J. H. Wilson, of Mist, was over to town last week for the first time in several months. He was taking note of the improvements since his last visit.

Quite a number of persons were passengers on the outgoing steamer Monday evening, bound for St. Helens, Portland and elsewhere. Clatskanie people like to get out and see their neighbors occasionally.

George Merrill, sr., came in on the steamboat Friday to spend a few days with relatives here. He keeps up his interest in mineralogical specimens and is greatly enthused over a perfect quartz crystal.

C. B. Fisher, of Mist, was over Wednesday to meet his daughter, Hattie, and Mrs. Courter, from Oswego. He brought over with him some mammoth rhubarb, the finest that has come to town this spring. It was picked up in a short time by consumers.

C. A. Hempel returned home from Nehalem bay early last week and left for Portland Wednesday. He says that he was summoned as a U. S. juror in that city, and required to serve much against his wish as he is anxious to get the new mill running.

The machinery for the Hempel mill at Nehalem bay was loaded on the Steamer Friday evening to be taken to the Columbia river and transferred to the Astoria steamer, from which place it will be taken by vessel to the bay, where it is wanted. Ed Lane was in charge.

R. S. Hatton, H. L. Warren and E. C. Blackford went over to Vernonia Saturday and spent the evening with the citizens of that place in an effort to convince them of the desirability of a railroad connection with Clatskanie. The report a satisfactory meeting and a good time with the Vernonians.

Hatton, treasurer, with an executive committee consisting of H. L. Warren, E. C. Blackford, W. E. Conyers and W. K. Tichenor. Fifty names have been secured as members.

W. H. Conyers gave the Authors club some very interesting reminiscences of times before the war at the meeting Friday evening. His acquaintance with Lincoln, Stephen A. Douglas and the great colored orator, Fred Douglass, enabled him to relate incidents connected with those notable characters that would prove of interest anywhere. He has a fund of information concerning these and other persons made prominent by the late war, and entertains much larger audiences than were present at the meeting last week.

John Bryant spent Sunday at home from Fugate Sound, ever ready to do the agreeable. John started out on a boat with a couple of young ladies in a cart for Flippin's mill. Three persons in the cart made it look a trifle top-heavy, but all went well as they drove through town. A gentleman coming into town from the mill reported that when he saw the jolly trio one lady was out leading the horse, the other in the cart trying to drive, while John himself was behind pushing the cart along. This division of labor suited the horse much better than when they were all on the seat trying to ride and drive at the same time. The party returned safely, having greatly enjoyed their ride.

Ed Elliott was unfortunate in losing his house and nearly all its furniture by fire last Thursday evening, apparently resulting from sparks on the chimney. The kitchen stove, not more than twelve hours before the fire a child was born to the family, and as all were doing well. Ed left home for a time in the afternoon, leaving Mrs. Haull in charge. When the fire occurred she got Mrs. Elliott and child out of the house safely, then ran to Dixon's, the nearest neighbors for help. Mrs. Dixon got there very little could be saved. Mrs. Elliott and child were taken on a sled to Dixon's, where they remain none the worse, apparently, of their perilous experience. There was no insurance and the loss falls quite heavily on Ed, whose recent efforts at farming have not met with abundant success.

There is no danger in this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery.
