

STRAYED.—From R. Cox's place a bay filly, three years old past, with white spots in forehead. Send information to this office or to R. Cox's farm at Warren.

SAWMILL BURNED.—Inman & Poulson's sawmill in Portland was destroyed by fire on Thursday night of last week. The loss was at first estimated at \$85,000, but since the amount was reduced somewhat. It is said the mill will be rebuilt as soon as the insurance adjusters complete settlement.

A SEVERE BLOW.—Dr. Edwin Ross received a fall while out with a party of skaters last Friday which came near costing him his life. He was running rapidly and fell, striking on his temple which rendered him unconscious for several minutes. He finally recovered from the shock, however, and was able to walk home.

A PLEASANT PARTY.—The home of Mr. and Mrs. W. B. Dillard was the scene of a very pleasant card party on Thanksgiving evening. Friends to the number of about 20 participated in the games, and also in the refreshments of the evening. The evening was a pleasant one, and it goes without saying that Mr. and Mrs. Dillard know exactly how to make their friends feel comfortable at their home.

SHOT IN THE STREETS.—The Corvallis people were treated to the killing of a deer on the streets the other morning. The poor thing was bearded by the floods and had been previously wounded, and yielded up its life to pistol and rifle shots. The dressing process revealed its hide full of shot from shotgun charge fired into it. The poor thing ran into town through fear but found its bitterest enemy there.

OFFICERS ELECTED.—The regular election of officers for Avon lodge, K. of P., took place at the regular meeting in this city Tuesday evening. Those elected were: Dr. Edwin Ross, C. C.; Frank Dow, V. C.; E. E. Quick, F. C.; M. C. Gray, K. of B. and S. J. H. Sheldon, M. of W.; Jacob George, M. at A.; W. A. Harris, M. of E.; C. H. Newell, M. of F.; James Muckle, I. G.; T. J. Cleston, O. G.; trustee for three years, James Muckle, re-elected.

WAS KEPT VERY BUSY.—The steamer Young America was the busiest boat on the river during the present week, made so from the fact that no other boats were running out of Portland for lower river points except the mail steamers and Lurline. The Young America is doing all the way freight business for Sauvie island and the slough, and the Portland shippers find her a great convenience. Her crew is an accommodating one, and this popular steamer is gaining favor daily with the public.

SHIPPING BEEF.—The dairymen along the Columbia bottoms have been making use of the cold water to buteher and market their beef, pork and other products. Isaac Copeland, living two miles above town has been shipping to Portland nearly every day on an average of two beefs. If there is anything in the work that exactly suits a man who has butehering to do it is freezing weather, and the next ten days has been all that could be asked along that line, and it has been made good use of.

NAVIGATION DIFFICULT.—Floating ice in the river has caused a great deal of annoyance to the steamboats and in consequence several of them have tied up, and the remainder have been running the slough route. The night boats to Astoria have suspended until the river is again clear of ice. The Kellogg, Iralda and Elwood have been laid up for several days. The Slaver, on her up trip Monday night, could not get through the ice and was forced to lay over at Rainier and wait for daylight, arriving here about 9 o'clock Tuesday morning.

SHE IS UNLUCKY.—The tow boat Vulcan is certainly meeting with much bad luck lately. Not long since she was towing through the breakwater at the head of Willamette slough, when she carried away one of the dolphins on the left side of the breakwater. To further add to her ill luck, last Sunday night while attempting to pass through the breakwater with a large scow loaded with cordwood, the scow was swamped and the wood all lost. For several miles along the beach of the slough is an almost solid line of wood. The scow probably had on board three or four hundred cords.

SEVERELY INJURED.—Last Monday morning Mr. L. G. Wikstrom, owner of the steamer Harvest Moon, while attending to some duty in connection with the steamer's cargo, and while working about the ruins of the old Oregon Box Factory, in East Portland, fell from the top of the ruins to the ground, a distance of twenty-eight feet, lighting on and severely jamming up the left hip. He was taken on board the steamer, where he remained several days. No bones were thought to be fractured, but he received a terrible shaking up, and may yet suffer a great deal from the effects.

DRIVE WHIST.—Miss Tillie Muckle gave a very pleasant drive which party at the home of Mr. Charles Muckle in this city Wednesday evening. Five tables of twenty players took part in the games, and Mr. J. H. Sheldon and Mrs. David Davis captured the first prize, making 31 points in fifteen hands. Mr. J. E. Beegle and Miss Tillie Muckle were the recipients of the bobby prize, having only seven points to their credit at the close. After the result of the playing was announced an excellent luncheon was served, after which Miss Tillie received the good expressions of her friends present, the party broke up, all agreeing that the evening had been pleasantly spent.

