A LIVELY RACE.—The Telephone and Potter had a very exciting race leaving St. Helens Wednesday morning. The Potter pulled out several lengths ahead, but before Columbia City was reached the Telephone gave the signal to pass, which was very promptly acknowledged by the Potter, and thus ended the race for the time being.

THE WORK PROGRESSING.—Orchard & Jones have the water main for the new system laid as far as Houlton, and yesterday morning when the citizens of that place woke up they found a substantial stream of water flowing through the street from the end of the main. These gentlemen are using every effort to have the system complete by July 4th.

DON'T EAT ROCK OYSTERS.—Persons going to the coast at this season of the year should not eat rock oysters. This is the season of the year when they are unwholesome and poisonous. Out of a party of five who ate rock oysters at Newport, three weeks ago three of the party were made deathly sick and one of them came near losing his life, and is not yet out of danger. This is the wrong season of the year for rock oysters.

AN OLD CRAFT.—The old steamer North Pacific, which has been in active service on the Sound for about twenty-five years, passed up the river one day last week for Portland, where she joined the fleet of old hulks belonging to the O. R. & N. Co. The North Pacific is a sidewheeler, with a walking-beam, and for many years was the "crack" boat of Puget Sound, but like all other good things she has at last outlived her usefulness.

WELL EQUIPPED.—The steamer R. R. Thompson was again placed on the Astoria route last Saturday night, after having undergone extensive repairs for some time. The Thompson is now an almost new boat, and far more modern than when first built. She is supplied with electric lights throughout, and a searchlight operated from the pilothouse for convenience in landing at night. More staterooms have been added, and the old sections formerly occupying the dining room have been taken out. It may be said that the Thompson is complete in every detail.

A 26-INCH FISH STORY.—Mr. M. C. Gray, our accommodating and efficient telegraph operator, spent last week in company with a friend fishing over on Cowceman and Goble creeks in Washington. Mr. Gray tells a gunuine fish story to the effect that he and his companion, after two days' hard manouvreing, succeeded in capturing a trout 26 inches long and weighing 16 pounds. To accomplish this daring feat the weapons used were "pistols for two," fish hooks, and ending in a final charge with stuffed clubs, which at last proved fatal to his troutship (?). Mr. Gray insists that this is no joke.

AN ENTHUSIASTIC MEETING.—The steamer Shaver brought about 200 members of the Portland A. P. A. organizations down to this city last Saturday night who joined with the local branch of that order and held an open meeting at the city hall. The boat did not arrive until 10 o'clock, after which the band played some splendid selections which was followed by enthisiastic speeches from several of the visitors until 12 o'clock when the excursionists left for home. The meeting was largely attended by people from some distance in the country and a great deal of enthusiasm was manifest.

COURTHOUSE NEWLY ROOFED.—The work of reroofing the courthouse has been vigorously prosecuted during the week by Messrs. Clark & Urie, and was undertaken none too soon. Just how long the old shingles have served to protect the many valuable documents in the courthouse from the storms of time we are unable to say, but from their appearance when removed they had been there many years. The building has undergone a general renovation inside and out, and now presents a much more inviting appearance. If time, in its frantic race, is not too severe with this relic of antiquity it will serve its purpose for some time to come.

A RARE SIGHT.—There was a strange sight viewed by the people of this place Tuesday evening. The moon, which was but a few days old, and the evening star, Venice, were traveling exactly the same course, or nearly so, at least, from all appearance, for at one time the star stood exactly upon the upper point of the moon, presenting a lovely as well as phenomenal scene, as the entire circle of the moon was most brilliantly illuminated. The two planets apparently remained in their close proximity for several moments, when the star passed downward to the north of the moon. It was a sight which we may never see again.

