ST. HELENS, OREGON, SEPT. 13.

THOSE persons who mean to go to the theater next season may as well resign themselves to the inevitable. The "new woman," "bloomers," "the wheeling girl," "knickerbockers" and every other means of allusion or suggestion regarding the development of bicycling among women will be sung about and harped upon and made the subject of jokes until we are daft. The first minstrel show to be given this season in Boston bristled with allusions to the bicycle-riding woman and her attire, and there was one song—"Since Hannah Learned to Ride the Wheel!"—which foreshadows all manner of lyric horrors to be heaped upon us before summer comes again. It is difficult to realize how swiftly this rage has taken possession of womankind until one reflects that last season the wheeling-woman was unknown in burlesque, farce and comedy.

THE MIST is strongly of the belief that if Columbia county citizens would confer and arrange for a display at the Portland Exposition great benefit would come from it. We wish to urge the advisability of such action, and will lend what assistance we can. We have no hesitency in saying we believe no county in the state could produce a more attractive or varied display than Columbia county. Our people should take into considration the fact that the Exposition will be visited by thousands of people from all parts of the country, and a display of our products there would be of incalculable benefit. Let the county court commission three or five energetic citizens to see that this county is properly represented at the Portland Exposition. Every variety of agricultural product peculiar to the Northwest is successfully raised here, and it is most surely not the proper thing for Columbia county to be behind other counties in the state in making known what can be so successfully produced by us.

THE opening of the direct road from Scappoose to the Nehalem valley is a matter of considerable importance. When completed, if ever, it will materially reduce the distance between that valley and this place, and will bring a great amount of trade to this county which now goes out to Washington county, and it would prove itself to be a very practicable route. The road is partly opened, we understand, on the Nehalem end, and the rest of the way is of easy construction, following, as it would, the low ridges down the Scappoose, and connecting at Scappoose station, with the main county road from this place. To open this road will require considerable work, to be sure, but we believe the benefit derived will more than doubly repay for its cost in a short time. By this route several miles of distance will be saved and several hundred feet of elevation. The course is almost a direct line, and the road will follow a comparatively low ridge almost the entire distance. The advantages to this part of the county by this road are alike to Nehalem valley and are sufficient to warrant its construction, and to incite the people to take action, or even to take hold and build it immediately.

THE speeches of Congressman Clark, of Missouri, who is now making a tour of the Pacific Northwest, in which he decries especially the improvement of the Columbia river by government appropriations will have little or no effect upon congress except it be to depreciate the author's valor among members of that body. Nor will his utterances shake in any considerable degree the confidence now held in commercial circles that river and harbor improvements will be carried forward in future as in the past. Mr. Clark presumes that he, though never before having been in congress, will be given a place on the rivers and harbors committee, and with this vain hope in view, no doubt over-estimates his ability to control the appropriations asked of congress for the improvement of waterways. The gentleman will doubtless be brought to the stern realization before congress is in session very long that the committee appointment "he longed for never came." It might be predicted that the brand new congressman from Missouri is just a little fresh and reckons without his host. When he "stacks" himself up alongside of men who have had years of experience in framing laws he may be taught that the future improvement of rivers and harbors does not rest entirely upon his shoulders. Congressmen, as well as others, to use a coined phrase, too often pick themselves before they are ripe.

SEVERAL prominent business men of the county were in conversation a few days ago discussing, among other things, the road question. One gentleman advanced the idea, which was concurred in by the others, that the only way Columbia county would ever acquire good roads was to begin by building each year a certain amount of road and make it permanent. No matter if no more than one mile was built in one year, make that mile substantial. The idea is a good one, and if put into execution, we believe, would result satisfactory. The concensus of opinion among the gentlemen was that it would be profitable to buy a rock crusher and macadamize whatever road was built. There is an abundance of stone in the county for this purpose and at no point would it be necessary to haul a great distance. This conversation was had with special reference to roads leading into the Nehalem valley, from which the Columbia river was the natural outlet, but owing to the bad thoroughfares a large part, in fact the principal traffic, goes out through Washington county on the south, and a large part into Clatsop county on the west. This proposition has been discussed more or less for several years, but like many other new methods, while all or nearly all agree that it is practicable, it is slow to develop. However, it is not among the possibilities that this method of roadmaking will not be adopted in the near future.

THE CENSUS COMPLETE.

Columbia County's Population, and the Production of Last Year.

