### TIDDEN PLACES

Why a weasel should hate a rat is strange a he is only an elongated rat himself. Rats and mice love hidden places, and a reasel is about the only living thing that an find them out. Aches and pains are can find them out. Aches and pains are like rats and mice. They seek out the hidden places of the human system and maw and rayage the muscles and nerves. Bt. Jacobs Oil, like a weasel, knows how to go for them. It will penetrate to the secret recesses of the pain, and breaks up its hab-itation and drives it out. Rats and mice thum the corners where a weasel has been, and pains and aches once fairly driven out by St. Jacobs Oil are permanently cured and seldom come back to their old haunts. There must be patience with the treatment; tome chronic forms are stubborn and re-sist, but the great remedy will finally con-quer and give health and strength to the afflicted parts.

A fish with nine mouths was cap-tured in California recently, and ich-thyologists are in doubt what to name it.

# THE FAULTS AND FOLLIES OF THE

Are numerous, but of the latter none is more ridiculous than the promiscuous and random us of laxative pills and other drastic cathar-tics. These wrench, convulse and weaken both the stomach and howels. It Hostetter's flom-sch Bliters be used instead of these no-rem-edies, the result is accomplished without pain and with great benefit to the howels, the stomach and the liver. Use this remedy when constipation manifesis itself, and thereby pre-vent if from becoming chronie.

Salicylic acid, borie acid, borax and formaldebyde are some of the chemi-cals added to prevent milk from souring.

BOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very ight colored and of heavy body, is made from fuccose. "Free Garden Dripe" is made from upar Cane and is strictly pure. It is for sale of first-class groover, in cans only. Manufac-ured by the Pactric Coast Strate Co. All gen-ties "free Garden Drips" have the manufac-urer's name lithographed on every can.

Two bottles of Piso's Cure for Consumption cured me of a bad lung trouble. -- Mrs J. Nichols, Princeton, Ind., March 26, 1896

of cure.

the stamp of the world's ap-proval, and maintains its posi-tion for a fifth of a century, must necessarily possess pe

A London scientist has invented a mirror of celuloid which accurately re-flects every object. The celuloid mir-ror is unbreakable, and is choaper than glass and lighter.

The hissing sound produced by ser ponts is greatly exaggerated, as the quantity of air contained in a snake's lungs is too small to produce a loud sound when ejected.

In the opinion of Crispi, former prime minister of Italy, Americans are working to prepare a future for the peo-ple of the Old World which is not an agreeable one.

### Hunters in Kansas earn about day slaying jack rabbits. The skins are sold for three cents each to Eastern hatters, who use the hair in the manufacture of soft hats.

St. Louis, Mo., is the largest street-car manufacturing city in the world. The output last year was about 8,000 Cars.

## A Young Woman Gains 20 Pounds

Her Physicians in Iowa Said She Was Going Into a Decline, and That Her Lungs Wore Affected-

They Sent Her to Nevada. But to Fight Lung Troubles or Any

#### Wasting Disease, Build up Your Flesh.

From the Express, Los Angeles, Cal.

Two years ago, back in Eastern Iowa, Miss Maude Lease began to go into a deoline. She lost flesh rapidly. Her appetite failed. Fearful headaches nearly drove her frantic. She consulted local physicians—good, honest, practi-tioners. They told her that her lungs were affected; that medicine might alleviste, but a change of climate was the only remedy that offered a prospect

Ill and despondent she delayed as long as possible her departure, but at last it became imperative, and she came to an aunt at Verdi, Nevada, in the hope of finding health and strength in the pure air and among the pines of the Sierra Nevadas. But she con-tinued to fail, and to add to her miseries, learned to know the anguished sufferings which attend that complica-tion of ills, that for want of better nomenciature, has been denominated

And now comes the miraculous part of the story, just as she told it to the interviewer last night:

interviewer last night: "I ran down to 118 pounds," she said, "suffered tortures from those ter-rible headaches and from sleepleseneas. My aunt persuaded me to try Dr. Wil-liams' Pink Pills for Pale People. I had used nearly every kind of 'prescrip-tion,' could get no relief from them, and hoped for none from these pills. But to please auntie I began to take them. From the first day I noticed a beneficial effect. The headaches grew less severe: my appetite gradually re-

less severe; my appetite gradually re-turned. I could sleep nights and be-gan to get good and strong. "I used to take one of them three

times a day. In two months I weighed 138 pounds, and was entirely well, and have been well ever since. The win-ters at Verdi were very cold and, besides, I had heard so much about South-ern California that I came to Los

Angeles. "Dr. Williams' Pink Pills have helped me more than anything I have ever taken. I thank them for my health and ability to enjoy life. I am living at No. 800 Hope street, Los An-

