NO TIME SHOULD BE LOST

By those troubled with constipation in seeking relief from Hostetter's Stomach Bitters. The disease is easily relieved in its earlier stage, and as it is utterly subversive of the general health, postponement of the remedy is unwise. The same holds good of delay in cases of fever and ague, kidney complaints, nervousness, debility and rheumatism, ailments to which the Bitters is particularly adapted.

A syndicate has been formed to tunnel the Great St. Bernard and connect Turin and Lausanne by rail.

I never used so quick a cure as Piso's Cure for Consumption.—J. B. Palmer, Box 1171, Seattle, Wash., Nov. 25, 1895.

For terms, samples and particulars, address at once PACIFIC COAST AGENCY WEBER MANUFACTURING CO., 819 Market street, rooms 23 and 24, San Francisco, Cal.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Hall's Family Pills are the best.

The hardy Scotch tweeds have a favored place among the season's popular textiles.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

One of the Advantages.......

of city life is the bargains of the big city stores.

Our Mail Order Department

EXTENDS these opportunities for economy to out-of-town people. For example, we offer

Children's Natural Grey Wool Underwear......

As here pictured, fine grade goods, in right Oregon weight,

FOR 19c a garment in..........1 to 4 year sizes
FOR 29c a garment in..........5 to 8 year sizes
FOR 39c a garment in..........9 to 16 year sizes

A bargain never matched in Portland's history. On these we will pay the postage or express, and with each order will send our new Fall Shopping Guide Free.

HOW TO BE BEAUTIFUL!

MME A. RUPPERT'S FACE BLEACH.

MME. A. RUPPERT says: "I appreciate the fact that there are thousands and thousands of the ladies of the United States that would like to try my World Renowned FACE BLEACH; but have been kept from doing so on account of the price, which is $2 per bottle, or 3 bottles taken together $5. In order that all of these may have an opportunity, I will mail free a sample bottle, safely packed, plain wrapper, on receipt of 25 cents. FRECKLES, pimples, moth, sallowness, black heads, acne, eczema, oiliness or roughness, or any discoloration or disease of the skin, and wrinkles (not caused by facial expression,) FACE BLEACH removes absolutely. It does not cover up, as cosmetics do, but it is a cure.

Send for my book "How to be Beautiful," free on application. Address all communications or call on

PLANS OF WAR DEPARTMENT.

Changes Contemplated for San Francisco Garrison.

San Francisco, Nov. 2.—The recent changes that have taken place at the several local military stations will not result in a reduction of the numerical force of the San Francisco bay garrison. As a matter of fact, the late maneuvers mean that San Francisco harbor is to be more thoroughly protected than ever. Colonel W. R. Shafter, the new comander at the Presidio, is authority for this statement. Furthermore, the various changes effected and in contemplation are the direct result of General Miles' recent visit to the Pacific coast.

It is the intention of the war department to make San Francisco the largest and most important military post on the entire slope. The plan agreed upon includes many changes. Hereafter the Presidio is to be regarded merely as headquarters for the post officers and a detachment of land forces, instead of a rendezvous for the principal detachments assigned to the post. The assignment of high-power guns to this station has rendered necessary the selection of elevated and advantageous sites, such as Lime point, Point Lobos and Point Bonita, for their mounting, instead of the low ground at the Presidio.

One of the chief features of the proposed improvements for the defense of this port will be the establishment of an entirely new station on the Marin county shore. The almost natural earthworks back of Point Lobos, on the San Francisco shore, are to be mounted with six or eight of the high-power guns and another powerful battery is to be located at Lake Merced.

These, acting with the already powerful battery of dynamite guns and 16-inch high-power rifles mounted near the Presidio, are considered sufficient by General Miles and Colonel Shafer to take care of any hostile squadron.

VINING'S THREE SHOTS.

A Mason County Logger Killed His Friend and Himself.

Olympia, Wash., Nov. 2.—Crazed with drink, George Vining, a logger, deliberately shot James Jones, at Shelton this morning, attempted to kill another man, and then ended his own life.

Vining had quarreled last evening with two men from Seattle, and one of them bit his lip. The three men had apparently forgotten the quarrel, and were sitting in a saloon at 2 o'clock this morning, when Vining cooly remarked:

"I guess I'll kill a couple of people."

