

OREGON MIST, FRIDAY, JANUARY 28.

Ray, Mr. Powell did not conduct services here last Wednesday, but will be on hand next Wednesday evening.

If you can say a good word for your town, say it like a prince. If you are full of bile and disposed to say something mean, keep your mouth shut.

La Grande will have her best sugar factory, and it will be finished in time to handle next year's crop. Three thousand five hundred acres of Grande Ronde soil will be planted in beets.

The Oregon, sailing last Sunday night for Skagway, carried several Columbia county people who go to Alaska to seek their fortunes. Many others from this and the surrounding vicinities are soon to go.

Mr. and Mrs. C. S. Emerson, Mr. and Mrs. Jas. Muckle and daughter, Mrs. C. H. Johns and son, Mrs. J. H. Urie and daughter, Mrs. Proper, R. Cox, I. G. Wikstrom, S. A. Miles, Geo. Case, Capt. Jas. Cox, and Al Robinson were passengers from this place for Portland Monday.

One hears no complaint from farmers these times. They are contented and cheerful and hopeful. They say we are having ideal grain weather, and think the prospects look brighter than a year ago. With 50-cent wheat and a good crop, 1898 will be even a better year in this county than 1897 has been.—Fendleton Tribune.

In all probability C. J. Curtis, of the Astoria Herald, knew what he was about when he wrote the following: "What the band played.—When William Jennings Bryan landed in the City of Mexico the band played: 'Un Tiempo Callejero En El Pueblo Viejo Todas Las Dias.' Translated into plain, everyday English that means this: 'There'll be hot time in the old town tonight!'"

Commencing the first of next month a steamer will leave for Alaska every five days. The Elder, which sailed last Saturday, was compelled to reject a large amount of freight. The probabilities are that every steamer will be crowded during the next six months. Steamers leave Seattle every day and are unable to accommodate the passengers who desire to go. Over 400 people have left Astoria already, and about 300 more will go during the next 30 days.

The senatorial contest in Maryland ended on Tuesday by the legislature of that state electing Judge Lewis E. McComas to the United States senate. He was elected on the first ballot of the day, it being the tenth ballot, however. Mr. McComas succeeds a democrat, A. P. Gorman, who has served the people of Maryland long enough. One by one the solid democratic states are joining company with the republicans, making, in all, we believe, fourteen republican senators from heretofore democratic states.

A goat ate up the entire fowls of Ottawa county, Mich., the other day. The treasurer kept the county money in greenbacks in a kettle under his house, and a goat got into the combination and was only detected when he was endeavoring to masticate the kettle.—Exchange. What fools these mortals be! Why don't the taxpayers of that county petition the government to declare that goat legal tender for the amount swallowed. Lane county fanatics would never be caught napping in such a dilemma.—Register.

The progressive ladies of Westfield, Ind., issued a "Woman's Edition" of the Westfield News, bearing date of April 3, 1896. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it. Twenty-five and fifty cent bottles for sale by Dr. Edwin Ross.

Monday witnessed the advent of the railroad into Rainier, the work of tracklaying being completed as far as the depot, from the Goble end, and perhaps by this time the railroad at Rainier is an old and established thing. The bell of the locomotive drawing the construction train rang out peal after peal of warning and heralded the news from one end of the town to the other that the real was to be realized. Work from the Astoria end is to be pushed, and it is expected the two crews will meet somewhere in the vicinity of Mayger.

The year 1898 began on Saturday, and will end on Saturday. Lincoln's birthday will fall on Saturday, and Washington's birthday on Tuesday, Decoration day and Fourth of July on Monday, and Christmas on Sunday. First Sunday in Lent, February 27; Palm Sunday, April 3; Easter Sunday, April 10. The Jewish year, 5659, will begin at sunset of Friday, September 16. On July 4, the 123rd year of American independence will begin. The four seasons will begin on these days: 1898: Spring, March 20; summer, June 21; autumn, September 22; winter, December 21.

In another column will be found an article on the construction and probable cost of a silo. This subject is receiving no little consideration by farmers in different parts of Columbia county, especially in this case at Scappoose. Many silos are already in existence there, and their owners are highly pleased at the results obtained. Time is not far distant when a silo will be one of the necessary acquisitions to every well-managed farm in this county. The fact has been demonstrated that a large number of dairy cattle can be kept better and far cheaper by the use of ensilage than any other feed that is used. The cost of construction of a silo is of such small proportions that it renders them of great benefit, in a financial way, to the dairy farmer, in this sense, and the fact of food being supplied by them at such nominal cost, makes them again an indispensable adjunct. It is estimated that ensilage can be placed in the silo at a cost not to exceed \$2 per ton, aside from cost of producing, and the morris of the ensilage are said to be another great feature in its behalf.

