ASTORIA. Oct. 15 .- Upon the arrival of the s in Elginshire today it was learned ent law needs amending. Of all the that a large number of piles had been passed twelve decrees and judgments, where-in the county gets not a cent for trial the raft was sighted west by south of the lightship, 10 miles, and the same afternoon it was seen about north of the lightship one fee that would have gone to the clerk mile. It had therefore drifted northward over 16 miles between Saturday morning and Sunday afternoon, having been reported by Captain Ackley, of the 8 ate of California 15 miles south of the lightship Saturday morning. Mr. Bai ies, one of the owners, came down from Stella this afternoon, and when interviewed said he had no fears for the ultimate safety of his property. He accounted for the loose piles by the theory that they had probably been part of the cargo of the schooner Danielson, which went aground on the south spit, at the Sinslaw river, some days ago, and lost her deck load. Neither the raft nor the tug Monarch, which had it in tow, was sighted today, and from this fact it is argued here tonight that the raft is still safe, inasmuch if it had gone to pieces witl in a few miles of the tightship, he tug would have re-

ta ned to this port. Pilot Staples arrived in at 1 o'clock on the bark Eiginshire, and states that they pussed through hundreds of piles near the I ditabip about 9 o'clock this morning. The pi ot is certain that the pile: are from the big raft in tow of the tug Monarch, and

thinks she has surely gone to pieces.
