grow in the House was a slave boy when Mr. Grow served in Congress before the war. The democracy are now glad that the slave boy is a free citizen, though they held a different view in 1850.

"Killed his wife's seducer" is the head of a telegraphic dispatch in one of our contemporaries. What infernal rot. A wife's seducer, indeed! What business has any man's wife being seduced? There is no such thing possible.

DEBS, of the American Railway Union, in an interview the other day, stated that "the Union's monthly receipts for dues amounted to \$5000, also in one day during the present strike he had paid out \$500 for dispatches, and no day less than \$100."

A peculiar specimen of the finny tribe, pronounced by some to be a sea serpent, was brought to town on the Blaine, Sunday, and was on exhibition on the A street dock. It had a head somewhat resembling a cat, with dangerous looking teeth on upper and lower jaws, and it tapered gradually to the tail, the fish, or serpent, being in all 6 feet 7 inches long.

COOS BAY NEWS. A peculiar specimen of the finny tribe, pronounced by some to be a sea serpent, was brought to town on the Blaine, Sunday, and was on exhibition on the A street dock.

MEN of strong intellectual power seldom engage in strikes. It is true that strikes have occurred among this class of men but there must always have been substantial reasons for such action. Strikes are almost invariably concocted and mainly participated in by a class of laborers who have not served an apprenticeship at any particular trade, and who engage in work that does not require a great amount of preparation or special training.

Such men belong to the American Railway Union. As an example, the Brotherhood of Locomotive Engineers was asked to join the strike but declined. The American Federation of Labor, which is composed entirely of skilled mechanics, were implored to assist the strikers and boycotters, but declined, offering only sympathy; the typographical union were beseeched but simply sympathized with the Pullman employes.

In fact nearly every organization of skilled labor in the country refused to obey the commands of President Debs, of the Railway Union. Why? First, because the strike was unwarranted, and second, because the man who serves an apprenticeship of several years to master a profession or trade cannot afford to sacrifice the honor and good sense inculcated within him to answer to the hot-headed and ill-advised methods of the unskilled and uneducated horde who usually lead a strike of unskilled labor.

Whatever sympathy the Pullman strikers might have otherwise obtained vanished when they undertook to and partially succeeded in extending it to all other branches of business. When that was done is it any wonder that the better class of labor organizations refused to assist them?

The law providing for the return of the delinquent tax roll by the sheriff to the county court should be changed from April 1st to some later time; July or August, or even later than that. March, April, and May are the three months in the year when money is most scarce. Under the law, as it now stands, taxpaying time comes just when the money surplus from the previous crop is almost exhausted, and too early to realize on the growing crop.

By the first of July the majority of farmers have had an opportunity to turn off beef, hay, etc., upon which to obtain money with which to liquidate smaller obligations. It is, of course, true that a great many people never pay their taxes, or any other debt, for that matter, until forced to; but for those desiring to pay, a change as above outlined, would be of material benefit.

THERE are thousands of acres of land in Columbia county susceptible to raising hops, but for some reason, we know not what, the farmers do not engage in the industry. There never has been, to our knowledge, but two seasons when hops were not a good price, and a crop failure in Oregon or Washington has never been known.

The old adage that "if a man can't find employment at one occupation seek another," should inspire our farmers to engage in the hop business since there is little or no market for the heretofore staple products of our soil. It will be many years, if ever, before the growing demand for hops will be supplied. And until that time arrives the price will surely be good.

DAY by day the great strike diminishes in magnitude and business is gradually assuming its normal condition. About the only evidences left of the strike is the daily ravings of President Debs to the effect that he is going to win in the end, and the occasional wrecking of trains in different parts of the country. In the face of Debs' declarations that the strikers will win, his followers are climbing over each other by the thousands asking to be reinstated into their old positions at their former wages. When Debs gets done striking by himself he will awaken and wonder "where am I at and who left me here."

THE colored Congressman who sits next to Galusha Grow in the House was a slave boy when Mr. Grow served in Congress before the war. The democracy are now glad that the slave boy is a free citizen, though they held a different view in 1850.