He went to his cabin at the end of town and returned with a rifle; looked into the saloon, but, not seeing the two men with whom he had quarreled, he took up his station across the street. About an hour elapsed, when one of the men, named McIntyre, stepped out and Vining fired. The bullet shattered McIntyre's arm, and the arm had to be cut off.

The lights in the saloon were put out, and the men scattered. Vining waited for another victim and fired at the next man to leave the saloon. That man proved to be James Jones, aged 33, and a particular friend of Vining. When the mistake was discovered, Vining turned the rifle against his own abdomen, fired and dropped dead. Both of the dead men were unmarried.

ON MEXICAN SOIL.

A California Rancher in Trouble Across the Line.

San Diego, Nov. 2.—Harry Mansur, an American farmer living on this line near Tiajuana, is in trouble in Lower California. He has a Mexican wife whose parents live at Rosario, eighteen miles south of the boundary line. Last Monday Mansur and his wife went to visit them. The custom prevails on the border of allowing Americans to enter Mexico freely with horses and outfit, provided the parties are well known and intend to return. The same rule applies to Mexicans entering this country. Mansur drove a Mexican horse, but the wagon and harness were of American manufacture. At midnight, he was routed out by a posse of rurales and conducted to Tiajuana, charged with smuggling. An immediate trial took place before Joaquin Zazaueta, justice of the peace. Mansur was fined $680 or five years imprisonment in Ensenada. The papers were forwarded to Ensenada, and the prisoner followed. Mansur will appeal to American Consul Godbe at Ensenada for interference in his behalf. It is believed the absurd heavy sentence will be revoked by the higher court.

A Murderer Hanged.

Chicago, Nov. 2.—Julius Mannow was hanged at noon today for the murder of Carey B. Birch. Mannow wrote a letter yesterday in which he stated that Joseph Windrath, his companion in crime, who was executed June 5 last, was not guilty, claiming he did the shooting himself. On the scaffold he reiterated the charge made some time ago, that Judge Horton had led him to believe he would escape capital punishment if he confessed, thus giving him no chance for his life in his trial. Mannow had a criminal record extending over ten years, and twice served terms in the penitentiary for burglary.

The chicory crop is getting to be valuable in Nebraska.

American Apples in Germany.

London, Nov. 2.—A Berlin dispatch to the Daily News refers to the arrival of the first shipload of American apples at Hamburg, and their selling for from four to eight shillings a hundredweight, while good German apples at this season of the year cost 16 shillings.

Tornado in Louisiana.

A destructive tornado passed through Tensas parish, La., five or six negroes being killed. There was widespread destruction of property.

Berlin, Nov. 2.—Bruno Werner, a clerk, has been arrested in the Hartz mountains, charged with being the instigator of the murder of Herr Major Levy, president of the Berlin bar, Sunday morning, October 18. Levy was attacked by two men in the bedroom at his residence at Meirenstrasse and clubbed to death. His wife was seriously wounded at the same time. The assassins escaped. Wilhelm Grosse, a locksmith, arrested Tuesday, confessed, and said Werner planned the murder.

Mycose is a sugar produced from the ergot of rye.

ANOTHER TEXAS TORNADO.

Sherman and Country Round About Wasted by a Funnel-Shaped Cloud.

Sherman, Texas, Oct. 30.—This afternoon, at 1 o'clock, a tornado formed in Squirrel creek bottom, four miles west of the village of Farmington, and about 100 miles southwest of this city.

Parties who saw it at its inception say that out of a seething, tumbling mass of inky clouds, a funnel-shaped column descended, until it touched the earth, and then began to move northeastward, accompanied by the usual terrific crash and roar, as it tore through the bottoms, uprooting large trees and demolishing everything in its path, which, for the first mile or two, was thirty or forty yards wide.

The first house struck was on the George Duke farm, one mile west of Howe. No one was hurt at this place.

From there until it struck the Farris farm, two miles south of the city, a distance of perhaps two miles, it is known to have risen and descended several times, but what damage it did has not yet been ascertained. Several parties have gone to that section, but it will be several hours before definite information can be had.

At the Farris place, a tenant house, occupied by a family named Hayes, was literally torn to pieces and every member of the family was more or less injured. Hayes is thought to be fatally hurt.

