

THE FARM AND HOME

MATTERS OF INTEREST TO FARMER AND HOUSEWIFE.

There Is Too Much Waste of Lands and Crops - Proper Way to Water Horses - Help for the Thrashing Season - Have Harness that Fit.

Too Large Farms. Our farms are too large. They are not tilled thoroughly enough.

Watering Horses. In no other way do farm horses suffer so much as from being inadequately watered.

Eating Peaches. It is somewhat fortunate that the woolly coating on the skin of the peach is so objectionable to most people that they remove it before beginning to eat the fruit.

Make the Calves Gentle. Much of the value of a cow depends on her being gentle. There is no way to make sure of this except by accustoming the heifer calf from the first to be handled and petted so that she will never fear man's presence as threatening injury.

Help for Thrashing. When thrashing is done by steam power, it is the constant effort of those who run these threshers to have the work of thrashing in each neighborhood hurried through in as short a season as possible.

Rye as Hog Feed. On light, sandy soil corn is a very uncertain crop, and many seasons it will not yield so much grain as a crop of rye which usually succeeds well there.

Farm Notes. A flock of turkeys will clean out the large green tomatos or tobacco worms in short order. In the large tobacco fields of the South the turkeys are given full liberty and perform valuable service.

Burning a Clover Field. I am decidedly in favor of burning over my fields once in three or four years, writes Waldo F. Brown, in National Stockman, as by so doing we kill myriads of insects as well as the spores of fungi, and there can usually be enough stubble left on a Mammoth clover field to do this.

Straw may be added to the barnyard manure because it is plentiful, but it is better to utilize the straw in some manner before it reaches the heap. It should be cut with a feed cutter and used for bedding before throwing it away, in which condition it is an excellent absorbent and more quickly decomposes in the heap.

Verdict Was Guilty. Marshfield, Oct. 11.—The jury in the case of the State of Oregon vs. J. N. Russell, after being out 14 hours, brought in a verdict of murder in the second degree.

Conselheiro Was Killed. London, Oct. 11.—The Brazilian legation here has received a telegram from the government at Rio de Janeiro stating that Canudo, headquarters of the religious fanatics led by Antonio Conselheiro, was captured after a campaign in which over 3,000 Brazilian officers and soldiers were killed, wounded or invalided. The dispatch adds that Conselheiro is dead.

And in my judgment they will reach the same conclusions that I have, that under some conditions burning is an advantage.

Painting Farm Machinery. The wooden parts of all farm machinery should be painted every three or four years and the iron parts that are worn should have a coat of paint every season, and the sooner after the season's work is over the better.

Get five or six gallons of raw lused oil, a gallon or two of white lead, a small box of Russian blue, a small box of chrome yellow in paste form and ten to fifteen pounds of venetian red in powder. For the wooden parts there is nothing better than venetian red and raw lused oil. The mixture will make a dark red. If a bright red is preferred mix some chrome yellow with it in the proportion of fifteen parts of venetian red to one part of yellow.

Do not use white lead to paint metal surfaces of any kind, for the acetic acid it contains will tend to corrode them. For all this kind of work use venetian red and oil or get some of the common black paint sold especially for this purpose.

It is somewhat fortunate that the woolly coating on the skin of the peach is so objectionable to most people that they remove it before beginning to eat the fruit. It is almost always the receptacle of germs, which, if taken into the stomach under certain conditions, are extremely injurious.

Much of the value of a cow depends on her being gentle. There is no way to make sure of this except by accustoming the heifer calf from the first to be handled and petted so that she will never fear man's presence as threatening injury.

On light, sandy soil corn is a very uncertain crop, and many seasons it will not yield so much grain as a crop of rye which usually succeeds well there. We have known some farmers on sandy land to grow rye to feed their hogs. It is excellent for growing pigs, but when fattening time comes some corn should be fed, even though it has to be purchased.

A flock of turkeys will clean out the large green tomatos or tobacco worms in short order. In the large tobacco fields of the South the turkeys are given full liberty and perform valuable service. Nature evidently intended that the pig should eat little at a time and often, and its stomach was fashioned accordingly.

Straw may be added to the barnyard manure because it is plentiful, but it is better to utilize the straw in some manner before it reaches the heap. It should be cut with a feed cutter and used for bedding before throwing it away, in which condition it is an excellent absorbent and more quickly decomposes in the heap.

The jury in the case of the State of Oregon vs. J. N. Russell, after being out 14 hours, brought in a verdict of murder in the second degree.

