

OREGON MIST. PUBLISHED EVERY FRIDAY.

SIDE-HEAD PARAGRAPHS.

AGAIN AT IT.—The steamer Thompson is again back on her old run with the Telephone, she having taken the place of the Foster while the latter is undergoing repairs.

FILL COMPLETED.—The fill across Merrill lake at Deer Island is completed, and Mr. Sidney Smyth, of Oregon City, who had the contract, moved his plant back up the river last Saturday.

STEAMER SUNK.—The steamer Regulator, belonging to The Dalles, Portland & Astoria Navigation Company, was sunk at Upper Cascades Tuesday morning.

SAWMILL BURNED.—The sawmill at Vernonia was destroyed by fire on Wednesday night of last week. It is generally believed that the burning was the work of an incendiary who might have had some grievance against the mill company.

REMEMBER.—You can save twenty-five per cent by paying up your back subscription to THE MIST. You can also save twenty-five per cent by paying one year in advance.

BOARD OF EQUALIZATION.—On Monday the county board for the equalization of taxes, consisting of the county clerk, assessor and judge, was in annual session.

BUT FEW CAME.—The excursion which had been advertised for last Sunday, in which three steamboats were to come to St. Helens, dwindled down to the old City of Frankfort and she only about half loaded.

TO HAVE ELECTRIC LIGHTS.—At a special meeting of the common council of this city last week the Union Electric Co., of Portland, was granted a franchise to construct and operate an electric light plant in the city of St. Helens.

COUNTY COURT.—The regular September term of county court will be held commencing next Wednesday. At this session the books of the county clerk, sheriff and treasurer will be checked up for the first time under the salary law.

THE POTTER DISABLED.—The river steamer T. J. Potter was disabled Saturday morning and is now at the boneyard. When off Columbia City the engine "let go" and a moment later the machinery was in a badly demolished condition.

AN OFFICIAL VISIT.—J. A. Waddle, G. C. and G. F. McConnell, Grand Scribe, of the Knights of Pythias, paid Avon Lodge No. 62, an official visit Wednesday night.

TOO MUCH SMOKE.—From the great amount of smoke it would lead to the conclusion that the whole world was on fire. At this point one can see less than a quarter of a mile, and the volume thickens all the time.

NO WATER.—Water works in a town is not a guaranty that you will always have water. St. Helens has been without water a good part of the week, caused by a valve, which is under water, giving out.

NEW POSTOFFICE.—Yankton is the name which has been selected for the new postoffice to be established at what has heretofore been known as Mainville, on the Nehalem road.

QUITE COMPLIMENTARY.—Curtis, the recognized liar and flopper, says the Budget was at first opposed to the condemning of the right-of-way for a pipe line. That is right, and it is as near as the notorious liar ever came to telling the truth.

SIDNEY DELL'S SCHEME

To Construct a Motor Line From Vernonia to Everywhere.

At a meeting for the purpose of discussing road matters, held at Vernonia last Saturday, the following resolutions were offered by Sidney Dell and laid on the table for one week, pending a report from other sections of the state: "That an electric motor line, to run from Portland, via Oregon City and the Tualatin river, up West Dairy road to Vernonia, would be a most valuable investment for capital.

"The cost of construction would be greatly less than that of a steam motor, although it would only be one-third of that distance, from Oregon City to Buxton, would be through the most fertile valley of Oregon, and its traffic of farm produce and passengers alone would pay the expenses of the entire line.

"That the attention of Portland, as the great metropolis, is called to this most important, but neglected, of her tributaries. We believe the development of an electric line would do more for Portland than any other enterprise she can inaugurate.

"That the inhabitants of the Nehalem basin do organize a railroad to secure a rail-way connection with Portland via the Tualatin river and Beaver creek pass. That each land-owner between Vernonia and Buxton is expected to donate one-fourth of his land to the construction of the line of this road, by deed, to become absolute upon such railroad being completed from railway connection to within two miles of his land.

"That the attention of Portland, as the great metropolis, is called to this most important, but neglected, of her tributaries. We believe the development of an electric line would do more for Portland than any other enterprise she can inaugurate.

RAN ASHORE.—The steamer Baker ran ashore at St. Johns Tuesday night, on her down trip, and in consequence we had no Astoria mail Wednesday.

COMING HOME.—Nearly all the people who spent their summer outing at Trout lake or near Mt. St. Helens, have returned to their usual places of abode. It is needless to say that some have lost the complexion they started away with, but very few have lost any of their flesh.

AN OFFICIAL VISIT.—J. A. Waddle, G. C. and G. F. McConnell, Grand Scribe, of the Knights of Pythias, paid Avon Lodge No. 62, an official visit Wednesday night.

