

OREGON MIST.

PUBLISHED EVERY FRIDAY.

SIDE-HEAD PARAGRAPHS.

COUNTY COURT.—County court will convene on next Wednesday, the 6th of March. There is nothing out of the ordinary to come before the board this time so that a long session is not looked for.

CHANGE OF TIME.—The Northern Pacific have taken off one passenger train and now the southbound passenger train is due at Houlton at 7:16 in the evening, and the northbound at 9:48 in the morning.

MUCH SICKNESS.—The peculiarities of the just passing winter are now making themselves doubly visible in the way of much sickness over the country. Several cases of typhoid are reported by our physicians, besides numerous cases of malarial fever.

SUPERVISOR'S ASSIGNMENTS.—The clerks have been busy the last few days preparing and sending to the various road supervisors in the county a list of assessable property in each one's respective district, so as to assist the supervisor in the performance of his duty, an important thing.

SCHOOL CLOSURE.—On Tuesday, the 12th of March, Mr. Hutton will have taught the number of months for which he was engaged to conduct the public school at this place, and the school will be closed, for a time, at least. If possible, a teacher should be engaged and studies immediately resumed.

THE EARTH QUAKED.—It has been reported here during the week that the people of the little hamlet down the Columbia, known as Rainier, experienced on Sunday last what they thought was an earthquake. We cannot vouch for the truthfulness of the statement, but if mother earth was so naughty as to treat the Rainier people so rudely just because they wanted the county seat she ought to go and hide her face.

WANTS TO RESUME.—The favorable weather causes Major Post, United States engineer, to be anxious to have work resumed on the jetty at the mouth of the Columbia. The steamer Cascade, which tows the rock for the jetty, has been undergoing some rather extensive repairs to her hull, and it was hoped these might have been completed last Saturday. As soon as she is ready for service the shipment of rock will be commenced, as the barges are all in order.

FRIDAY NIGHT'S BALL.—On last Friday evening took place the grand mask ball under the auspices of the Junior Order United American Mechanics, of this place, and indeed, it was a success both socially and financially, there being present the largest crowd which has attended an affair of that kind in our city for several months. There were about fifty masks, besides the hall's capacity to seat the spectators was greatly taxed. Every body had a good time and speak well of the members of that order's ability to entertain.

OREGON WAR CLAIMS.—Senator J. H. Mitchell has been making a fight for the amount due Oregon from the United States as money paid as costs, charges and expenses in putting down the rebellion. The sum claimed, and which has been adjudged proper several times by the various committees on claims, is \$335,152. California has a like claim, amounting to about \$4,000,000, and Nevada a claim of over \$400,000. Several fights have been made for this, but the government is rather derelict in paying the claims. Senator Mitchell thinks this amount would be most acceptable to the Oregon treasury at this time.

BETTER TIMES COMING.—Good times for the Columbia river county are undoubtedly to be an early fixture if plenty of business stir is a criterion to go by. With the promised construction of the Astoria railroad, a revival in the lumber and logging industry, a large run of salmon, and the whisksers of some of our old timers, which are worked in on the wagon roads as corduroy, and the spring-kissed sun casting a bounteous ray on mother earth and growing vegetation, and with the United States treasury in straightened (7) circumstances, and nothing for the "trascals" to fight over, by the time the trees shed their vesture next fall, well-filled wallets should be the order of the day. Next.

BUTCHER SHOP LOOTED.—On Monday morning of this week when our genial butchers, Messrs. Sweetland & Sheldon, opened the butcher shop they discovered a "gonness," as it were, in the supply of meat which had remained in the shop from over Sunday. Upon closer examination they found that the shop had been entered and a twenty-pound cured ham and about forty pounds of lard were missing, and a still further examination proved that the perpetrators had gained their entrance through a back window, carefully removing the small tacks which held the pane of glass that had recently been temporarily put in, thus enabling them to enter. The robbers, after finding the till locked, proceeded to yank it open, and fortunately for the proprietors, there were but about \$2 in it, which were taken.

A COLLISION.—Tuesday morning at about 7 o'clock, just as the steamers Telephone and Northwest were leaving Portland, an accident occurred which caused the Telephone to be several hours late and the Northwest to be laid up for repairs. The fog was very thick, and the Northwest rushed down upon the Telephone just as the latter steamer was about to go through the draw of the Burnside street bridge. Upon seeing the danger the captain of the Northwest attempted to avert any disaster by passing the Telephone, but did not succeed in entirely clearing her. The prow of the Northwest crashed into the wheel and the revolving shaft of the Telephone, which resulted in the "West's" forward parls being smashed to pieces. The steamer Telephone is on the Northwest's run, and the Telephone is plodding along as usual, having the damage repaired in a short time, probably no worse off, while the Northwest will rest about a week.

