A FLOATING PALACE.—The steamer T. J. Potter came down yesterday with the mail for Astoria, after having been thoroughly overhauled and repainted. She is a beautiful steamer to say the least. Patsy Hogue came over from the island to buy lumber to build a new barn, and says if the water gets to be twenty feet deep he will not bring his cattle to the main land again, as they may as well drown as be killed and eaten up.

John Boals came out Sunday, and no one knew him, for to and behold, he had washed his face; but for all that John can burn more coal than any man on the Columbia river, and dispose of it, for they all know he makes the best coal, and that's what does the talking.

A FLIMSY PRETEXT.

Senator Morgan's Views on the Nicaraguan Question. WASHINGTON, April 30.—Senator Morgan, of Alabama, in an interview on the Nicaraguan situation, today, characterized the insult to the consular agent, Hatch, "the flimsiest kind of a pretext" on the part of Great Britain, and said that if a private individual would sue for damages on such a case, he would be laughed out of court.

He had no criticism to pass on the administration, because, he said, he presumed the administration had taken proper steps to prevent Great Britain from obtaining a foothold on Nicaraguan territory. "But if it has not," he added, "the next congress will, even if Great Britain must be driven off the continent at the point of the bayonet."

He said he did not think the canal project would be endangered by the present complications. He said: "This case has gone far beyond the Monroe doctrine, far beyond the Clayton-Bulwer treaty. It has a character that is distinctly its own, and that rests upon higher grounds than any doctrine or any treaty ever made or enacted. The United States and the governments of Nicaragua and Costa Rica have entered into a solemn compact with each other looking to the construction of this great maritime highway; the company, composed mostly of citizens of the United States, is organized and starts its work."

"Now comes Great Britain, with the domineering spirit of aggression that has marked her course throughout the history of modern times, and, upon the slenderest of pretexts, the most absurd of excuses, makes a demand upon the government of Nicaragua that she does not expect to be complied with, and all in the hope that through the default of the weaker government she will be enabled to establish a sovereignty over the territory and thus control the future development of the canal and of the traffic that may pass through it. I believe, congress, at its next session, will, if nothing shall be done meanwhile by authorized powers now in authority, effectually and finally stop the aggressions of Great Britain and absolutely prevent her gaining a foothold in this most important point on the American continent. I think here is enough spirit in the American people to put a stop to this proceeding. Great Britain is not going to stop it of her own volition. Somebody must step in and be disagreeable, and this seems to be a very good opportunity for the United States to assume that role."

In Connecticut's State Senate. HARTFORD, Conn., April 30.—In the senate today Senator Birde, of Bristol, presented a resolution regarding the occupation of Nicaragua by British troops, to the following effect, which were unanimously adopted under suspension of the rules:

"That we view with indignation and alarm the occupation of Nicaragua by British troops; that we call upon all Americans, without regard to party, to join in denouncing the unpatriotic and un-American inaction of the democratic administration; that we maintain that no foreign power should be allowed to gain any foothold on American shores, and that such attempts should be resisted by the American army and navy, and by the American people."
