NORTHWEST BREVITIES A PLEA FOR MERCY. BREAK IN THROUGH A TRESTLE. THE PORTE'S ANSWER TO SECRETARY BLISS. TRIED NEWS OF THE WEEK Theodore Durrant Makes His Appeal t Rermann Urges Suspension of Proceed ings Against Sheepowners. Bacramento, May 17.—An appeal to Governor Budd. Bacramento, May 17.—An appeal for the life of Theodore Durrant, the con-demned murderer of Blanche Lamont, was today heard in the court of last resort. Governor Budd sat in final judgment in the case, and Eugene Deuprey, storney for Durrant, argued eloquently for the life of his client. The governor listened to the argument in silence, and only once did he show any sign of being impressed. That was when Attorney Deuprey asked him to compare certain writing of Rev. Dr. Gibson with the writing on the pack-age sent by the murderer to the mother of his victim. The governor scrutin-ized the writing closely, and asked to be given the originals for comparison. Durrant's attorney had come pre-pared to spring a sensation in the case by producing a document, purporting to be a confession of a San Quentin convict named John Rosenburg, that he was the murderer of Blanche La-mont, and Durrant had nothing to do ecident to a Santa Pe Train Near Ard Evidence of Steady Growth Ardmore, I. Fifteen persons, pas-sengers and trainmen, were injured. Several of these are seriously hurt, and it is believed that two will die. The accident occurred near the town of Marletta. NO MORE SUGAR-BEET SEED.

Government Has Distributed Ten Thous and Pounds Among Farmers.

Washington, May 18 .- The sugar beet seed which the agricultural depart-ment has been distributing is practically exhausted, about 10,000 pounds having been sent out to farmers in about four-fifths of the states. The seed has been distributed in packages of an ounce to half a pound, purely for experimental purposes. The beets grown from the seed will be analyzed and the saccharine matter determined to ascertain where beets can be profitably grown for the production of sugar

The demand for annexation of Thes-saly is based upon the fact that the province was originally ceded to Greece on the advice of the powers, with the object of ending brigandage and Greek incursions into Ottoman territory, the porte believing at that time the cession would attain these objects; but the re-cent incursions of Greek bands and the events immediately preceding the war have proved to the contrary. This is the substance of the reply. The ambassadors met today to con-sider the porte's answer, which is re-

garded as raising an extremely grave issue. It is believed that representations will be made to the sultan personally to induce a modification of these terms, but it is foreseen that this will be very difficult, owing to the at-titude of the powerful old Turk war

party. If the porte should prove obdurate, a European conference is not improba-ble, although at present Russia is op-

posed to this. It is regarded as quite certain that It is regarded as quite certain that the powers will not consent to a retro-cession of Thessaly. Even Germany is believed to be resolute on this point, because it would involve a violation of the Berlin treaty and imperil the peace of the Balkans. Altogether, the reply of the porte has

caused the greatest surprise. It ap-pears that during the discussion of the note from the powers by the council of the sultan's ministers, news reached the council that 3,000 Greeks had been landed at Palona and were marching to Janina with the intention of co-operat ing with other forces from Arta. Thi created a bad impression among the ministers.