After many months of hard labor the assessors of this county have completed the census enumeration, and now we are able to furnish our readers with the complete figures. The work was necessarily made tedious by the fact that the assessment of the county was made at the same time. Mr. White and his deputy, Mr. Barnes, have not slighted the work in any way, and if the blanks furnished by the state for such purpose had been arranged so as to allow of enumerating less important articles, such as beef, chickens, eggs, etc., we would have been able to tell exactly the output of the county for the year 1894 in every detail. The following are the figures taken from the census book in the assessor's office, and include population and production:

No. of males over 21 years	1,796
No. of males under 21 years and over 10 years	1,093
No. of males under 10 years	768
No. of females over 18 years	984
No. of females under 18 years and over 10 years	493
No. of females under 10 years	756
Total population	5,890
No. of legal voters	1,759

PRODUCTION.

No. lbs. of wool	6,446
No. of sheep	1,308
No. of hogs	1,249
No. of horses	1,614
No. of mules	49
No. of cattle	4,509
No. bu. of wheat	8,185
No. bu. of oats	20,776
No. bu. of rye	636
No. bu. of corn	104
No. tons of hay	10,823
No. lbs. of tobacco	206
No. lbs. of butter and cheese	198,479
No. lbs. of hops	6,413
No. bu. of potatoes	63,284
No. bu. of apples and pears	8,285
No. bu. of plums and prunes	1,438
No. barrels of salmon	6,193
No. feet of logs and lumber	18,176,000
No. of shingles	20,000,000
No. acres of land under cultivation	12,372

CLATSKANIE.

Deputy Sheriff Blakesley was in town on Monday.

A new scow is being built near Bryant's sawmill.

The public schools are moving along quite successfully.

The city council got together Saturday evening, but we did not learn what was done.

Palm & Company keep crowded to get lumber sawed fast enough to supply the demand.

Mrs. Phil Stout, of Ilwaco, made her parents a brief visit, leaving again on Monday evening.

C. Lovegren was a passenger on the outgoing steamer Monday evening, bound for Portland.

W. E. Conyers has been supplying roasting ears of a very excellent quality. They can be found at the store.

Mrs. S. Lindgren passed through town last week on her return from Portland, where she made a brief visit.

Miss Gertie Badger arrived Monday from the Nehalem valley. She will probably spend some time at her home near this city.

Frank Merrill and others are getting things in shape to locate the co-operative sawmill near Beaver, on Harvey Glenn's place.

Some young folks gathered at the residence of Mr. and Mrs. W. H. Conyers on Monday evening for a so-called surprise party.

It is interesting to visit the shingle mill and see the double-action process of making shingles. Every one is busy when the mill is going.

We thought we noted the visage of J. R. Beegle, of THE MIST, on our streets Monday, and learned that he was on his way to Nehalem valley.

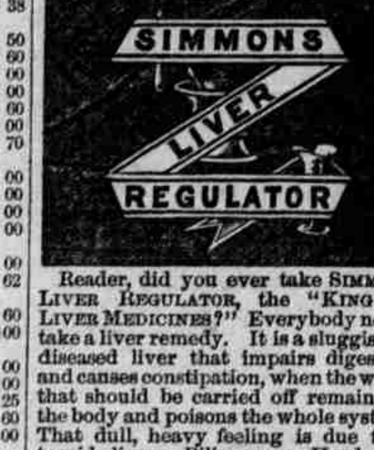
Our veteran farmers, O. J. Bryant and wife, were in town Monday doing some shopping. They are supplying some excellent fruit for market.

A photographer's scow is another addition as well as attraction. The usual sample pictures were swung to the breeze and all seems ready for business.

G. F. Lindgren, of Mist, was in town last Monday with his young daughter, on their way to Portland. He expects to leave his daughter there to attend school this winter.

Mrs. J. T. Johnson was brought home last Friday from McNeeley's, where she has been since the injury received in being thrown from a horse. She is improving, but is very much disabled by the injuries received.

The ridge road to Rainier was obstructed on the Burford place by falling trees a portion of last week, but our enterprising rancher, C. Lovegren, and his boys got the trees removed after being obliged to leave his horse and cart in the road over night.



Reader, did you ever take SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" Everybody needs take a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Billiousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons Liver Regulator and you'll get rid of these troubles, and give tone to the whole system. For a laxative Simmons Liver Regulator is BETTER THAN PILLS. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z stamp on the wrapper. J. H. Zeilin & Co., Philadelphia.