The path of the storm lay a mile and a half southeast of the city, but the cloudburst, which accompanied it, was furious in the eastern suburbs. Houses as far down as Cleveland avenue are bespattered with mud, the same as was the case during the great storm in May. After tearing down a vacant house east of the Clem Fitch place, about a mile east of College Park suburb, the cloud rose in the air and went a distance of two miles, when it descended, but no further damage has been reported.

KNOCKS FOR ADMISSION.

Arizona Desires to Enter the Sisterhood of States.

Washington, Oct. 30.—The people of Arizona are in favor of statehood, says Governor Franklin, in his annual report to Secretary Francis. The report is one of the most voluminous and profusely illustrated received for years at the department. It shows that the total mining output of the territory for the year was $13,978,263. Of this amount, gold aggregated $5,200,000, exclusive of about $600,000 taken by the prospectors and placer-miners, and the total is a year's increase of $940,000. The total product of gold, silver and copper in Arizona for the twenty years ended June 30 last aggregated $127,166,016. The cattle shipments from January 1, 1894, to June 30, 1896, reached 595,379 head. The territorial board returns show the value of taxable property has gained $500,000 during the year, and conservative men claim the actual valuation to be $90,000,000.

SITUATION IS WORSE.

A Severe Famine Cannot Be Averted in India.

Simla, Oct. 30.—The famine outlook in India is increasing in gloominess. It is not probable now that rain will fall and prospects are serious in the northwest and central provinces in the Punjab. The scarcity is extending to Behas. At Bombay prices have risen heavily. Large imports of foreign grain are expected. About thirty lakhs of rupees have already been given from the imperial revenues for advance seeds, etc., and relief work in the northwest and central provinces, the Punjab, Central India and Raputana are being started, in addition to the irrigation works which are projected in the Punjab. The government will issue a detailed final forecast of distress in December.

A Puzzling Case.

Toledo, O., Oct. 30.—Henry Ramm attacked his wife and a party of ladies who were going to church with a revolver. He shot at his wife but missed her, and the bullet struck Mrs. Schmidt in the arm. Mrs. Ramm fled as Mrs. Schmidt fell to the sidewalk. The maddened man pursued his wife two blocks, firing at her constantly. She escaped into a neighbor's house. Ramm then returned and began fusilading Mrs. Schmidt, after which he turned his attention to his stepson, and fired several shots at him without effect, and also turned his weapon on the crowd that had collected. Ramm then walked across the street and, taking off his hat, fired a bullet into his own forehead above the right eye. He was taken to the police station to die, but later he got up and walked about the room and asked for a paper to read. The physicians are puzzled.

Valuable Material Unearthed.

New York, Oct. 30.—G. L. Baer, professor of history at Cornell university, arrived on the Teutonic, after spending some months abroad, examining the archives of The Hague for official documents pertaining to the Venezuela boundary. These documents go back to the 16th century. Professor Baer found that some of the records had found their way into England, which necessitated his going to London to examine them. Professor Baer was assisted in the investigation by Dr. Dehaan, of John Hopkins university.

Cruise of the Philadelphia.

San Francisco, Oct. 30.—The flagship Philadelphia has been ordered to prepare for a cruise along the South American coast. She will leave this port in about three weeks, and it is thought the flagship will spend most of her time during the coming winter in ports along the Peruvian coast.

Shallow men are generally despised, but they don't require as much watching as deep ones.

Sightseers Injured.

Wilkesbarre, Pa., Oct. 30.—A car on the Pittston electric railroad, crowded with passengers who had come to Wilkesbarre to witness a political parade, jumped the track at Plainview early this morning. Three women are reported fatally and a score seriously wounded.

When the British sparrow hawk is flying toward its dinner it cleaves space at the rate of 150 miles an hour.

China has furnished us the latest instance of a Li well stuck to.

Friends Failed to Recognize Her

Mrs. Hadix so Changed in Appearance That She Hardly Knew Herself.

She Says the Secret of the Great Change and Her Present Good Health is Due to the Use of Dr. Williams' Pink Pills—Other Prominent Citizens Testify to the Merits of This Remedy.

From the Call, San Francisco, Cal.

"You don't know me! Well, I am not surprised at that. I hardly know myself, and yet here I am full of life and vigor. Look at my arms, round, strong and healthy. The color of my cheeks show life and animation."

So spoke Mrs. Hadix, wife of Rev. E. Hadix, of Placerville, California, and "what has produced this wonderful change from almost death to healthful, active life?"