Thomas Muckle, who has been working on the Upper Willamette steamers for several months, returned to this city last Saturday. Just as soon as he recovers from an injury sustained while at his work, Tom intends going to Skagway, and, perhaps, from there to Dawson City.

Printing office language is peculiar. The editor said to the foreman: "Billy, put George Washington on the galley and finish the murder you commenced yesterday. Set up the ruins of Hercules and distribute smallpox. Lock up Jeff Davis; slide Ben Butler in the hell-box and leave the pit alone until after dinner. Put the ladies' form to press and tell the world to work on Deacon Fogg's article on eternal punishment."

ST. HELENS.

St. Helens, it can truthfully be said, possesses many advantages for a creamery, and we believe that should there be an effort put forth by our business men such an enterprise could be secured. Parties in the East are contemplating coming West to engage in the creamery business, and if a small effort were made their location at this place could be secured. The benefit to the town of such a concern need not be commented upon, but a few facts in regard to the advantages the place offers are not out of place. For instance, the location can be said to be unequalled, as it is the practical center shipping point for the country lying below on the Columbia, above on the Columbia, along Willamette slough, and for all the country back of it. It is a point at which could profitably center all the produce in this line for many miles around it. Daily steamers touch here from the dairying sections in every direction, and transportation rates are so cheap that milk and cream could be shipped here at nominal cost. Such an enterprise would stimulate the dairying industry, as it would afford market for all the milk of the surrounding country, and the benefit would be direct and lasting. Our farmers and dairymen would receive the money for their produce here at home, and as a natural consequence the greater part of it would be spent here. Let our business men consider this matter with a little seriousness, and we believe the result would be the establishment of a creamery in our town.

Last Saturday night, at the home of Mr. and Mrs. Jacob Brous, at Rainier, was celebrated the tenth anniversary of the wedding of this popular couple in such a manner as to make the occasion one not soon to be forgotten by those whose good fortune it was to attend. Mr. and Mrs. Brous are well and most favorably known to Columbia county people, and the fact of their announcing their intention to celebrate their "in" wedding was all that was necessary to insure a good time, which, from reports, was certainly the result. Those who attended were: Mr. and Mrs. J. Brous, Capt. and Mrs. C. L. Hoogkirk, Mr. and Mrs. A. L. Clark, Mr. and Mrs. Schumason, Mr. and Mrs. Robert Johnson, Mr. and Mrs. Zimmerman, Mrs. W. A. Wood, Mrs. M. Sheerin, Mrs. Both, Mrs. J. Silver, and Mr. S. D. Dennis. After an evening pleasantly spent the company dispersed, wishing their host and hostess many happy returns of the occasion.

A paper to be first-class, must necessarily receive first-class patronage. In every town there are people who are "glad to see the paper get along" and "lend their moral support" to the editor, but "moral" support don't pay for paper, ink, or type's stipend. First-class patronage consists in a man paying his subscription in advance. There are people who come in and subscribe to help the paper along, who fail to think that unless they pay in advance they are asking you to lend them so much in cash. There is food for reflection in these lines.

Persons who are troubled with indigestion will be interested in the experience of Wm. H. Penn, chief clerk in the railway mail service at Des Moines, Iowa, who writes: "It gives me pleasure to testify to the merits of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For two years I have suffered from indigestion, and am subject to frequent severe attacks of pain in the stomach and bowels. One or two doses of this remedy never fails to give perfect relief. Price 25 and 50 cents; sold by Dr. Edwin Ross.

Prof. Hoadley, of University Park, delivered a lecture in this city last Friday evening on the life and career of Shakespeare, before the reading circle, at the home of Mr. and Mrs. W. B. Dillard. About thirty-five persons were present, and all spoke in highest terms of the professor as a Shakespearean. The lectures which have been delivered here this winter by the faculty of Portland University have been productive of much good, and the people of our city thoroughly enjoy them.

Miss Lulu George entertained a number of her young friends Wednesday evening at her parents' home in this city. Games were indulged in until quite late in the evening, when luncheon was served. He was jerked out of a sleigh, falling backward and striking on the icy sidewalk. He was fortunate to escape with no broken bones.

On Friday evening another of our old pioneers passed over the river into the great beyond quite suddenly. This time it was Uncle Lley Adams. It seems from all accounts that he was sitting in his arm chair by his bedside when, without a moment's notice, the Good Master said "It is finished; come hence." The deceased was an early settler in this valley, and has undergone a great many hardships and privations to secure a home. He leaves a large family of grown men and women to mourn his demise.