IT IS GREAT ENGINEERING.—Work is progressing favorably at the Cascade canal. One of the big steel gates is partially hung. It consists of seven sections, five horizontal and two vertical ones, which weigh from 15 to 25 tons each. Four of these sections are in position, and the others are being put on as rapidly as possible. These gates are to be 55 feet high. The sections are on one pair and a part of another are on the ground, and it is the intention to get the first pair erected in time to shut the June flood out of the canal, so that the work need not be interrupted by it. If the rise is very great it will, of course, finally overflow the gates, but it is hoped there will not be a great flood this year, and that there may not be any interruption to the work. The water at the Cascades is lower now than it has been for a long time, and advantage is being taken of this to complete the side walls of the canal below the lower gate, which are 150 feet in length, and also the upper ends of the walls, which together form the four corners of the canal.

THE GOBLE ROAD A GO.—Portland Sun, Wednesday. Word is received that the negotiation of the bonds of the Astoria & Goble railroad has been successful and ample funds provided for the building of the road. It is not definitely understood, however, whether this carries with it the improvement and extension of the Oregon Pacific road, purchased by Bonner & Hammond, but it is a reasonable supposition that such is the case, as those gentlemen are pushing on anything they undertake. Messrs. Bonner & Hammond are expected to leave Montana within a few days for Portland with a corps of engineers, and will establish their headquarters in Astoria, according to the terms of the contract, and will no doubt commence work by the first of April, as required by their contract. This means the disbursement of large sums of money in Oregon, and will, no doubt, be of great benefit to the whole state.

THE WHEAT APHIS.—Considerable has been said by farmers in some localities of the state about the presence of the wheat aphid already. Mr. A. W. Bond, of Irving, one of the farmers who has disputed the presence of the pest, now acknowledges that it is here, and in large numbers. While plowing on his farm in Lane county, he occasionally turned over a small bunch of mold, and upon investigation found that the aphid was there, often a hundred or more in a bunch. They are down in the ground to a depth of eight or ten inches, and are wintering nicely and will be out as soon as the warm weather comes, and it is feared they will do a great deal of damage to the grain this season. Last season they did considerable damage, though they did not appear until the grain was well advanced in growth.

DIVERSIFIED PRINCIPLE.—The Chief in 1892 supported the populist ticket, and in consideration thereof a great many populists in the county subscribed for that paper, which look pleasure in publishing the list of new populist subscribers it had received each week. While THE MIST was struggling for the principles of the republican party, as its editor understood them, the Chief was courting populism and did all in its power (which was not much) to aid that party to carry the election, and whether through the influence of the Chief or not that party was partially successful, much to the loss of the county. But alas! the Sentinel appeared on the scene and populists subscribers were slow in coming in, so that the chump who murders grammar for the Chief is not happy.

THEIR PAY.—Certificates were drawn and signed by the speaker of the house on Wednesday, February 20, for the amounts to which the several members are declared to be entitled to as per diem and mileage for attendance at this legislative session, and for acting on committees to investigate the several state institutions, fisheries, public works, etc. The regular pay is \$3 a day for forty days, and 15 cents per mile to and from the capital. Members of junketing committees are also entitled to mileage, so that some of the members received quite a little sum outside of their regular pay. The total amount covered by these certificates is \$11,804.

HARD TO DECIPHER.—There is a warranty deed in the county clerk's office which is about to get the best of the clerks. It is worded in Italian, and is accompanied by another document of interpretation in English. The spelling is in the native Italian style of orthography, and the peculiar formation of the letters, even though they are English, are very hard to decipher. Mr. Harris is of the opinion that Columbia county will be the loser on that undertaking, as it requires an interpreter of ancient hieroglyphics to decipher it.

ANNUAL SCHOOL MEETING.—Monday evening next the people of this school district (No. 2) will be called upon to choose for the ensuing year, the gentlemen in whose hands we are to place the destiny of our public institution, and in doing so the people should look further than to the mere fact that the offices are filled. Let the office seek the man and then you can depend that the school board is all that could be desired. Remember the hour, 7:30 P. M. next Monday, and let there be a large attendance.

COLLECTING TAXES.—Sheriff Doan had his tax-collecting bond approved by the county judge last Monday, and he and his deputy are busy in the tax-collecting business. A number of receipts have been issued to non-resident tax payers, and by another week the county treasury will present a more substantial appearance. The sheriffs are sending out cards notifying tax payers of the amount of taxes they owe and when the same becomes delinquent, April 1.

THE HOULTON WALK.—The plank walk between this city and Houlton is progressing nicely. The planks are laid more than half the way and the lumber is distributed about three fourths of the distance, so that in a short time the entire distance will be spanned with a double walk, while perhaps too far apart for young folks, older ones can walk with comfort.

