

A NEW RESIDENCE.—Mr. A. Stamp, of Seapoope, has just completed a new residence to take the place of the one destroyed by fire some months ago. The main building is 18x32 feet, one and one-half stories high, with sheds 24x24 feet.

APPLICANTS FOR CERTIFICATES.—At the examination of teachers for certificates which commenced here last Wednesday the following named persons were present: Gertrude Badger, Clatskanie; Hattie Fisher, Mist; Estella Holapple, Delena; Elsie Ordway, Vernonia; Willie Grant, Seapoope; Clarence Adams, Vernonia.

TOO MUCH ABOARD.—Last Monday evening a man got on board the R. R. Thompson at Portland for Charlton's landing. The steamer made the landing, but the man was so drunk that he had fallen asleep and could not be found. By the time the boat reached this place he was on deck, and came ashore, but was hardly able to walk. He took the early morning boat Tuesday for his destination.

SELF-SUPPORTING STUDENTS.—Fully half the students enrolled at the Normal at Monmouth are either wholly or partially self-supporting. At least 90 per cent came from the country. Many teach a year and attend school a year. The expenses are very light from \$100 to \$150 a year for living, books, and tuition. Twenty-four counties were represented last year.

SHORT WHEAT CROP.—It is now estimated that the wheat crop of the Willamette valley will be about 25 per cent short of last year. The crop east of the mountains is said to be up to the average. The shortage in the Willamette valley is said to be due to two causes, the principal one being due to the hot and dry winds in the early part of July, and the second the excessive rain of ten days ago.

AGAIN IN BUSINESS.—Mr. C. W. Knowles, formerly proprietor of the St. Charles hotel, in Portland, has leased the Hotel Parkside of that city, and will in future be found catering to the wants of his old-time friends at this favorite and conveniently located house. Mr. Knowles is a thorough hotel man, and in his new location will be able to accommodate all his friends in the way of splendid hotel apartments.

GRASS GROWING NICELY.—Grass on the bottom lands is looking splendid. The water has been receding gradually and has "kept off the grass" for some days, so that with the warm sun to mature the hay, harvest of that crop will not be much later than usual. Besides, many people agree that because of the recent unusually heavy rains the regular rainy season will be late this year, which would, indeed, be of great benefit to the dairymen on the Columbia bottoms.

THIS IS CRUEL.—The newspapers are publishing a horrid story that a "sweet girl graduate" in Crook county recently took the teachers' examination. Here is a portion of what she wrote in answer to a question in physiology: "The body is divided into three parts—the head, the chest and the stomach. The head contains the eyes and brain, if any. The chest contains the lungs and a piece of the liver. The stomach is devoted to the bowels, which there is five, a, e, o, u, and sometimes w and y."

A MASHED MASHED.—Portland Welcome: A smart young man had his ears well boxed on the Yaquina bay train a few days ago. He had been trying to attract the attention of two Corvallis girls, and falling, said to them: "Ah, there, girls; you're awfully slow." "But I'm not," said the big brother of one of the girls, who was sitting near by, as he landed three tall blows on the masher's face. One blow knocked the would-be masher's hat out of the car window, and the other two were good for black eyes.

A RECORD BREAKER.—Mr. M. C. Case will close his third successive term of school at Houlton next Tuesday, after which he goes to Washington county, where he will have charge of the Greenville school this fall, the term beginning the middle of September. During the past sixteen years Mr. Case has taught 163 months of school, or a little over ten months out of each year for the entire time. Who can beat this record? Mr. Case has made many friends while in this county who will be sorry to see him leave here.

NOTHING MORE TRUE.—One reason why people never pay any attention to signs and advertisements daubed on old fences, stables and bridges is because they do not know whether they are reading the advertisements of some firm that is still in business or one that has been dead for years. On a ten-mile drive into the country the other day seventeen signs were counted of firms who are now out of business. When people read advertisements in a newspaper that is up-to-date they know that the advertiser is alive and doing business.—Medford Mail.

SALMON SEASON ENDS.—Yesterday was the close day of the fishing season, but at Astoria the fishermen seem to have brought the season to an end Saturday night in a row over the price of fish, says Tuesday's Oregonian. Many fishermen who have been working in the lower river arrived here yesterday with their pay checks to be cashed, and many of them started out to have a spree as soon as they received their money. These men live out in the country in various directions, some on the Clatskanie; but few of them go home after receiving their pay without spending some of it in a spree about town. There are lots of salmon in the river. Saturday the head of a big school had reached Rooster rock, where four tons were taken on Black's seining grounds. The school can now progress toward its spawning grounds comparatively unmolested, if they get by the dallas before September 10. Any which remain below the dallas till after that date will hardly get past wheels there when they start up.

