OREGON MIST.

Friday, July 10, 1898.

A good selection of millinery for sale at cost during July and August at the residence of Mrs. W. B. Buell, near the schoolhouse.

Dr. G. W. Gue will hold the Methodist Episcopal 4th quarterly conference in St. Helens, Thursday, July 21, at 3 p. m.

N. A. Perry, of Houlton, has a large stock of gents' and ladies' shoes just in from the East, which he is selling at bed-rock prices.

It was possible to secure only the list of bills allowed in the court for publication this week. Orders of court will be furnished next week.

Blackberries are said to be very plentiful in the mountains and valleys this year, and a great deal of this delicious fruit is being brought to market.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. B. Cooper, of El Rio, Cal. "For small children we find it especially effective." For Sale by Dr. E. Ross.

Ex-County Clerk Judson Wood spent a few days at his farm near Vernonia this week. It is quite likely that Mr. Wood will locate at Philomath, where his children will have advantage of better school facilities.

Mrs. E. E. Quick and daughter, Alice, Mrs. A. H. George and son and daughter, Alfred and Lulu, Mrs. J. H. Decker and daughter, Maude, Messrs. James Dart, John Gilmore, and Allan Robinson were passengers for Portland on the Young America Tuesday morning.

Senator McBride and E. C. Giltner are expected to arrive here the early part of next week. The senator says he is anxious to enjoy the refreshing and invigorating atmosphere of the Bunker Hill region, and will probably continue to that resort immediately upon his arrival here.

Avon lodge No. 62 Knights of Pythias, of this city, installed the following officers Tuesday evening to serve for the ensuing semi-annual term: E. E. Quick, C. C.; Frank Dow, V. C.; M. C. Gray, M. of W.; D. J. Switzer, M. of E.; Dr. Edwin Ross, M. of F.; Chas. W. Blakesley, K. of R. & S.; Dr. H. R. Cliff, M. at A.; G. D. Gilson, I. G.

This paper wants a good, lively correspondent at each postoffice in the county. We will furnish stationery and stamps for this purpose. If you will take into consideration the value of weekly news letters from your locality, those who are interested in the development of your respective sections of the county will respond to our request.

Mr. H. West, of Scappoose, this week picked the fruit from one hundred Black Republican cherry trees. He is drying the fruit, which he expects to dispose of at good prices. Mr. West probably has the largest cherry orchard in the county, as well as a large prune orchard, and the benefit he derives each year proves that fruit-raising is a lucrative business in this section.

It is fortunate that Columbia county has no more murder trials in the circuit court than it has been called upon to prosecute in the past, and it is also a matter for consolation that terms of court are held no oftener than they are. The May term of circuit court cost about $1500, witness fees being $732 25 and jurors' fees being $690 60, besides the bailiffs' fees. Of this amount the Upton murder trial cost about $650.

Mr. Thomas Cooper last Friday morning took charge of the Oriental hotel in this city, and in future will conduct that popular hostlery. Mr. Cooper has a wide acquaintance in this county, and is accordingly popular, hence the business under his management will be profitable to him and conducted to the entire satisfaction of the public. See the advertisement of this popular hotel elsewhere in this issue.

The farmers in Columbia county have almost finished haying and are rejoicing over the magnificent crop. When the new grasses are introduced and more silos are used there will be no section of Oregon, or the northwest coast for that matter, that can compare with Columbia county in dairy products. Fine grasses make richer butter fats. This county has already a reputation for good butter and cheese, but the old timers will be surprised in a few years at the results obtained by scientific methods.

Persons troubled with diarroea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks almost prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptons of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by Dr. E. Ross.

Some rural editor fathers the following: "Man that is born of woman is small potatoes and few in a hill. In infancy he is full of colic and catnip tea, and in old age he is full of cuss words and whisky. In his youth his mother taketh him across her knee and sweetens his life with her slipper, and when he is a man grown the sheriff pursueth him through the alleys all the days of his life. He spreadeth like a bay tree. He getteth into office and his friends cling about him like flies to a sugar barrel; he swelleth with vanity. He cutteth ice for a time but is hewn down at the next convention and is cast into the salt box and his name is Dennis. Out of office and out of friends he soon gooth busted, and he lieth down in the cow pasture beside the still waters of the brook. He goeth to sleep. His neighbor's goat cheweth the shirt from his back. He dieth out of the world and goeth where it is warm enough without clothes, and the last end of that man's life is worse than the first."