A FORTUNATE ESCAPE.—Two Italians by the name of G. Sbarbaro and G. Malaines, experienced several hours of great exposure and endurance Tuesday night, and narrowly escaped being drowned. They were on their way down to the lower fishing grounds from Portland, with a large fishing boat and their luggage, and as they were passing Warrior rock about 10:30 p. m. the boat, which was carrying too much canvas, unceremoniously capsized, precipitating its occupants to the rough water. With characteristic Italian grit they clung to their boat which drifted to the breakwater opposite this place, where the men deserted the boat and climbed upon the jetty, where they shouted long and loud for help. Their distressing appeals for assistance were heard by several persons here during the night, and two or three attempts were made by local fishermen and others to locate them, but without succeeding. The men remained in their uncomfortable position until about 7 o'clock the next morning when they were rescued by James Cox and Mitchell Ray, who brought them to this place, not much the worse off, physically, and glad to step again upon terra firma.

The appearance of the country between this place and Houlton has been greatly improved by cutting away the timber, which has been converted into cordwood by Mr. Gilson.

The school children who went to Portland park last Saturday had many thrilling and exciting adventures to relate to their associates when they arrived home.

Dr. Chalmers was called to Deer Island last Sunday to administer to C. H. English who was suffering from an attack of inflammation of the bowels. At last accounts the patient was improving.

The steamer Young America went to Astoria Saturday night for the purpose of going on the beach to have her hull repaired and painted. She returned Sunday evening and resumed her regular trip to Portland Monday.

The O. R. & N., always alert to the welfare of their patrons, have placed on sale at principal stations, a 1000-mile ticket at the rate of three cents per mile, good one year from date of sale, and good for passage over the rail and water lines of their system.

On a business trip to Portland Mr. Dolman reports finding trade better than it averaged last year. Prices are not advancing noticeably in flour, provisions and staple merchandise. The stock of Fourth of July goods is not large in Portland, so Mr. Dolman made his purchases, as the market showed signs of an early advance in prices in these lines.

Rev. Charles Philbrook, of Kansas, a brother of Mrs. Sarah Lamont, is visiting with his sister this week. The reverend gentleman was here thirty years ago, and has since been engaged in the ministry for the Congregational denomination in Kansas and California. He it desirous of locating permanently in Oregon and is now here for the purpose of selecting a location.

While in Stockton, Cal., some time ago, Thomas F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhœa. He by chance met Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhœa Remedy, and we went to the Holden Drug Store and procured a bottle of it. It gave Mr. Carter prompt relief, and I can vouch for its having cured me." For sale by Dr. Edwin Ross, druggist.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquifies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance. For sale by Dr. Edwin Ross, druggist.

DEER ISLAND DOINGS.

Beautiful weather for all kinds of work, especially haying.

The rain of last week did but little damage to hay, but much good to the growing crops.

Mrs. A. A. Merrill was taken to St. Helens last week for medical treatment, and is under the care of Dr. Chalmers.

Rev. Judy preaches here quite frequently now, and the people like to listen to his easy reasoning methods and quaint ways of explaining God's wonderful way of salvation.

D. W. Freeman, of Fishhawk, spent Sunday visiting his aunt, Mrs. Elizabeth Merrill, and other relatives and friends here. He attended Sunday school in the afternoon, and enjoyed the service and the walk very much.

Mrs. Mattie English spent last week in Portland doing business and sightseeing, and attending the bedside of her sick brother, J. W. Bevis, jr., who is very poorly with pneumonia, but who was greatly improved when she left the city.

C. L. Olsen received quite a musical surprise a few evenings ago when Mr. Fisher and the neighbors called at his home and gave an instrumental and vocal entertainment, which the host and hostess enjoyed and recompensed the surprisers for their trouble.

James Gaitens now sports a new horse so gentle, so kind, so true that he can pack his whole family on, or for that matter the whole neighborhood. Jim has made a good trade, and can sing in the language of his native poet, "As he rode off on his grey mare, Meg, better, never lift a leg."

C. H. English was taken violently sick last Sunday morning with severe pains in the stomach, and for a time his life was dispaired of. Dr. Chalmers was called in, but before he arrived Charley was resting more easily. He is now apparently past all danger, and is on the road to rapid recovery.

B. Fisher spent the most of last week visiting C. H. English and other acquaintances, and made sale of another organ to J. Severson, of Goble. Mr. Fisher has done more good to this neighborhood in harmonizing the general feeling and sympathy of each other than all the preachers who have been in our midst.