"Killed his wife's seducer" is the head of a telegraphic dispatch in one of our contemporaries. What infernal rot. A wife's seducer, indeed! What business has any man's wife being seduced? There is no such thing possible.

DEBS, of the American Railway Union, in an interview the other day, stated that "the Union's monthly receipts for dues amounted to \$5000, also in one day during the present strike he had paid out \$500 for dispatches, and no day less than \$100."

CROP AND WEATHER BULLETIN

For the Week Ending Monday, July 10, 1894.

WESTERN OREGON.

WEATHER.—The mean temperature for the week ranged from 65 to 70 degrees, being two degrees warmer than the preceding week. The temperature reached its maximum for the year, to date, on Thursday, the 12th inst., when in the interior valleys it ranged from 85 to 90 degrees, and along the coast from 80 to 70 degrees. Since last Thursday the temperature has fallen, and is now about the normal.

There were thunder showers over the interior valleys on the evening of the 14th which culminated in a heavy rain and wind storm in Clatskanie county, where some roofs were blown off, and the hail cut vegetables. The rain was generally not sufficient to lay the dust.

CROPS.—The warm weather was most beneficial to the growing crops. The crop of wheat has been secured in excellent condition, and the work of saving the crop is practically over. The crop is heavy, some fields producing from 40 to 45 bushels per acre. It facilitates the fear of danger from the wheat aphid caused some wheat to be cut for hay. The wheat aphid has left the fall-sown wheat about a week ago.

Some few farmers are of the opinion that some damage was done by the aphid, while others report that they do not see that any damage was done to their crops. In some cases the ripening of grain, and a few binders and headers have started in on the harvest. By the 23d the wheat harvest will be in full blast and in some sections will be nearly finished. Barley is being rapidly cut. The cereal crop was never better than it is this year, and a feeling of prosperity pervades the farming community.

Some of the farmers are anticipating that spraying will be unnecessary. Cherries and strawberries are about over. Raspberries and blackberries are ripening, and of these there will be a very large amount. The fruit is growing and is becoming more promising.

EASTERN OREGON.—The mean temperature for the week ranged from 65 to 70 degrees, being about the mean of the previous week and of the normal. While the afternoon temperature has been high there has been no abnormal heat. A few thunder showers prevailed in some localities, the rain being quite heavy at Baker City, 0.59 of an inch having fallen.

CROPS.—The weather has been dry and warm but it has done little, if any, damage to the cereal crop. Some fears are expressed that the warm period might strike the grain, but so far it has little affected it. The cereal crop is reported from every county as being the best they ever had. The weather throughout the season being very favorable to it. Grain is rapidly ripening and harvest will soon be in full operation. Barley is now being cut, and it is reported as being in first-class condition. Volunteer wheat will be ready to harvest this week. The farmers are exercised relative to obtaining machinery, extra and the labor to allow all the grain to be secured.

In the country south of the Columbia river valley the season is not so well advanced, but from that section the reports for grain, hay, and range food are excellent. Sweet corn is ripening and being sent to market from Wasco county. The feed crop is doing well, but would be benefited by rain. The grain is being cut, and it is difficult to be experienced in harvesting and sacking it.

Local Forecast Official. MAYGER. Mrs. Wm. Blackford is rather under the weather now. Most of the people around here are through laying once more. George Wagner had his finger painfully crushed one day last week, but it is getting better now.

We understand that our carpenter, Mr. Arthur Croker, is to build the Mayor County's new store. Blackberries are plentiful around here and one lady showed me over thirty pailons which she has canned this year. There was a surprise party at the home of Harry French on Tuesday evening. A pleasant time is reported by those who attended.

Dr. Tryon has not been heard from for some time. The last heard from him was in San Francisco. No one seems to know where he is now, however. He had better come back and take his office. Harry French had quite a serious accident one day last week. While coming down a steep grade with his wife and child, he gave way, overturning the wagon and came near catching Harry underneath.