SHIPPING COWS TO JAPAN.—Last Monday Mr. P. A. Frakes, of Seapoope, sold to Simaburo Ban, of Tokio, Japan, a Holstein Friesian cow, registered (31249 HHB, name Vreda Glyntaff) which will be shipped with a number of other cows to Japan. This cow was shipped to Portland Monday and from there she will be taken to Tacoma by train, where the cargo of 21 cows will be put on board a steamer for the Orient. The price received by Mr. Frakes was small for such stock, being only \$50, but even at this low price these animals will be very expensive by the time they reach their destination. The freight per cow from Tacoma, Wash., to Tokio, Japan is \$40. It is also necessary to pay full fare for a man to go with them at a cost of \$350 for the round trip. No attempt will be made to ship any but the very best stock as the expense of transporting is so great that common stock could not be shipped profitably such a great distance. Mr. Frakes' stock of dairy cows are nearly all of the above breed and they have a reputation for being great milkers. It would not be surprising to see a large trade in fine stock built up between this coast and the Orient in the near future.

ALFRED HOLMAN HERE.—Mr. Alfred Holman, president of the Dewey Publishing Company, of San Francisco, was in the city this week. He was a guest at the home of his aunt, Mrs. W. H. Dolman. Mr. Holman will be remembered, came to Oregon last week to accompany the remains of his mother. He had been absent from Oregon for several years, or since he severed his connection with the Oregonian to take editorial charge of the Seattle Post-Intelligencer. Five years ago he went to San Francisco and purchased the business of the Pacific Rural Press and a magazine devoted to mining, since which time he has successfully and profitably conducted those publications. He says that while business in California is not up to the standard of former years these conditions appear much better than in Oregon, and that the general gloom manifest here does not prevail there to any considerable extent. Mr. Holman will leave in a few days for San Francisco to resume his literary pursuits, and, by the way, it might not be out of place to say here that Mr. Holman is one of the bright writers of the day.

SALMON SHIPMENTS.—The fishing industry at St. Helens is of no small proportions, although generally speaking, this is not considered a large shipping point for salmon. It will be of interest to note, however, that this season there has been shipped by Sheldon & Cox, of this place, 140 tons of salmon, for which the fishermen received, at 4 cents per pound, the prevailing price for most of the season, the sum of \$11,200. It will be remembered, too, that all the catch here has not been shipped through this firm, so that it is impossible to state just how much fish has been caught here, but it is safe to say that the aggregate will reach far above the figures above quoted. This is no small item of itself in our commerce, considering that the season is of only four months' duration.

HOUSE BROKEN INTO.—On Wednesday night of last week the warehouse belonging to Mr. E. M. Wharton on his farm at Deer Island was broken into and tools to the amount of about \$15 were taken. The tools were in a chest, which was broken open, and among the things taken were saws, chisels and brace and bits, a full outfit, which would be convenient for a professional housebreaker. Mr. Wharton has no idea who the burglars are, but would like very much to know. Small burglaries have been numerous in these parts lately, a number of houses having been broken into recently. St. Helens has not escaped these petty marauders, though no thefts of any considerable proportions have been committed as yet.

MCCONNELL ARRESTED.—Yesterday's Oregonian: George F. McConnell, keeper of records and seal of the Grand Lodge of Oregon, Knights of Pythias, who ran away from Portland a month ago to escape prosecution for shortages in his accounts, has been located at Roseland, the British Columbia mining camp. Judge T. A. Stephens, of this city, saw McConnell in Roseland, recognized him, and caused his arrest by the British officers. Judge Stephens then telegraphed to Portland for an officer, and Detective Al Cody will be sent after the defaulter. McConnell expressed his willingness to come to Portland, and said he would make no trouble over extradition papers. He said he sincerely regretted his downfall, and apparently feels his disgrace keenly.

MISPLACED CONFIDENCE.—Albany Democrat: A kind hearted bachelor in the country took a poor, foot-sore tramp into his house and gave him a warm welcome, he promising to work for his board, which he did for a few days, in a proper manner. But his kind friend went to Albany one day, leaving him at home, he having hired to a farmer near by for three months. When he returned his man was gone, also his best suit of clothes, an extra pair of pants, a pair of overalls, four shirts, a pair of boots, and various articles of an eatable nature had also disappeared with him, leaving the poor bachelor almost without anything to eat or wear. It is needless to say that a trap will be looked upon with suspicion hereafter by this man.

DYING BY HUNDREDS.—We of Oregon know little of intense heat as compared with the telegraphic reports from Chicago, St. Louis, Washington, New York, and other eastern cities for the past few days, announcing deaths by the hundreds throughout the eastern and Mississippi valley states. In New York city alone last Monday over 100 deaths occurred from heat. A strange feature of all this is the fact that the temperature only reached 100 at its highest point. This is probably accounted for in the fact that most of the victims were men whose employment was in doors and consequently were not used to the sun and when going upon the street succumbed to the intense heat.