Mrs. Ida Bonser and her daughter visited her parents, Mr. and Mrs. Chas. English, besides numerous friends here, last week, before leaving for Fort Simpson, British Columbia, where they will join their husband and father, the well-known and popular Captain John Bonser, who is running a steamboat on one of the northern rivers.

The boys who worked the road close to Columbia City station found a very peculiar kind of a rock. It resembled flint but had no flinty substance, and apparently is mixed with iron stalk, like what is common in furnaces of blacksmith shops. With the least preasure it breaks into fragments. Some persons express the opinion that the substance is part of a meteor.

The school teacher, Mrs. J. J. Galvin, contemplates giving the school children a picnic on the Fourth, and may go to St. Helens to the celebration if all the pupils will join. Mrs. Galvin does not believe in any partiality, and if one goes the whole school must go, as the Glorious Fourth belongs to all. This is a true patriotic spirit, and we recommend its teaching in all schools. We are much pleased with our teacher setting the example.

The Canaan school is putting forth an effort to make theirs the banner district of the county, having discarded the home-made benches and desks, and bought a dozen automatic desks. They have other appurtenances which are equal to the demands of any country school. They lack nothing now but an organ, and by the way, we would recommend this to all the schools and we believe that the time is not far distant when all schools will be supplied with musical instruments.

MAYGER.

Mr. Charles Mayger has the finest looking garden in this place. He has potatoes almost ripe.

Ben Smith looks very sad. I think his love has gone and left him sad and lonely again. But don't give up, Ben; try again.

The prospect for an abundance of fruit in this vicinity is flattering, and we hope it will all mature well and bring a good price this fall.

C. N. Davidson has commenced hauling lumber from Johnson Bros. mill to Mayger's wharf, where it will be shipped direct to Portland.

James Pullen, of this place, has taken his fishnet and started for the Lower River to try his luck, as the run of fish is quite light here at present.

John Stockenberg is in the hay-harvesting business, and the prospects are that John will have an abundance of that product for next winter's use.

Gust A. Larsen has sold the timber on his 80-acre tract to J. McAdam, and he intends, we understand, to put in a donkey engine to do the logging with.

There was a dance given at Stella Saturday night last, to which a number of our young people went, among them being Yack Yohnson, who reported a splendid time and a good supper, as Mrs. Coleman and her daughters always prepare.

Last Saturday Wm. Fluhrer went over to Burr's to buy shingle bolts, and from there he went to Hogue's camp for a visit, where he remained until after supper, when he started home in a smallboat, but when he reached the foot of the island the wind was blowing so hard he decided to wait a while, so he sat on the point of the island all night singing "Don't Blow, ye Winds of the Ocean, Don't Blow."

There was a speedy race on Hogue's island last Saturday. It seems that the correspondent of THE MIST wrote a piece about Pat Hughes' diving propensities, and then had cheek enough to pay Pat a visit. But Pat saw the big man coming, and that was the cause of the race, as the correspondent not being equal to the emergency, took the back track, with Pat closely persuing. The water was soon reached and the correspondent swam for the Oregon shore with all possible haste, lest Pat should come after him in the manner that he persued the salmon.

REUBEN RUMORS.

Mrs. Elizabeth Foster went to Portland last Friday.

Fred Koble shipped several cases of full cream cheese from his factory Wednesday.

The mill at Moeresville has been running full time this week and is turning out some fine lumber.

George Foster, jr., had a new fishboat stolen Saturday night and so far has been unable to trace it.

Jack Haley of Portland and Charles Specht of Sauvies, were in town Sunday calling on old friends.

Fred Neusbaumer and Joseph Lawrence went to Portland last Wednesday, where each purchased a new wagon.

Last week Jack McGrath hauled from Apiary 103,000 shingles, which he shipped to Portland Monday on the Kellogg.

Charles Specht bought a fine holstein bull from Jack Haley last Monday and shipped him to his farm on Sauvies island.