TOO MUCH SMOKE.—From the great amount of smoke it would lead to the conclusion that the whole world was on fire. At this point one can see less than a quarter of a mile, and the volume thickens all the time.

TEACHERS' INSTITUTE.

RAINIER, OR., August 25, 1894.

Pursuant to the call of the county school superintendent the annual teachers' institute for Columbia county was convened at the school house in Rainier, Oregon, on Wednesday, August 22, 1894.

Promptly at the opening hour Superintendent Ackerman of Multnomah, Professor Peebles of Salem, and Superintendent Watts were on hand to begin the course of instruction for teachers, as outlined by Professor Ackerman, who is considered one of the best institute workers in the state.

Mr. A. J. Sherman, Miss Fannie Burk, Reuben, Mrs. J. J. McDonald, Marshland, Miss Ada DeWitt, Miss Eva Bonser, Mrs. O. V. St. Helens, Mr. W. B. Daggett, Scappoose, Mr. H. L. Shatto, Miss Abbie Bryant, Miss Ora Gilliam, Miss Maud Bryant, Miss Mildred Boyle, Clatskanie; Mr. M. C. Case, Mrs. George Perry, Houlton; Mr. W. A. Young, Mrs. M. Way, St. Helens; Miss L. A. Bonser, Columbia City; Miss L. A. Wilson, Portland; Miss Emma Wagner, Mr. T. J. Cleeton, Mrs. T. J. Cleeton, Mr. W. A. Wood, Mrs. C. E. Walker, Rainier; Miss L. A. Wilson, Astoria; Miss Fannie Meeser, Mr. L. J. Meeser, Delena.

Superintendent Ackerman's method of handling institute work is well known to all educators of the state and are held in high estimation.

The instruction in Reading, Numbers, Language, History, Geography and school methods were especially valuable to young teachers, and were highly appreciated by teachers of experience.

The interest of the teachers in the work was quite encouraging, and the fact was plainly developed that the teachers, who expect to keep in the front rank of the profession, must attend institute work.

On the part of district officers who hope to keep up the standard of school work they must see to it that teachers of good training and acknowledged ability be employed, and then pay them well for the work.

The session was brought to a pleasant termination with a pleasant entertainment at Masonic hall on the evening of the 24th, and the following resolutions were adopted as expressing the sentiments of the teachers in attendance:

Resolved, That we extend a vote of thanks to the county superintendent for the pains he has taken to procure proficient and economic management; to Professors Ackerman and Peebles for the faithful and able manner in which they have conducted the work; to the people of Rainier, especially, for hospitality and kindness; and that we may be better able to do our part, we resolve to begin now to prepare for and endeavor to secure a full and enthusiastic attendance at our next meeting.

SPRING VALLEY.

Mr. Marshal has removed to San Francisco, where he will work at his trade.

Joe Dupont left home last Saturday for the hop yards, where he will remain about three weeks.

The first ripe tomatoes of the season were picked in Wm. Miller's garden on the 10th of the present month.

All kinds of vegetables and cereals in this vicinity are considerably above the average this year, with the exception of early potatoes.

Wm. Hove started for the hop yards last week, leaving his wife to take care of the place.

I. Sintak is building a neat residence on his place this summer.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colic, Cholera, and Diarrhoea Remedy. Two doses of it settled the matter and cured him sound and well. I heartily recommend this remedy to all persons suffering with a like complaint. I will answer any inquiry regarding it when stamp is enclosed.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.

Idle Shipbuilders.

"Before the election of Grover Cleveland to the presidency for the second time, he had contracts for shipbuilding to the large amount of \$750,000. Upon his inauguration all these contracts were canceled."

So said Stephen W. Roach, who succeeded his father, the great shipbuilder, John Roach, as the head of the great ship yards, at Chester, Pa., and of the Morgan Iron Works in that city. Time was, under the republican administration, when Chester was a prosperous city with a teeming and industrious population. Now the grass is growing in the streets. The pay rolls of the Roach yards were at one time not less than \$25,000 a week. Now it is not many more hundreds than twenty-five. I have seen twelve ships on the stocks at Chester, at one time. Now the last ship on the stocks was the yacht built for one of the younger Roaches, chiefly to keep a few men employed, so that the yards could be kept going, and a few old employees of the company retained. These great works are now reduced to repair work, and are even taking such odd jobs as tables and bar room fixtures, instead of great steamships, to plow the ocean under the American flag.

This is an object lesson in industrial stagnation which he who runs may read. Go to almost any town in the country which has been built up by protection to American industries and you will find another such lesson as the one related.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all, and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. Twenty-five and fifty cent bottles for sale by Dr. Edwin Ross.