"Well, I will tell you it was Pink Pills for Pale People. You will remember that for years I walked the streets a living skeleton—emaciated—weak, and a complete wreck. My flesh colorless, my nerves unstrung. I had no blood. If my flesh was punctured, a thin pink stain was all that could be produced. My physicians said there was no hope for me. My friends despaired of my recovery. I was sent to Sacramento, where three of the most eminent physicians diagnosed my case, but they shook their heads and said they could not help me, and they refused to take my money as they could do me no good.

"My husband was sent for to say the last good-bye. When I lay on my couch to rest I felt as though I was sinking, down, down, down. I could not sleep, neither could I rest. When all hope from physicians was gone, I determined to try what virtue there was in Pink Pills for Pale People. I commenced taking them and soon began to improve. I continued their use with the result that to-day I am fully recovered to health and happiness, and this in less than six months from the time I commenced their use. All hail to Pink Pills for Pale People."

J. C. Stephens, another resident of Placerville, said: "I was afflicted with rheumatism for more than twenty years, and only with the greatest difficulty was I able to walk to my place of business, my hands were so stiff and swollen that I could scarcely hold anything in them. When driving my team, could not hold my whip. I saw in the San Francisco Call that a friend of mine had been cured of rheumatism by using Pink Pills. I commenced using them with the result that I am completely cured."

Mrs. J. G. Bailey was afflicted for a long time with kidney trouble and could not rest nights. She said: "I had heard so much about the wonders that Pink Pills performed that I concluded to try them. I commenced taking them, and found immediate relief, sleep nicely, and in every way am greatly improved."

W. F. Fairchild is a druggist doing business in Placerville. He says he has been selling Pink Pills for Pale People for several years, and that his customers speak very highly of them, and sales have been more than doubled within the last six months, especially since the wonderful recovery of Mrs. Hadix, whose case was considered hopeless, and whose recovery by the use of Pink Pills was considered almost a miracle. The reputation of these pills is fully established for doing what they promise.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for $2.50, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

No Salts.

This is a story that Charles Henry Webb—I dare say you've read Mr. Webb's exquisite verses in the current Harper's—tells of a Western experience of his. He happened to meet an old acquaintance in San Francisco a few years ago, and as there was grand opera in the city just then, Mr. Webb took the young daughter of his friend to hear "Faust." The girl was just out of a convent, and had never been in a theater in all her life before. As the curtain rose Mr. Webb handed her a pair of opera glasses. The girl looked at them for a moment. Then she raised them to her dainty nose, sniffing at first one side and then the other.

"Why," she said, as she handed the lorgnette back to her companion, "you ain't got any salts in them."—Washington Post.

A Legend Spoiled.

The Napoleonic legend tells how Napoleon, while Moscow was in flames, found time to draw up a decree organizing the Theater Francis, says the Paris "Messenger." Alas the story is not true. The French national archives have recently been overhauled, and it transpires that Napoleon was in Poland when he received the decree ready to be signed. He there signed it and sent it back to Paris, but in the margin wrote the following: "To be forwarded when the army will be at Moscow. It is His Majesty's intention that the decree should be dated from that town." The archives did not say whether the decree was sent to Moscow or not, but it was certainly not drawn up there.

PORTLAND LETTER.

Narrow Escape of Mrs. Dickenson From Being Buried Alive.

Special Correspondence.

Portland, Or., Nov. 2.—In my letter last week, in reference to the clubs of Portland, whilst I, by no means, meant to give a complete club directory, in mentioning the more prominent, as I did, it was accidental on my part that I neglected to speak of the road club, or, more properly speaking, the Good Roads Club.

If I be not mistaken, that club has the largest list of members of any club here. The club occupies the mansion of the late Banker Dekum. The house, on a quarter block, has been remodeled, and a bowling alley has been built apart. The rest of the whole-block is a beautiful garden, where lawn parties are given in mild and clear weather, bunting six feet high being stretched about the garden to keep those from seeing who have not paid to get in.

The object of the club is to encourage good roads, but its pursuit seems rather to be sociability. The club has aroused some interest in good roads, but I fear that this has been somewhat ameliorated by a recent city ordinance permitting bicycles on the sidewalks, provided the riders dismount within thirty feet of any pedestrian approaching—which the riders do not do with a zealous fidelity to their own elegant comfort that is worthy of a better cause.