The Brazilian legation here has received a telegram from the government at Rio de Janeiro stating that Canudo, headquarters of the religious fanatics led by Antonio Conselheiro, was captured after a campaign in which over 3,000 Brazilian officers and soldiers were killed, wounded or invalided.

A weak solution of salt in water is a good remedy for slight indigestion, especially that characterized by a sense of weight and oppression.

SENORITA CISNEROS' ESCAPE.

Havana, Oct. 11.—The escape of Senorita Evangelina Casio, otherwise Senorita Cisneros, has caused quite a sensation in Havana. Investigations made by the authorities have developed a number of additional facts. It is now asserted that the young woman escaped between 11 o'clock and midnight, Wednesday, over the roof of a neighboring house, and through it to the street, where the police found a ladder.

Some of the details of the young Cuban's escape are quite romantic. The companions of the young woman say that the day before Senorita Casio escaped, she received a package believed to contain drugged candies. Contrary to her usual custom, she did not at once distribute the candies to her prison companions, but waited until Wednesday night, when she urged them to partake of the confections.

Madama Ana Milan de Bondon, who has been in charge of the hall at the Casa de Recogidas, where Senorita Evangelina Casio was confined, and in whose house in San Rafael street the police several months ago found trunks containing dynamite and cartridges, is one of the four employees who, with the jailer, have been arrested, and held, pending the inquiry being made into the circumstances of the escape of Senorita Casio.

THE TROUBLE IN GUATEMALA.

Barrios Overcame the Rebels by Superior Force.

San Francisco, Oct. 11.—The steamer City of Para arrived today from Central American ports, bringing the latest news of the revolution in Guatemala prior to the receipt of the dispatches concerning the capture of Quezaltenango by the government forces.

Shortly before the City of Para left San Jose de Guatemala, 10 days ago, a conference of the Americans, English and French consuls was held, as the result of which they waited upon President Barrios, and asked for information as to the use which he proposed to make of the steamer City of Panama, informing him that it was currently rumored that he intended to leave the country.

On September 29, Morales issued a proclamation throughout the city of Guatemala, offering to allow Barrios to escape, in the hope of avoiding further bloodshed, but the City of Para sailed before Barrios' answer was made public.

Consul-General Carrillo today received a dispatch to the effect that the revolution was at an end, and that Barrios was again in complete control of the situation, which was confirmed later on by private cables to prominent business men who have large interests in Guatemala.

The evacuation of Quezaltenango. New York, Oct. 11.—A dispatch to the Herald from Guatemala says: The news of the evacuation of Quezaltenango by the rebels and its reconquest by the government forces is fully confirmed. The consular corps there has sent the following message to President Barrios:

The city of Quezaltenango has been abandoned by the rebels, and we have notified General Garcia Leon. The city has been for some time without proper authorities and all desiring the re-establishment of order and peace respectfully beg you to give the necessary orders to that effect. Confiding in your well-known rectitude, Mr. President, we trust the occupation of Quezaltenango will bring peace for which Quezaltenango prays and is grateful.

The United States cruiser Alert has arrived at San Jose, where she is now anchored.

Objectionable Order Rescinded. Seattle, Oct. 11.—A telegram was received here today from the United States treasury department, stating that Secretary Gage had rescinded the recent order reducing the pay of seamen on the revenue cutters from \$28 to \$25 per month. It is now expected that the sailors on the cutters Grant and Perry, who quit the service here will re-enlist.

Eighty Horses Burned. Kansas City, Mo., Oct. 11.—At 2:30 this morning the barn of the Kansas City Transfer Company was almost totally destroyed by fire. The loss is about \$300,000, partially insured. Eighty horses were consumed. A section of the roof fell, carrying down eight firemen. None was fatally hurt.

Verdict Was Guilty. Marshfield, Oct. 11.—The jury in the case of the State of Oregon vs. J. N. Russell, after being out 14 hours, brought in a verdict of murder in the second degree.

Russell was on trial for killing his son-in-law in November last. He was given a trial at the May term of the circuit court, but the jury failed to agree. His defense was insanity.

Pennies had just appeared in circulation in Hawaii. London, Oct. 11.—The Brazilian legation here has received a telegram from the government at Rio de Janeiro stating that Canudo, headquarters of the religious fanatics led by Antonio Conselheiro, was captured after a campaign in which over 3,000 Brazilian officers and soldiers were killed, wounded or invalided.

A weak solution of salt in water is a good remedy for slight indigestion, especially that characterized by a sense of weight and oppression.

JIM AND JOHN.

