EASTER SERVICES .- Easter services EASTER SERVICES.—Easter services were conducted in both churches here last Sunday. The Congregational services were held a half hour earlier than usual in order te give those who wished an opportunity to attend the Episcopal services, which were held a half hour later than the usual time. At the latter place a chorus of 23 veices from St. Stephens' chapel, Portland, furnished the music, which was greatly enjoyed by those present. Both churches were beautifully decorated for the occasion. for the occasion.

Business Meeting. - A business meeting of the Congregational church society was held at Houlton Wednesday evening at which time four delegates were elected to attend the annual convention at Astoria, which will be held on the 28th and 29th. The delegates elected were Mrs. T. C. Phil-brook, of Houlton, Mrs. Alma Lemont, Miss Frankie Way and Mr. S. S. Way, of St. Helens, Mrs. M. C. Gray and Mrs. Little were selected to look after raising, the pastor's salary. It was decided to proceed with the building of the new church in this city at

Good PROSPECTS .- The weather in Good Prespects.—The weather indications are that spring is fairly on; farming has begun in many parts of the country says the Wallows Chieftain. While the hay was about all cleaned up, and many had to resort to straw stacks to keep their stock alive, the loss has been light, and cattle and sheep came through in good condition. There is yet considerable grain on hand, and the mills are full of flour, which will be hauled out as soon as the ready are passable. A larger acre-age will be sown this spring and all indications are favorable for a prosper-ous season in this county.

APPROTE COLONEL EDDY .- The so tion of Secretary of State Kincaid in refusing to file the bills of the railroad refusing to file the bills of the railroad commission for salaries has raised the ire of Colonel J. B. Eddy, one of the commission, and also editor of the Roseburg Plaindealer, and causes the colonel to remark that "Harrison R. Kincaid is secretary of state; that is all he is. He seems to think he is the whole state government, supreme court and legislature, included, but he isn't. He refuses to recognize certain of the state officers while he does others, elected at the same time and in pre-cisely the same way, he says the people do not want them."

A CHANCE MEETING -- On Tuesday evening, at the supper table, in Tur-pin's hotel, R. H. Mitchell of Vernonia and S. D. Dennis, the lawyer recently located here, were seated side by side After a few moments conversation, the tact that both hailed from Kausas led Mitchell to inquire as to Dennis' rela-tives there, which revealed the fact the Mr. Dennis is a brother of S. S. Dennis father of Mr. Mitchell's first wife. The two gentlemen had never met before, although they had chased same towns. Mr. Dennis came west and located in Vancouvertwelve years ago, and four years later Mr. Mitchell located in Hillsboro, this state.

AND IT TERMINATED THUS .- Justice Clark's court Wednesday, in this city, was the scene of quite a sensational suit, wherein one Geo. W. Kelley was plaintiff and his wile defendant, charged with adultery. Considerable preparation had been made for the trial, which is an excellent comedy. and witnesses, the full number by law allowed, were on hand. It didn't take long, however, to try the affair, as it appeared that there was but one proecuting witness. Kelley himself, so the examination of the prosecuting witter a brief session the wife was discharged with a statement from her attorney that the witnesses were on hand to prove a clear case for the woman and a very "bad case" for the plaintiff. The costs were taxed to the plaintiff.

TIME TO WORK THE ROADS .- "This to look after their farming interests while the ground is in order. Here is the trouble with our present system of road working. If road taxes were paid in cash the supervisor could have a force of men on the roads at work, at a time when something of profit to the roads could be accomplished." Thus saith the Neberg Graphic, and it is emsaith the Neberg Graphic, and it is eminently correct. By the time farmers get their spring work done the ground is so dry that where it is worked it fails to pack, and hence the mud the next winter. The general verdict among men who have observed, is that road work should be done early in the spring, in order to pack well.

Governor Lord is reported as having said that when he is advised that any county treasurer is using the tax money that should go to the state for any purpose other than the pryment of the state tax, he will see that the law is enforced and the treasurers compelled to do their duty under it.

PLACED IN POSITION.—Some time since THE MIST mentioned the fact that the county had purchased two sections of steel paper files to be set in the large vault used for keeping papers in. These useful cases have been in. These useful cases have been placed in position, and the work of going over and sorting out all papers such as probate and circuit court docments has been completed, and the files are in actual use by the clerks. This addition of convenience and safety in the clerk's office was a precaution which should have been taken long ago, for it insures not only the correct keeping of papers on file, but is an absolute defense against fire. The genial clerks will willingly explain the modus operaudi of the contrivance if you will call on them.