You'll find the advertisement of Olds & King on this page quite interesting this week. As I told you in another letter, I know Olds very well, and any thing he says in an advertisement is quite as good as the best man's bond. The house says it will offer some unusual bargains, so as to draw the attention of your readers, and start up business communication. Their catalogue may be had free for asking on a postal. Be sure of the number, 302 Washington street, and watch for the "ad" weekly from now until Christmas.

Before now, you have doubtless read of the recovery of Mrs. Dickenson, at Mount Angel, Oregon, from apparent death, October 18, as the undertaker was about to fasten the lid on the coffin preparatory to taking the corpse(?) to the church where funeral services were to be held. The lady died (?) Friday. The funeral was set for Sunday afternoon. The little church at Mt. Angel was filled with friends Sunday afternoon, the pall spread for the coffin, and the minister ready to officiate. After waiting over half an hour for the arrival of the funeral procession, a messenger was sent to discover the cause of the delay. Soon the information was returned that Mrs. Dickenson had returned to life, as above related. These facts I obtained from the minister myself, who is a worthy, reliable and truthful gentleman. That was truly a narorw escape from being buried alive. My present information is that there are hopes of Mrs. Dickenson's permanent recovery.

Even hard times help us some. A recent heavy failure here of J. M. Moyer & Co., bringing with it the failure of the Albany Woolen Mills, has thrown an immense stock of men's and boys' clothing on the market, made of pure Oregon wool, at exactly wholesale cost. State Senator-elect Ben Selling, as assignee, has cut prices to exact cost to raise money at once. So, if you happen to want clothing, suits, overcoats, boys' clothing, at actual wholesale cost, address Assignee, J. M. Moyer & Co., Third and Oak streets, and my word for it, Senator Selling will quote you at actual cost, for brand new goods, newest patterns and latest styles.

The rainy season has about set in, and not for years have Portlanders had a better opportunity of experiencing the benefits of the excellent new street pavements that I have recently referred to in this correspondence. Heretofore, walking in the business center of this city, during the rainy season, has been, I might say, almost perilous; certainly it was experimental, for no man could tell when he put his foot down in the sloughs between the rows of buildings, whether he would rest his sole on a stump or in the bottom of a sunken mudscow. The new streets add to comfort and give impetus to trade at the stores, which amply repays the outlay for good paving.

An interview with H. W. Scott, editor of the Oregonian, and with Sylvester Pennoyer, mayor of Portland, may appear in my next letter, after the election, if the interviews can be had. Ah! if both of them would only speak their inmost minds on the result of the election, it would prove interesting if not instructive reading. EZEKIEL.

Two Shooting Affrays.

Cincinnati, Nov. 2.—There were two shooting affrays last night. In the first one a drunken Swede was ejected from the Salvation Army barracks, whereupon he shot James Murray, but not dangerously, and then shot a little girl in the wrist. He also fired at his pursuers before he was arrested. The other shooting was at Sherman's distillery, in the western part of the city. The participants were two government storekeepers on duty at the distillery, A. E. McKenzie and Bernard Langemeyer. McKenzie shot Langemeyer in the bowels and groin. Langemeyer died at the hospital. McKenzie came to the police station and surrendered.

Harper's Bazar.

Rebecca Harding Daivs' new story entitled "Fances Waldeaux" will be serially published in Harper's Bazar, beginning in the issue dated October 10th. The illustrations are by T. de Thuistrup.

Lake Schooner Ashore.

The schooner S. P. Ely is reported to have been driven on the breakwater at Two Harbors, Minn., in a gale and sunk. Her crew had a narrow escape from drowning.

Settling Colonial Affairs.

London, Nov. 2.—The Daily News' Rome correspondent reports that it is asserted there that Italy, France and Russia are negotiating for a settlement of colonial affairs by Russia annexing Erythrea, in Abyssinia, Italy taking Tripoli, and France taking Tunis.

Captured by Brigands.

London, Nov. 2.—It is reported that while shooting in Smyrna, Captain Myrriot, of the Norfolk regiment, was captured by brigands, and that he is held by them for $50,000 ransom.

You will find one coupon inside each two ounce bag, and two coupons inside each four ounce bag of Blackwell's Durham. Buy a bag of this celebrated tobacco and read the coupon—which gives a list of valuable presents and how to get them.