ATTENDS TO HIS OWN BUSINESS.—The demand that Mr. Hammond "show his hand" made by some people in Astoria, does not necessarily follow that Mr. Hammond will accede to the demand. It is very probable that it is understood between Mr. Hammond and those who are backing him in building the railroad that they are not to be known in the matter. This being so, Mr. Hammond will not show

his hand. He agreed to build a railroad from Astoria to transcontinental connection, and he is doing it, and will have it completed in the time specified in his contract. The general opinion prevails that the Southern Pacific is the power behind the throne. The people of Astoria have no right to demand of him anything more than is set forth in the contract. Mr. Hammond has a happy faculty of attending strictly to his own business.—Astoria Herald.

MR. ORCHARD, OF TILLAMOOK.—Mr. H. Orchard, the water works man, who is now engaged in putting in a system of water works at Tillamook was in this city a short time Tuesday morning. He speaks very flatteringly of the future prospects for Tillamook county and for Tillamook City in particular. The water mains for that city will be composed of wood pipe, which Mr. Orchard proposes to manufacture himself. The water will be brought a distance of about four and one half miles, and the supply will be about 200 gallons per minute, while the city at present only requires a flow of 20 gallons per minute. A large reservoir will be built at the source of supply and the pressure will come direct from that point. Tillamook is a city of about 1100 inhabitants, and Mr. Orchard thinks it is on the eve of a healthy growth. The principal industry there is dairying, though the forest wealth is very great. Mr. Orchard went to Castle Rock from this place where his family reside. He came home from Tillamook by way of the ocean to Astoria, and describes his experience at sea as being anything but pleasant, at the same time stoutly maintaining that he did not "feed the fishes" on the voyage.

HIS SERVICES APPRECIATED.—The session of circuit court for Clackamas county, which closed last Saturday, is the first term in which District Attorney T. J. Cleston has acted in his official capacity. Mr. Cleston proved himself to be the able and conscientious attorney that his friends claimed he was when they were pushing his candidacy in the campaign of last June. He has been very careful and painstaking in his work before the grand jury, and with his knowledge of criminal law and evidence, very materially aided that body in sifting out the testimony brought before it, that no case without a just cause should be submitted to the court, thus saving many dollars to the tax-payers in needless expense in witness fees and in deputy sheriff fees in serving papers, besides not cumbering the court calendar with a lot of frivolous cases that would be thrown out for lack of evidence. In handling the state's cases before the circuit court he has proved himself to be the match of our ablest attorneys and his pleadings were characterized by a force and logic together with his evident sincerity of purpose, that won for him the respect of the court and the confidence of the jurymen as well as the good will of his fellow attorneys.—Oregon City Enterprise.

THE AIR SHIP AT LAST.—All California has been talking this past week about a mysterious airship which, it is alleged, has been seen at Sacramento, San Francisco, Oakland, Marin county, San Jose and elsewhere. Its first appearance was noted at Sacramento Tuesday night of last week, when it was seen hovering over the city, casting its searchlight about from an elevated position. No less than a score of reputable people assert that they saw it distinctly, and at least two men, supposed to be truthful, are able to describe its appearance. One heard its occupants coughing in chorus, and another heard its captain give directions to steer away from a church steeple. In spite of this specific testimony, most people believe the airship to be a hoax, though its existence is claimed to be a fact by a very creditable witness, namely, Mr. George B. Collins. According to Mr. Collins' story the inventor is an Eastern man of wealth, and his ship, which is about 150 feet long, was built in a retired forest place near Oroville. He is, he says, the attorney for the inventor, and he asserts positively that the ship sailed last week from Oroville to this city, passing over Sacramento, and that it has made nightly voyages in the region round about San Francisco since that time. It is now near Oakland carefully guarded and will soon be sailed in broad daylight over San Francisco, and will hover in sight of everybody over the most thickly populated part of the city.—Pacific Rural Press, San Francisco.

How to Prevent Croup.—Some reading that will prove interesting to young mothers. How to guard against the disease. Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by Dr. Edwin Ross.

Electric Bitters.—Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish, and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. Fifty cents and \$1 per bottle at Dr. E. Ross' drug store.