Harry Coleman has a new pet in the shape of a black bear cub, and now thinks that his future is assured, that is if he can get a monkey and hand organ, and Jimmie Capley to grind out the tunes. He says he can pass the hat and take care of the change himself.

MORE PLENTIFUL.—Reports from lower river points indicate a better run of salmon than for some time. The catch so far this season has been very light, except with the traps. CLATSKANIE. (Last week's Letter—Arrived too late.) A daughter at Gomme's is one of the late arrivals.

Mrs. John Lacey and daughter, of Astoria, are visiting her father and brother here this week. The county court appointed Dr. Hall just of late, to the office of coroner. Mr. John Lacey and daughter, of Astoria, are visiting her father and brother here this week. The county court appointed Dr. Hall just of late, to the office of coroner.

At a special school meeting held last Saturday a tax of 5 mills on the assessable property of the district was voted to carry on schools for the present year. This, with the appropriation it was thought, will give at least six months and perhaps seven months of school.

PERSONAL.

Clean up your back yards "before the captain sees you." Dr. Caples, of Columbia City, has been a frequent visitor to our city lately. Mrs. Emmett Stevens, of Seaside, is seriously ill with typhoid fever. Messrs. Perry Usher and Gean City have just returned from a visit to Alaska. R. W. Roberts, attorney, left Tuesday for Cathlamet, Wash., where he expects to engage in the practice of law.

Mrs. Ida Bonser starts on her homeward journey to Fort Simpson, B. C., today. Her sister, Mrs. Swager, accompanies her. Mrs. J. G. Watts, of Seaside, was a passenger down on the Dixon for Mayger Monday, to visit her parents at that place. Dr. Ewing and family. Dr. Ewing and family. Dr. Ewing and family.

During this extensive railroad strike I will give close attention to the merchandise market, and will be on the lookout to guard my customers by purchasing and selling at lowest rates. Respectfully, WM. H. DOLMAN.

Card of Thanks. We desire to return our heartfelt thanks to the kind friends who so willingly assisted in the last sad rites and burial of our beloved son. J. H. and Ida Bonser.

DEATH. BACON.—At Gilliam, July 18th, 1894, Jesse Bacon. "PLAY BALL"—The Stanford University and Portland baseball teams cross bats at Astoria today. The game takes place under the auspices of the Astoria Football Club.

FENCE THE TRACK.—Some five or six head of stock has been killed by the Northern Pacific trains near Houlton in the last two or three weeks. Some day, when all the stock has been purchased in that manner that the company cares about owning, they will fence their track, and that is what they should be compelled by law to do.

BUILDING AN ADDITION.—Mr. C. H. Johns is having an addition built on the west side of his residence on Cowitz street, which will add greatly to the convenience of the building. The Farmers Will Suffer. ST. PAUL, July 15.—The farmers fear they will suffer from a sympathetic strike growing out of the Pullman strike. On account of the strike shipments of binding twine have been few and far between and the wheat crop is suffering because it cannot be harvested promptly. Much twine has been secured but much more is needed and all parts of the Northwest report a great scarcity. Much of that already shipped has gone over the roads that have been boycotted because of the Pullman strike, and a boycott in the twine trade is threatened on account of such shipment.

PROFESSIONAL. DR. H. R. CLIFF, PHYSICIAN AND SURGEON. St. Helens, Oregon. DR. J. E. HALL, PHYSICIAN AND SURGEON. Clatskanie, Columbia county, Or. DR. EDWIN ROSS, PHYSICIAN AND SURGEON. St. Helens, Oregon. W. N. MESSERVE, Surveyor and Civil Engineer. DELENA, OREGON.

County Surveyor. Land Surveying, Town Platting and Engineering work promptly executed. J. N. Slusser, HAIR DRESSER TONSORIAL ARTIST.

Having recently located in the city and wishing to establish myself, I invite the public to favor me with at least a share of your trade. Sharp, keen razors. COLBURN'S OLD STAND ST. HELENS, OREGON.