A Household Treasure.
D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found in the very best results follow its use; that he would not be without it, if possible. G. A. Dykeman Druggist, Catskill, N. Y. says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and used.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredericktown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by Dr. Edwin Ross.

A printing office is considered by some folks a tough place and the newspaper worker a mighty bad man. Statistics, however, do not bear out that idea. Of 3,990 convicts in the state penitentiary of Texas there is not a printer or newspaper man, while there are ministers, doctors, bankers, barbers, photographers, barkeepers, and cooks and members of professions and callings. The printer gets a bad name because the nature of his business teaches him to detest shams, and he scorns the hypocrite.—The Newspaper Union.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of black berry cordial but got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by Dr. Edwin Ross.

A lodge of Good Templars was organized at Warren last Monday evening with about 30 members. The following are the officers for the ensuing term: C. T. H. Clark; V. T. Ruth; A. Hoyt; secretary, Lillian A. Larsen; assistant secretary, John F. Downing; financial secretary, Frank M. Hoyt; treasurer, Charity Baker; chaplain, I. W. Sammons; marshal, C. C. Clark; D. M. Robert Downing; G. Birdie Downing; S. Walter Collins; L. D. Kittle G. Clark; S. J. T. Minnie A. Downing; P. C. T., Floyd Puzey.

Senator McBride came down from Portland Tuesday and spent several days at the family home in this city. Though congress is not in session the senator is very busy planning and preparing his work for next session. He seems to realize that his services belong to his constituents all the year, whether congress is in session or during the recess.

Mr. M. C. Gray returned Wednesday from Whitcomb, Wash., where he had gone about ten days before, having been summoned there on account of the mysterious disappearance of his father from that place. After spending several days in search no clew to his father's whereabouts was obtained. The case is a very mysterious one to say the least.

Astoria is to have a gay time next week and the week after. On Wednesday the Oregon Press Association will meet there; on the 18th the regatta will begin and continue three days, after which the Northwest Firemen's Association will hold its annual tournament for a period of two days.

Mrs. Ellerson, of Portland, came down on the Gatzert yesterday to visit her daughter, Mrs. J. H. Sheldon.

WOOD FLUME IN OPERATION.—The Oregon Wood Company tried its new flume for the first time last Wednesday, and so far as the flume itself is concerned it is a success. Some trouble has been encountered, however, in arranging the dam on Milton creek. The first dam put in did not stay and it was necessary to change the plan to some extent. Mr. Piggott, manager for the company, thinks he has the dam substantially bolted to the bedrock of the creek, and that no further difficulty will be had. The flume is now ready for business in a business way, and in future there will be a good supply of wood on the dock for all purposes.

The families camping on the W. H. Conyers place for the last three weeks, folded their tents last Friday and took passage on the steamer. They report having spent a pleasant time while camping here.

A report comes to us that Mrs. Sallina died of consumption at the hospital in Astoria last Saturday. Deceased was better known here as Sophia Swanson, who about a year ago married Oscar Sallina. Her mother resides here.

M. Burford, on the ridge, has had his quiet residence enlivened by a visit of friends from the valley. Two ladies and a gentleman have spent a few days with him and so transformed his quarters that it will be strange if he does not remember that an old and standard authority says "it is not good for man to be alone."

L. D. Duzan was in town recently, and reports that he has withdrawn from the shingle business, disposing of his interests to his late partners, Malcolm & Pitsenberg. The dust was too much for his breathing apparatus in the mill, and the absence of sufficient "dust" for the manufactured product were both factors in his getting out.

Chandler and English have been hauling shingles this week for shipment from the sawmill outside of town. On Tuesday English had the misfortune to upset a load near Van's, and scatter shingles promiscuously, being breaking the tongue of his wagon. The horses unexpectedly commenced backing and ran the wagon over a bank. No harm was done aside from that mentioned, and work soon went on as usual.

A "social" over at Lower Beaver school house last Saturday evening attracted quite a crowd of Clatskanie people, and as many as could conveniently get a means of conveyance to the number of 25 or 30 went over to spend the evening with the people of that locality. A programme of recitations and music was interspersed with cake and coffee and a general exchange of social greetings. All report having had a pleasant evening.

A dramatic entertainment given by young misses and girls of the Clatskanie High school is announced for next Friday evening. Preparations for this event have been going on for some time and a very creditable entertainment is expected. Good music is also promised so as to make the attractions still more attractive. Circulars inform us that admittance will be 25 and 50 cents and that the proceeds are for the benefit of the public school.