Jim and John were townsmen and chums, and went out to see base ball. It was a red hot afternoon, and the bleachers were like frying pans at breakfast time. Jim had a bald head and John had a crick in the back. They sat for an underdone roast and laughed at everything. Jim's bald spot was a shining mark, like a brass door plate. A stray ball, fierce and sharp, from a false bat, struck the spot and ploughed a furrow. It dazed him. Jim's eyes and face looked like a sick owl's, and John laughed. He laughed an hour straight along. The game ran late into twilight. Meanwhile John had shed his coat, and a cool damp draft got in its work on his back. The time came to leave, but John couldn't. He couldn't bend or get up. Lumbago had set in, in its worst form. He laughs best who laughs last, and Jim had revenge. But they got down town to Jim's room, when he said, "Here's something all those athletes use for hurts and ailments, and it's the best known cure for lame back." He rubbed it on John's back and some on his own head. They were both feeling cured and comfortable from the use of S. S. Jacobs Oil, which Jim always kept in a handy place. He was a sport himself and knew what was best. They went to bed. John laughed in his sleep. Both Jim in the morning fresh as daisies; then John laughed at John.

Nebraska's New Ballot Law. The new ballot law of Nebraska, passed last winter by the legislature, is causing some confusion, as it revolutionizes the manner of arranging the ballots. The tickets will be printed in separate columns, with a pictorial device at the head, and not a single column, with the names of the candidates arranged alphabetically, as heretofore. The choice of judges and clerks of election is also vested in the county judges. The changes are so radical as to create a fear of trouble at the November election.

Mob Drill in the Navy. The men of the United States navy are to be taught how to handle mobs. Whether this decision has been brought about by the frequent eruptions among the labor element in the last few years or just on general principles, the naval authorities refuse to say. Certain it is that the drills are to be generally introduced, and the results are expected to be highly beneficial to good order.

Greater New York's Police. Greater New York will have a good-sized army of peace preservers. The uniformed force will be increased to about 10,000 men, and they will all be clad in blue, with plenty of brass buttons and gold lace. The police sergeants and matrons will have to don the blue.

Paper Insulated Cables. A new invention is one to insulate telegraph cable wires with paper. The interior cable is lead covered, and thin spirals of paper are wound around each interior wire. The cost is said to be one-fifteenth of rubber insulated cable.

ITEMS OF INTEREST.

The one thing for which lace paper may be used and be considered good form on a table is for cheese.

Marriage at midnight, the ceremony being performed by a coroner, is the last Kansan eccentricity reported.

The tea plant is said by Chinese writers to have been cultivated in that country from at least 3,000 B. C.

The gossamer iron made at Swansea, Wales, is so thin that 4,800 plates are needed to make an inch of thickness.

There are in the United States 70,000 bee keepers. The average product of each hive is twenty-two pounds.

There are in France 1,302,400 unmarried women between the ages of 25 and 50, and 1,370,600 unmarried men aged over 50.

The difference between a planet and a star is this: A star shines by its own light; a planet by light reflected from another body.

Near Alford, Iowa, a can of stamps which were stolen from the postoffice at Lester, in that state, two years ago, was plowed up recently.

The speculative astronomers are now arguing that the moon is in the shape of a plumb bob, and that the large end is always towards the earth.

The nephews and nieces of the English sovereign are entitled to wear strawberry leaves in their crowns instead of the fleurs-de-lis appropriated to the use of princes and princesses.

Evidence of the complexity of cathode rays is found by M. H. Deslandres in the fact that when a ray is turned aside by a neighboring body it is divided into several unequally deviated rays.

Anthropologists have ascertained that the Andaman islanders, the smallest race of people in the world, average less than four feet in height, while few of them weigh more than seventy-six pounds.

Lion tamers, as a rule, prefer lions to lionesses, and dislike a troop of both sexes mixed. In such cases the danger of entering the den is quadrupled, and mischief is pretty sure to result sooner or later.

What Neglect Leads To.

Mrs. Chas. King's Experience.

A woman's body is the repository of the most delicate mechanism, and yet most women will let it get out of order just as if it were of no consequence.

Lydia E. Pinkham's Vegetable Compound will relieve all this trouble. Mrs. Chas. King, 1815 Rosewood St., Philadelphia, Pa., says: "I had bearing-down feelings, backache, burning sensation in my stomach, chills, headache, and always had black specks before my eyes. I sometimes had four or five fainting spells a day. I had several doctors, and tried many patent medicines. I commenced to take Lydia E. Pinkham's Vegetable Compound, and I never had anything give me the relief that it has. I can truthfully say it has cured me."