S. Hoven launched his scow "Reservation" at this place last Saturday, and this week, with the assistance of H. Johnson, is putting on the finishing touches. When completed he intends to run it between this place and his island.

CONTRACT AWARDED.—The sealed bids for the construction of the new school house at Houlton were opened last Saturday. The building is to be 28x44 feet, two stories, of 12 feet each, the main room to be 28x36 feet with an 8-foot rostrum at one end and an 8-foot cloak-room at the other, the lower room to be ceiled but nothing will be done to the upper story except to lay the floor, and no painting is mentioned in the contract. The structure is to be completed by September 1. Baker Bros., of Gilliton, were awarded the contract for $628, the highest bid being $819. The contractors furnish all the material.

CROPS AND WEATHER.

Following is the report of the State Weather Bureau for the week ending on Monday, June 24.

WESTERN OREGON.

Weather—No rain has fallen during the past week. The weather has been generally clear, though high fog prevailed several mornings until 10 o'clock. The temperature gradually rose during the week, ranging in maximum from 68 to 84 degrees, the latter occurring Saturday. These temperatures were from 2 to 10 degrees higher than the proceeding week. The minimum temperature ranged from 44 to 58 degrees. There has been no marked or noticeable dryness in the air, hence no rapid drying out of the soil.

Crops—The weather has been exceedingly favorable to all growing vegetation. Rainfall in Douglas, Josephine and Jackson counties would be of benefit to corn, grain and root crops, but injurious to newly mown hay. These crops are not, as yet, suffering for rain, but rain would be of benefit.

Haying is in progress in all sections, and the prevailing weather is extremely favorable to it; much of the clover and cheat hay has already been cut; the timothy hay is now heading out. The hay is very heavy, and a successful hay year is assured.

Oats and wheat that were fall or winter sown have headed out. The correspondents uniformly report that the grain prospects were never better. There is a thorough feeling of satisfaction over the grain outlook among the farmers.

Some barley will be cut this week, but the greater portion will not be cut until next week. Some few correspondents report smut in their wheat; this is confined almost entirely to the low lands. The grain aphis has almost entirely disappeared and but little damage was done by this insect. The warm weather has been especially beneficial to the corn. There has been more corn than usual planted, though at its best it is a very small crop, but it is thriving and doing unusually well.

Grasshoppers are reported to be in Jackson county in large numbers; so far no damage has been done, but their presence is viewed with alarm.

Childrens' Day at Gilliton.

The Bayview Sunday school at Gilliton, F. M. Hoyt, superintendent, celebrated last Sunday as Childrens' Day. The pupils fairly excelled themselves in the performance of their various parts. There was a large crowd in attendance, and most excellent order prevailed, both during the exercises, and at the lunch which was served immediately afterward in the hall above. CAPTAIN SULLIVAN'S CHALLENGE.—The Astorian Says: "The Astorian is authorized by Captain Sullivan, of the Potter, to state that he is willing to race the Telephone on any day that it may suit the convenience of her captain or owners, from Portland to Astoria, making no landings or stoppages of any kind between wharf and wharf. Captain Sullivan stands ready at any moment to deposit a certified check for $500 with the Astorian, and will wager that amount that the Potter wins the race. He will waive all trivial conditions, and announces that he is ready at any day or hour that it may suit the opposite side to test, in a genuine and conclusive manner, the speed of both boats."

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J.A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed before a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes great pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by Dr. Edwin Ross, druggist.

Are Very Thankful.

The heartfelt thanks of both teacher and pupils are due Mr. Newsom, of the steamer Iralda, for the generous treatment accorded them on the occasion of the excursion to Portland Saturday last. We were all grateful for the low rates made to the children for the trip, and judge of the surprise in store when upon arriving in the metropolis even this was donated as a treat to the little ones. Mr. Newsom was as kind and attentive to "our babies" as any father; in fact the entire Iralda crew sought to make it what it was—a most enjoyable experience. It is but just to record that other boats, the Young America and Mascot, tendered their services, but sailing time of the Iralda was most favorable for the occasion.