ADMINISTRATOR'S NOTICE. In the County Court of Columbia County, Oregon. The administration of the estate of Jacob Anderson, deceased. Notice is hereby given that the undersigned has been appointed administrator of said estate, and has duly qualified as such administrator, and all persons having claims against said estate will present the same to the said administrator at 450 East Larabee street, in the city of Portland, Oregon, within six months from the date hereof.

ADMINISTRATOR'S Notice of Real Estate. In the matter of the Sale of the Real Property belonging to the estate of Solomon F. Shattuck, deceased. NOTICE IS HEREBY GIVEN THAT the undersigned, the administrator of the estate of Solomon F. Shattuck, deceased, by virtue and authority and in pursuance of the order made by the County Court of Columbia County, State of Oregon, on the 2nd day of July, 1894, authorizes and licensing the said administrator to sell at Administrators' sale, the following-described real property belonging to the estate of Solomon F. Shattuck, deceased, to-wit: Lots one (1) and two (2) in block number three (3) in the town of Seaside, as laid down upon the official plat of said town on file in the office of the county clerk of said county and state, all being situated in Columbia County, State of Oregon. I will, as such administrator, on the 11th day of August, A. D. 1894, at the hour of 10 o'clock A. M., in front of the Courthouse at St. Helens, Oregon, proceed to sell the said real property above-described at public auction to the highest bidder for cash in hand on the day of sale. Dated July 3, 1894. H. C. LAMBERSON, Administrator.

THE AUSTRALIAN MEDICINE CO. Splendid, Young Norman Horse TEMPEST Will make the Season of 1894 as follows. At Chas. Muckle's Farm, on Deer Island, in Columbia county, Oregon. TERMS: : : Insurance, \$10

TEMPEST is a beautiful, dark iron gray, sixteen hands high; eight years old; weighs 1200 pounds; with fine style, quick movement, and second to none in muscular power and durability. He was sired by Young Byron King; by Old Byron King, imported and owned by Singmaster, Keokuk, Iowa. Tempest's dam was sired by Old Tempest, a Norman horse owned by J. Downs, Iowa.

CHAS. MUCKLE, OWNER. TEMPEST is a beautiful, dark iron gray, sixteen hands high; eight years old; weighs 1200 pounds; with fine style, quick movement, and second to none in muscular power and durability.

SHERIFF'S SALE.

BY virtue of an execution issued out of the Circuit Court of the State of Oregon for the County of Columbia, in favor of G. C. Jaquish, and against B. W. Plummer, for the sum of five hundred and forty-six and seventy-six one-hundredths (\$546.76) dollars, with interest thereon at the rate of eight per cent per annum from the 17th day of May, 1894, and the further sum of fifty-one and fifteen one-hundredths (\$51.15) dollars costs, and for the costs and expenses of sale on said writ, upon a judgment rendered May 17th, 1894, now therefore, by order of said judgment and execution, I have levied upon and will, on Saturday, the 4th day of August, 1894, at the front door of the county courthouse, in St. Helens, Columbia county, state of Oregon, at the hour of 10 o'clock a. m. of said day, sell at public auction, to the highest bidder, for cash, all of the interest of said defendant B. W. Plummer, or which he had on the 17th day of May, 1894, the day of the entry and docketing of the original judgment in said cause in the following-described tract of land, to-wit: The following-described tract of land which lies on the east side of the Northern Pacific Railroad Company's right-of-way, through township 4 north, range 1, west of the Willamette meridian, as at present located, to-wit: Beginning at a point in Milton creek 18 chains and 30 links south, 38 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains; thence south 30 degrees, east 30 minutes east 7 chains and 30 links; thence north 68 degrees and 30 minutes east 1 chain and 25 links; thence north 32 degrees and 30 minutes west 25 chains; thence north 88 degrees and 30 minutes east 9 chains to Milton creek; thence down said creek with the meandering, south 45 degrees, east 10 chains;
