They were pas-sengers up on the Kellogg, Wednes-day. A rattle snake twenty inches long and make that serve the purpose of the purfunctory visits which are now paid in conformity with a senseless fashion. It is certain that nothing could be more uninteresting or vex atious than the present system of call-

atious than the present system of call-ing. In starting out to perform this duty the dearest hope of the woman who ventures upen it, is that she may find everybody upen whom she calls away from home. If this expectation is blighted, five, ten, or fifteen minutes geography to those who know nothing of have helped enjoying themselves if they it. "From the known to the related un-known," is Mr. Wetzell's motto in this. was perfectly happy.

are squandered in an insame exchange of compliments and idle gossip and then the caller moves on to the next States. Let the child have practical ideas of geography before it is given a text book. The instructor described a map which he once saw. A piece of ground 15x20 feet had been burned over thoroughly, then spaded up until the earth was fine, and the map of Monmouth, suggested a chart made by the station. A woman with a long list of calling acquaintences is compelled to make her life a burden or be conisdered out of society. The clearance club idea embodies the essence of great reform. It would do more for the emancipation of woman, than the bal-lot.

STRAMER BURNED .- About 12 o'clock depressions with colored lines for rivers; on Thursday night of last week our people were startled by the sound of the firebell and the blowing of a steam whistle. In a few moments it was apparent to all who were awake that here was a fire of no small din.ensions two talks upon history followed this. A clear enunciation, and distinct enunciation, and distinct enunciation is to express the for the light of the buraing steamer Messenger illuminated the city in every part. The fire department re-sponded to the alarm in short order and proceeded to Muckle Bro's, wharf time it enters the school room, but not by thought and feeling of the selection and to where lay the steamer Messenger with flames shooting forth from every escape. It was useless to try to save the steamer, so all efforts were centered on saving the sawmill and store, prosecuted with success. The fire real study comes-which should not be un-til the pupil is advanced enough to enter the fifth reading class-he will constantly prosecuted with success. The fire was caused by the explosion of a lamp find familiar things and will not think was caused by the explosion of a lamp and the flames quickly spread to every part of the boat. There were several people asleep on board at the time but all were rescued safely. The stammer Harvest Meon with a barge load of wood lay alongside the Mes senger, but steam was quickly gotten up and she towed the barge out into the river. After the fire had gotten in such shape that there was no dan ger of it spreading further the hose were turned on the steamer and in a by six little girls. Then came the great were turned on the steamer and in a little while the Harvest Moon took the hulk in tow and proceeded up the slough a short distance, but before reaching shallow water the burner of the strange, of Oregon City, on the subject, "The Full Man."