The large lumber raft recently taken from the Columbia river to San Francisco can be said to have arrived there in safety, although about a half million feet of lumber was lost on account of encountering severe seas and excessive gales. Other rafts of the same character are now building in Portland, and another attempt will be made to land them safely in San Francisco, which can probably be accomplished with better success later in the summer when better weather usually prevails. The success of this undertaking means much for the lumber business of this part of the coast, as transportation then becomes only a minor consideration in the matter, when heretofore it has been the major factor and one of the most prominent obstacles to that important industry.

Rev. B. J. Hoadley, A. M., of Portland University, will preach here in the M. E. church next Sunday evening. Good music.

The run of salmon was reported much improved this week at Astoria, and all the boats delivered fair catches at the canneries. The traps and seines, also, at the mouth of the river are said to be doing well. The river is falling rapidly, and the seiners who were obliged to suspend work during the freshet have commenced seining. A great many of them have done little up to the present owing to the fact that they are fishing on low grounds. However, the best of the season is from now till August 10, and those seiners yet look forward to a more than average season.

Rev. J. S. McCombs, of Oregon City, will hold services in Scappoose next Sunday morning and Rev. Philbrook will occupy the pulpit in the evening.

A much larger pack of salmon is expected this year than last, although the coldstorage enterprise inaugurated at Astoria this season has drawn a good many fish from the canneries, 80 carloads of frozen salmon having been shipped to Eastern points so far, by the Trescott Coldstorage & Packing Company, of Astoria. Last year the salmon pack amounted to 425,000 cases. This year there have been some 225,000 cases packed already, and the season will not close until August 10, nearly a month yet.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by Dr. E. Ross.

S. W. Tallman, an old resident of this state, was in town yesterday. Mr. Tallman is 82 years of age and is as active as many men who are 30 years his junior.

Rev. B. J. Hoadley will preach in Houlton next Sunday morning and in Warren in the afternoon at 3 o'clock. This will be the last quarterly meeting of the year.

Tom Trullinger, of Astoria, was here for a few hours Wednesday, taking the train for home in the evening.

County Treasurer Ross has a call in this paper for warrants endorsed prior to March 1st, 1896.

Mrs. Jensen has been visiting her sister, Mrs. G. G. Mayger, here this week.

Mrs. H. R. Cliff visited Mr. and Mrs. Frank Dow this week at Oak island.

Mrs. T. C. Watts, of Reuben, visited in this city a day or two this week.

NORTHWEST RESOURCES

Will Be Shown at the Oregon Industrial Exposition.

That Oregon, Washington and Idaho are entitled to be rated as among the most productive and resourceful states in the Union will be abundantly proven by this season's magnificent crops.

The world wants evidence of all this, and it will do the world good, and do good to the whole Northwest and all its people. These people are the ones to furnish the evidence, and they can do this by taking an active interest in the Oregon Industrial Exposition, to be held in Portland September 22nd to October 22nd, 1898.

The success of the exposition is already assured; enterprising men of affairs are at its head, and the various committees are at work in a way that guarantees the best exposition ever held in the Northwest.

Gold, silver and bronze medals and diplomas will be awarded for the best exhibits, and the farmers and producers will be doing good work for themselves and the whole North Pacific coast—work that will result in bringing here people and wealth and development. It is intended to have on exhibition a sample of every variety of grain and grass that grows in the Northwest, with full particulars as to its growth, yield, etc., which information will be instructive and valuable to all. The exposition management will take to Portland free of charge all exhibits; shipping tags and full particulars will be sent upon request to the secretary of the Industrial Exposition, Portland.

The exposition is going to be a great attraction, and one of its many attractive features will be a first-class band, rendering better music than has been heard in Portland since Liberati's engagement seven or eight years ago.

Graduating exercises were held at the close of Mr. Fulkerson's school in district No. 1. The exercises were in Watts & Price's hall, which had been tastefully decorated for the occasion. The exercises throughout were of high order, and reflect much credit upon the teacher and school.

SUPERIOR COAL DEPOSITS.

Immense Quantities Found in Clatsop and Columbia.

E. O. Norton, a well-known citizen of Astoria, is in the city visiting relatives. Clatsop and Columbia counties, he thinks, will soon come to the front as a coal mining region, in addition to being a great salmon and lumber producer. Dr. August Kinney and a party of coal experts from St. Paul are prospecting every portion of the county for coalbeds. They find excellent indications of a superior quality of coal near Knappa and in the neighborhood of Bugby's Hole and Columbia City, all adjacent to the line of the Astoria & Columbia River Railroad.—Telegram.