LOOK AFTER IT.—The attention of the city council is directed to the condition of the sewer on the north side of the street opposite the old Baquet saloon. Warm weather is approaching and if the thing is allowed to remain as it is now no telling what disease is liable to result from it.

EASTERN GREY SQUIRREL.—Wednesday, Joe Eversol captured an eastern grey squirrel while out hunting just outside of town, the first one we have ever heard of being seen in this part of Oregon. It was an extraordinary large one, and according to Joe's statement it was hard to tell which one of the two came nearest being taken in.

DATE UNCERTAIN.—A telegram was sent from this place to Senator-elect McBride last Tuesday asking when he could meet the people of St. Helens in a public reception, which was replied to stating that he could not designate a day when he could be here. Meanwhile the arrangements will go along for a rousing reception for the senator.

STURGEON FISHING.—Many of the boys and men about town are engaged in fishing for sturgeon, which at the present time seems to be rather a lucrative occupation. As many as 24 sturgeon are reported being caught on one line in 24 hours by one of our young fishermen last Saturday, and several other large catches have been reported during the week.

SUNDAY SCHOOL.—The St. Helens Sunday school affected a permanent organization on the 17th of last month by electing a complete quota of officers and teachers. The Sunday school is said to be in better condition than ever before and the interest seems to be growing steadily. The few Sunday school workers in town still have hopes "that some good may come out of St. Helens."

NEW DAILY PAPER.—It is stated on good authority that Astoria is soon to have a new morning paper, and that it will be conducted by ex-State Printer Frank Baker, George Hibbert, formerly proprietor of the Examiner of that city, and C. J. Curtis, present proprietor of the Astoria Sunday Herald. The paper will be republican in politics, and under the management will, no doubt, be a success.

SMELT, SMELT!—The river opposite this place last Sunday and Monday was alive with smelt and sea gulls. The former have been running in the river below here for several days, but on Sunday it was noticed that thousands of sea gulls were feeding on the running fish opposite this place, and the air was filled with the fitting birds and their screams, frantic in their efforts to catch a fish.

TOSS OUT SUNDAY.—It is stated that the steamer Belle Gatzert will be out next Sunday in place of the Telephone, which will be taken off and given a thorough overhauling. The Gatzert has undergone many improvements in her construction and inside appointments, and when she appears she will be a different looking boat. New boilers have been put in her, and it is expected she will be a record-beater.

CITY ELECTION.—In about a month the citizens of St. Helens will be in the throes of a city election, and it may not be out of place to say that it is every citizen's duty to take a hand in this affair and see that the men who are elected will serve to the best interests of the public at large and to the city in particular. The present city council have performed the functions of that body creditably, and the people should see to it that their successors be men of equally public spirited ideas and business capacity.

THE RAILROAD.—People along the Columbia river as well as those in Astoria, hail with delight the news that work is to commence on the Astoria railroad at an early date, and many expressions of confidence are heard in consequence of the following news from Astoria, which appeared in Tuesday's Oregonian: "A letter received in this city today from an intimate friend of Bonner & Hammond, of Missoula, conveys the information that those gentlemen will leave Missoula for Astoria at an early date, and that work will be commenced on the Goble road March 1st. Bonner & Hammond, it is stated, will be accompanied by a force of engineers. The utmost confidence is expressed in Montana, and the letter states, as to the ability of Bonner & Hammond to carry out their contract."

SMALLPOX AT THE DALLES.—A case of smallpox has developed at The Dalles in the person of St. Monahan, who has been in charge of the feedyard, near the old mill building, for some time. Last Thursday he returned from Hot Springs, Ark., where he had gone some weeks ago for the benefit of his health. He was sick when he came from the train—the disease developed Saturday morning. The house in which he was stopping—Mrs. Obarr's hotel—has been quarantined, and the inmates—four ladies and two gentlemen besides the patient and nurse—are not allowed to leave the rooms. A fence has been built around that portion of the block, and no team or persons are permitted to pass. The dispatches state that Hot Springs, Ark., has been quarantined, and this is the place where Mr. Monahan caught the contagion.

BUT LITTLE SNOW.—While most of us are congratulating ourselves upon living in so mild and desirable climate as we have had the past few weeks, others are wondering how the thing will pan out before the summer is over. There is undoubtedly, but little snow in the mountains, and we are informed by one gentleman that in the mountains at one point where he is familiar with the usual conditions, that there is now only a few inches of snow where generally at this time of year there are several feet. The storage of snow in the mountains acts as a reservoir in the summer, and the gradual melting of the snow keeps the streams well supplied, but this year there is a lack of supply from this source, and there is a likelihood that a dry summer will be experienced. However, it is not yet time to worry, and what we lack in the way of rain now may be made up in the early summer.

PERSONAL AND GENERAL.

