Information now comes to the United States that George Jay Gould will in fu-ture reside a part of each year in England. It is not surprising that the young mil-lionaire has decided to partially follow Mr. Astor's example in expatriating him-self. He has never been welcomed by what is called society in New York; but, though his hoat has been able to win very few maces against the crack British yachts, his own race for British social recognition has been guite successful.

#### The Trim American Foot.

Several London newspapers have been entertaining their readers during the Whitsun holidays by a lively controversy over the respective size and beauty of the feet of English and American women. Some editors, in the face of overwhelming evidence, confess that English feet are out of running in such a controversy and console themselves by asserting that the feet of Englishmen are far more shapely than those of their American brothers. There have been many indignant protests against even this admission. The shoe dealers, when assured that they may speak incog., regretfully admit that they 'are unable

to fit the trim American foot with any shoe ready made for the fat and flat feet of English women.