# TARIFF BILL CHANGES.

General Remodeling by the Sonate

Washington, April 5 .- The Repubicans of the senate committee on inance are continuing their work day and night on the tariff bill with the intention of reporting it to the senate at the earliest possible day. They are not prepared to give out any results of not prepared to give out any results of their investigations and state that they have not reached any conclusions as to the proposed changes. There is, how-ever, a well-defined impression about the senate that the bill will be gener-ally remodeled and the rates considera-bly reduced in many schedules. There is a general belief among West-ern senators that there will be material changes in rates on wools, especially

changes in rates on wools, especially those of the third class. the trust.

those of the third class. Among other suggestions urged is a return to the Wilson law of 8 cents a pound duty on hops, instead of 15 cents, as proposed by the Dingley bill. It is claimed that the proposed increase will be an injury rather than a benefit to the producer, and a hardship to the consumer

There is much contention about the lumber schedule. The American lum-bermen interested in Canadian forests appear to be especially concerned over the Dingley rates.

The committee is not receiving any vorbal statements except from senators, but is giving close attention to type-written presentations of fact and arguent.

Secretary Gage Will Comply.

Secretary Gage will comply. Washington, April 5. — Secretary Gage today announced that he had de-cided to comply with the requirements of section 27, of the pending tariff bill, providing for the retention of samples in morted under orders of merchandise, imported under orders given subsequent to April 1, and which were not purchased and directed by the owner to be shipped for import into the United States prior to April 1. This action, however, will be taken un-der section 249 of the revised statutes, which authorizes the secretary to exercise a superintendency of the collection of customs duties.

Discussed by Americans in France London, April 5.-The Times will publish a dispatch from its Paris correondent, saying:

The Dingley tariff bill has cause considerable excitement among Ameri-can business houses here. The queetions growing out of it have been disconsect at a large meeting of the Ameri-can chamber of commerce, at which the American embassy was represented by Henry Wignaud, secretary of Am-bassador Enstis. The vice-president of the chamber said:

"America sends France 180,000,000 "America sends France 180,000,000 france' worth of goods duty free, as against 80,000,000 worth sent by France, duty free, to America. The chamber suggests that the United Sataes should reduce the tariff in some important French exports, the natural result of which would be that France would admit many American manufactures at reduced tariff. The advantage to

America under existing conditions by France admitting some articles at the minimum tariff is over 18,000,000 francs. The chamber hopes that Presi-dent McKinley's request for additional discretionary power may be granted, so that reciprocal commercial relations may be established in order to open new markets for manufactured American products."

SPAIN'S EASTERN WAR.

Madrid Authorities Declare the Philippine Revolt Ended.

Washington, April 5 .- The Spanish legation has received official dispatches from Madrid, under date of April 3, an-

# A FARMERS' TRUST.

Downing, Hopkins & Company's Beview An Alleged Plot to Control the Produce of Trade

WEEKLY MARKET LETTER

One could write yards of matter and Toledo, April 5 .- Farmers are trying Toledo, April 5.—Farmers are trying to form a trust. It is to spread all over the land, and if present plans carry, not a dollars' worth of farm proudee of any kind will be sold for general con-sumption. In a nutabell, the idea is for the farmers to limit crops to the actual living needs of the members of the trust. The organization is secret, pathbound, and its principles known just now to only a select few outside of these directly concerned in its develfill innumerable columns of space in attempting to describe the wheat marattempting to describe the wheat mar-ket and its variations this week, giving a reason for each and every movement. A well-known operator puts it correctly and tensely when he says "the market is suffering from too much news and too many statistics." There is all kinds of news in wheat, and statistics enough to supply everybody, but whether traders are any better for havjust now to only a select rew outside of those directly concerned in its devel-opment. According to the promoters, however, the country is practically in condition to be placed in the grip of this remarkable combine. Lancaster, Pa., was the birthplace of the trainer. It as light there averal ing so much information is a question. Figures themselves don't lie, but it is said liars can figure, and they evidently have been doing it in a manner that may be satisfactory to themselves but certainly not soul-filling enough for the public who are growing rather chary of It saw light there several