For dry goods; Dolman's.
For groceries; Dolman's.
For hardware; Dolman's.
For all kinds of merchandise; Dolman's.
Probate court next Monday and Tuesday.

Dr. H. R. Cliff paid Portland a business visit Wednesday.

Strawberry blossoms can be found almost anywhere back of town.

Old Pap Sheffield, of Gillton, was in town Wednesday, and came in to shake hands.

Joshua Konkke, formerly of this place, but now of Oregon City, was in town Tuesday.

Mr. Elmer Wharton and wife spent several days in town this week visiting relatives.

Quite a number of cases of mumps are reported in our midst, but no serious results so far.

Mr. Albert Holmes, late of Canada, has been visiting with the Muckle family in this place for several days.

J. H. Imhoff, the genial stone-cutter and monument designer, of the Astoria Marble Works, was in town Tuesday.

Miss Minnie Willis, of Hillsboro, came down from that place Tuesday and is visiting with her sister, Mrs. J. R. Beagle.

Geo. E. Davis, of Portland, a well known lawyer, last Friday received the sad intelligence of the death of his mother, in Missouri.

W. H. Beaver, of Gillton, suffered a severe sprain of the ankle last Monday and came down to St. Helens, where Dr. Cliff administered the proper care.

THE MIST does not object to taking silver on subscription. We are even glad to get Columbia county warrants. They are taken at this office on all accounts.

The Chief man says the people of Clatskanie have never lost confidence in him. No one disputes this fact. They did not lose something they never had.

Ayers has made several mistakes in his weather prophecies, but we suppose the old fellow was just a little mistaken in his imagination, as all signs fall in dry weather.

THE MIST wants a correspondent in every neighborhood. If anything of interest happens in your locality let the world know it through the columns of THE MIST.

WANTED TO TRADE.
I have a good, two-seated buckboard, has been used but four months, worth \$50, and which I would like to trade for a yoke of good, young work oxen. Apply to me G. D. GILSON, Houlton, Oregon.

Notice to Creditors.
NOTICE is hereby given that the undersigned, the last appointed administrator of the estate of Charles Trim, deceased, and all persons having claims against said estate are hereby notified to present the same to me, with the necessary vouchers, within six months from the first publication of this notice, at my residence, at Deer Island, Columbia county, Oregon.

Administrator of the estate of Charles Trim, deceased. Dated February 1, 1895.

SHERIFF'S SALE.
In the Circuit Court of the State of Oregon, for Columbia County.

BY VIRTUE OF AN EXECUTION, DECREE AND order of sale issued out of the Circuit Court of the State of Oregon for Columbia County, and to me duly directed, dated on the 29th day of January, 1895, upon a judgment and decree rendered and entered in said court on the 4th day of January, 1895, in favor of E. O. Moll, plaintiff, and against W. C. Henderson and M. C. Henderson, defendants, for the sum of Five Hundred sixty-two and 50/100 dollars (\$562.50) and the further sum of Seventy-five dollars (\$75.00) and the further sum of \$12.25 costs and disbursements, all in United States gold coin with interest thereon at 5 per cent per annum in like gold coin from date of said decree, to-wit: Jan. 4th, 1895, and for the costs and expenses of sale under this writ.

Now, therefore, by virtue of and in pursuance of said judgment, decree and order of sale, I duly levied upon, and will, on the 2nd day of March, 1895, at 10 o'clock A. M., at the front door of the county court house, in the City of St. Helens, in said county and state, sell, subject to redemption according to law, at public auction to the highest bidder for cash, all of the interest of the defendants, W. C. Henderson and M. C. Henderson in the following described real estate in Columbia county, State of Oregon, to-wit: The southwest quarter (sw) of section thirty-two (32) in township four (4) north, range two (2) west of the Willamette Meridian, containing one hundred and sixty (160) acres, more or less, according to government survey, to satisfy the herein mentioned sums and for costs and expenses of sale.

Witness my hand this 29th day of January, 1895.

How to Cure Rheumatism.
ARAGO, Coos Co., Or., Nov. 10, 1893.

I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried many remedies prescribed for that complaint, but found no relief until she used this Pain Balm; one bottle of which has completely cured her. I take pleasure in recommending it for that trouble. Yours truly, C. A. Bullard. 50 cent and \$1.00 bottles for sale by Dr. E. Ross, druggist.

At Robinson's, of this place, received the sad news of the death of his brother, James R. Robinson, at Menominee, Michigan. Death was caused by a leg falling and striking the young man while at work in the woods. Deceased was a member of the orders of Maccabees and Odd Fellows.

Dr. Ross desires us to publish the following extract from a letter of Chas. M. Gutfield, of Reedley, Fresno Co., Cal., as he handles the remedy referred to and wants his customers to know what a splendid medicine it is: "It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs.