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

We have had something of a slump in wheat since we wrote you last, due to several causes, chief among which being the yellow fever scare, a decided slackening of speculation, and increased receipts from both winter and spring wheat sections. News, however, could not in any manner be construed as bearish, and had not the bulls taken fright so easily and dumped their holdings on a narrow market, we should have seen an advance instead of a decline. Foreigners have been good buyers again on the decline, and could our people get rid of the idea that wheat is high, and inaugurate a buying movement, we should see a sharp and rapid advance. Exports have been large, amounting to 5,623,000 bushels for the week. The world's shipments amounted to 9,000,000 bushels, while our visible supply increased 2,408,000 bushels. The English visible also increased 124,000 for the week. Our visible supply is now 19,000,000 bushels, against nearly 20,000,000 a year ago, while our exports are nearly 2,000,000 bushels a month. Take these facts into consideration, and note also that France will have to import at least 80,000,000 bushels, Russia's exportable surplus on the present crop is estimated at only 60,000,000 bushels, or less than half of last year.

We have had a rather featureless market in corn, and values have ruled rather dull and lifeless within a narrow range of price. Receipts of corn are large, with a good demand. Exports continue to be heavy, the clearances for the past week aggregating 5,623,000 bushels, the low price proving to be quite attractive to foreign importers. The visible increased 1,860,000 bushels for the week. Provisions have not escaped the general dullness that has prevailed and the market is very quiet, but has a firm undertone that needs only a fair buying movement to develop into a bull market. Receipts of hogs are somewhat larger than estimated and of good quality. There is a good demand from abroad for cured meats and lard, and this will probably increase heavily as soon as cold weather sets in.

Portland Markets. Wheat—Walla Walla, 75c; Valley and Bluestem, 77c@78c per bushel. Flour—Best grades, \$4.50; Graham, \$3.70; superfine, \$2.50 per barrel. Hops—13@15c per pound for new crop; 1896 crop, 6@7c. Wool—Valley, 14@15c per pound; Eastern Oregon, 10@12c; mohair, 20c per pound. Mutton—Gross, best sheep, wethers and ewes, 2 1/2@2 3/4c; dressed mutton, 5c; spring lambs, 5 1/2c per pound. Hogs—Gross, choice heavy, \$4.50; light and footers, \$3@4; dressed, \$5@5.50 per 100 pounds. Beef—Gross, top steers, \$2.75@3; cows \$2.25; dressed beef, 4@5 1/2c per pound. Veal—Large, 4 1/2@5c; small, 5 1/2@6c per pound.

Seattle Markets. Butter—Fancy native creamery, brick, 24@25c; ranch, 14@16c. Cheese—Native Washington, 10@11c; California, 9c. Eggs—Fresh ranch, 22c. Poultry—Chickens, live, per pound, hens, 10c; spring chickens, \$2.50 @3; ducks, \$3.50@3.75. Wheat—Feed wheat, \$28@29 per ton. Oats—Choice, per ton, \$22. Corn—Whole, \$23; cracked, per ton, \$23; feed meal, \$23 per ton. Barley—Rolled or ground, per ton, \$22; whole, \$22. Fresh Meats—Choice dressed beef, steers, 6c; cows, 5 1/2c; mutton sheep, 5@5 1/2c; pork, 7c; veal, small, 5c. Fresh Fish—Halibut, 5c; salmon, 3 1/2c; salmon trout, 7@10c; flounders and sole, 5@4c; ling cod, 4@5c; rock cod, 5c; smelt, 2 1/2@4c.

San Francisco Markets. Wool—Choice foothill, 8@12c; San Joaquin, 6 months' 5@7c; do year's staple, 7@9c; mountain, 10@12c; Oregon, 12@14c per pound. Millstuffs—Middlings, \$19.50@20; California bran, \$14@15 per ton. Onions—New, red, 70@80c; do new silverskin, 85c@91c per cental. Potatoes—New, in boxes, \$8@8.50. Butter—Fancy creamery, 27@28c; do seconds, 25@26c; fancy dairy, 23@24c; good to choice, 20@22c per pound. Eggs—Store, 20@20c; ranch, 22@24c; Eastern, 18@25c; duck, 20c per dozen. Citrus fruit—Oranges, Valencia, \$1.50@1.80; Mexican limes, \$4.50@5c; California lemons, fancy, \$2.50; do common, \$1.20 per box. Hay—Wheat, \$12@15; wheat and oat, \$11@14; oat, \$10@12; river barley, \$7@8; best barley, \$10@12; alfalfa, \$8@9.50 clover, \$8@10. Fresh fruit—Apples, 65@70c per large box; apricots, 20@40c; Fontainebleau grapes, 15@25c; muscats, 20@35c; black, 20@30c; peaches, 20@30c; peaches, 85@90c; tary, 85c@91c per box; plums, 20@40c; crab apples, 20@35c.