the trust. It saw light there several months ago, and was incorporated un-der the laws of New Jersey as the Agri-culturalists' National Protective Asso ciation. The supreme body is made up of one representative from each state, whose dutics are similar to those of the board of directors of an ordinary cor-poration. Each state has a subordinate statisticians and their methods. In speaking of figures, it must be confessed that they are unusually favor-able for higher prices, but they, like bad crop reports, are ignored. The visible supply for the week was cut 1,-407,000 bushels. The total is now 39,-407,000 bushels. The total is now 30. 023,000 bushels, compared with 61. 045,000 bushels last year; for the same week one year ago, a difference of 22, 000,000 bushels. The world's stock for board of directors, consisting of one re-presentative from each congressional district. Each district in turn is gov-000,000 bushels. The world's stock for the weak underwent a decrease of about 5,000,000 bushels. World's shipment for three weaks have been under 4,000,-000 bushels, while the supposed or esti-mated requirements of the importing countries is 7,250,000 bushels per weak. Wheat and flour on ocean passage de-creases steadily, and this weak was re-duced 1,500,000 bushels. If that is not a phalanx of figures to wararnt pur-chases of wheat, the buyer had better go out of the business. Sad to relate, however, statistics have little effect upon the market, and professional sel-lers go right ahead, never thinking that there is the bareat sort of possibility of a day of reckoning before the new crop is in the shock. erned by a board of two members from each county. Each county is under con-trol of a board of from five to eleven in number, who direct the movements of the township organizations. the township organizations. It is the purpose to do nothing this year in the way of controlling the mar-kets, because the organization is not complete. Next year, however, the crops will be limited to actual living eds of members. If the plan is carried out, not a dol-

If the plan is carried out, not a dol-lars' worth of farm product of any kind will be sold for general consumption, it being the purpose to compel the people to import all food products. It is be-lieved that by this method the power of the association can best make itself s in the shock. Corn has held its own, and there is

#### To Enable the Deaf to Hear.

To Enable the Deaf to Hear. New York, April 5.—It is an-nounced from Denver that Professor Dussand, of the university there, has invented an apparatus to enable the deaf to hear. A microphonograph he has just issued magnifies the human voice in the same way that a lens magnifies matter. It is simply a telephone connected electrically with a phono graph, but a far more sensitive phono

graph than Edison's ordinary model. A battery of from one cell to sixty, ac-cording to the degree of deafness, is

Of course the apparatus is useless in the case of absolute deafness, but such infirmity is far rarer than is supposed. Ninety-five per cent of stone-deat per-

sons can be made to hear and under-stand by Dussand's invention. You speak into the phonograph and make it repeat the words which are transmitted by a sort of microphone and speaking tube into the deaf ear. Professor Dus-sand is preparing for the 1900 exhibition an apparatus which will enable 10,000 people who may all be deaf to follow the lecture.

#### Butler Tried Suleide

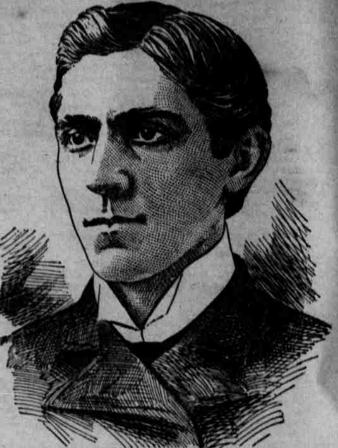

Butler Tried Suicide. San Francisco, April 5.—Murderer Butler has made his anticipated at-tempt at suicide. Despite the presence in his cell day and night of guards sup-posed to be watchful, the fiend of the Blue mountains almost succeeded in cheating the gallows today. Early this morning Butler was observed to be un-usually quiet. Investigation showed that his blanket was tight-drawn over his head, and when that was removed his head, and when that was removed his face was found to be covered with blood. Butler has allowed his thumb

You have exceeded the limit allowed by nature in the enjoyment of worldly pleas-tree. You have at some time overlaxed your nervons system, and there is a weak-ness lurking there, ready to break forth in all its pittable, desirucity effects upon you. Do not disregard these little symptoms, which you teel from day to day; they are messages telling of the suffering of your nerves, and warning you that's break down is near. It may come tomorrow, and then it will be too late to mend. Mendow. What energy is left you, put forth and wave yourself. Call on or write o Dr. Sanden and study his plan. Study how so many unfortunates have been saved, bon't wait; set today. It is of vital im-portance to you.

Portance to you. Have you read or heard of the wonderful cures which are being accomplianed by

Dr. Sanden's Electric Belt

There is not a hamlet on the Pacific coast but has one or more who owe their happiness to it. This is the record of five years of good work.

Bett has proved entirely satisfactory; my appetite is great, digestion good, memory improving, muscles hard and strong, bowels is good order, sexual strength improving, great increase of confidence. Can do more work with greater case than I ever have done before."-R. B. DOUGLAS, Stamwood, Wash., March 11, 1897.

What a record this paper could show if people cured of such troubles would allow their names to be used! Every day some grateful, restored man gives thanks to Dr. Sanden's Electric Belt. So will you if you try it. Send for the book, "Three Classes of Men," free, sealed closely, by mail. Call or address

SANDEN ELECTRIC BELT CO., 258 West Washington St., Portland, Or. When writing to Advertiser please mention this paper.