The hospitals of the Metropolitan asylum in London have 3,000 beds set apart for scarlet fever and only 700 for diphtheria. In every mile of railway there are seven feet and four inches that are not covered by the rails—the place left between them for expansion.

Artesian Water in Sahara.

One of the most important results of the Egyptian expedition up the Nile has been the discovery that by sinking deep wells water may be found in its abundance and not been suspected. Not only will this give a secure basis for military operations, but it is possible that water may be found in sufficient quantities to serve for irrigation, in which case the Sahara may be turned into a flower garden. Its aridity comes from no material sterility of the soil, but simply from lack of moisture.

ALMOST INSIDE OUT.

The stomach that is not turned thus by a shaking up on the "briny waves" must be well fortified with the gastric apparatus can be rendered proof against sickness with that stomachic so popular among travelers by sea and land—Fletcher's Stomach Bitters. It defends the system against malaria and rheumatism, and cures indigestion, constipation and dyspepsia.

To make white soap use veal for stock, and beef for brown stock; for color amber soap use a little burnt sugar, just enough to make the desired amber shade.

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word, "CASTORIA," and "FITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Fitcher, of Hyannis, Massachusetts, was the originator of "FITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of CHAS. H. FITCHER on every wrapper. This is the ORIGINAL "FITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FITCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fitcher is President. March 4, 1897. SAMUEL FITCHER, M.D.

Persons who suffer from the cold should wear loose clothing in chilly weather, remembering that two thin garments retain more heat than one thick one.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials to all addresses. J. C. HENRY, & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

If you should spill grease on your floor cover it at once with corn meal or try baking soda. Moisten the soda and rub it on the grease spots with a cloth.

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "The Golden Syrup" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by the Pacific Coast Syrup Co., 215 Broadway, New York City. Write for literature "The Golden Syrup" have the manufacturer's name lithographed on every can.

For binding of out and wounds always use linen, not cotton, as the fibres of cotton are flat and apt to irritate a sore place, while those of linen are perfectly rounded.

Pilo's Cure for Consumption has been a family medicine with us since 1863.—J. R. Madison, 2406 43d Ave., Chicago, Ill.

If the glass stopper becomes fastened in the neck of your bottles try placing the neck of the bottle in hot water for a few minutes. This will generally loosen the stopper.

Try Schilling's Best tea and baking powder. There is nothing so repulsive as underdone game. Be sure it is well done in the cooking.

BUY YOUR FUR GARMENTS. Direct from the manufacturer and save middleman's profit, as we outdo them all. Our garments are custom made and not like those thrown together in New York sweat-shops, where dirt and disease reign. Our garments are guaranteed to last in fit and style. Our prices on fur traps range from \$8 upwards; on Fur Collarlets, from \$3 upwards; Neck Boxes, from \$1.50 upwards. Write for information and catalogue. S. Silverfield, Leading Fur Manufacturer, 143 Third St., Portland, Or.

POWER...FOR... PROFIT. Power that will save you money and make you money. Hercules Engines are the cheapest power known. Burn Gasoline or Distillate Oil; no smoke, fire, or dirt. For pumping, running dairy or farm machinery, they have no equal. Automatic in action, perfectly safe and reliable. Send for illustrated catalog.

Hercules Gas Engine Works. Bay St., San Francisco, Cal. Hercules Special (3/4 actual horsepower) Price, only \$155.

"Complete Manhood" and How to Attain It. A Wonderful New Medical Book, written for Men Only. Only copy may be had free, sealed, in plain envelope, on application. ERIE MEDICAL CO., 69 NAGLE ST., BUFFALO, N. Y.

BASE BALL GOODS Special Rates TO CLUBS. We carry the most complete line of gymnastic and athletic goods in the West. SUITS AND UNIFORMS MADE TO ORDER. Send for our Athletic Catalogue. WILL & FINCK CO., 818-820 Market St., San Francisco, Cal.

CHILDREN TREETING. Do you want to see your children healthy and happy? Use the best medicine for children. Twenty-five cents a bottle. It is the best medicine for children. N. P. N. E. No. 45, '97. When writing to advertisers, please mention this paper.

\$2000.00. Schilling's Best tea is the best you can get for anything like the money it costs. Schilling's Best baking powder is the best you can get at any price. A Schilling & Company San Francisco.

Take for a nervous headache a cup of moderately strong tea with two or three slices of lemon, infused.
