

OREGON MIST.

FRIDAY, NOVEMBER 18, 1909.

TOLD IN SIDEHEADS.

GRAVELLED OR PLANKED ROADS.—It has been suggested that the commissioners purchase a portable sawmill for the purpose of planking some of the main roads. It is contended that with so much wet weather in Tillamook, the gravelled roads are cut up every winter, making it bad for travel, while if the roads were planked, they would be good to travel over all the year round.

EVIDENT DISHONESTY.—A citizen of Portland, who built a drier a few miles from the city, and during the past season dried some sixty tons of prunes, sold them to a San Francisco firm. It was remarked to him that this was not so, the firm sent him a sample of the labels to be used on their boxes. It is a handsome label, and reads: "Many Oregon Italian prunes, packed by—, San Francisco." This was perfectly satisfactory, but a man who is up to the wife of California fruit men says that these labels will be put on the culms little California French prunes, and the large Oregon Italian prunes will be labeled "Many California Prunes," thus giving the purchaser a favorable idea of California prunes and an unfavorable opinion of Oregon prunes.

A VAPOR ENGINE.—Astoria has a young man who promises to gain a world-wide reputation within the course of a very short time, says the Astoria Budget. His name is Edward L. Lowe and he resides at 241 Tenth street. For the past two years this young man has been constantly at work on an invention which he succeeded in perfecting a few weeks ago, and has received a government patent on it. His invention is a "vapor engine" and if the machine will accomplish only one-half what he claims for it, it will revolutionize the gasoline launch machines and place them in the background. The patent department of the government recognizes the importance of this engine and pronounces it a wonderful invention, simple in construction, economical and durable. It is also reported that the Standard Oil Company has been watching the progress of young Lowe's work, but failed to secure any definite information. Practical demonstrations have already been made, and now that he has secured a complete patent, steps will be taken to organize a company with capital and commence manufacturing the machine for market.

Big Timber Deal.—There is every probability, says the Astorian, that several townships of lumber land will be bought in Clatsop county within a short time. Recently J. B. Johnston returned from a cruise made through the country tributary to Necanicum creek, in company with a representative of J. G. Day, of the firm of Day Bros., builders of the Cascade locks, who intend purchasing a large timber tract in that vicinity. Mr. Johnston would not talk of his trip further than to say that he had cruised townships 5-7, 6-10, 6-10, 4-9 and 5-9, all of which are tributary to Necanicum, and contain about a billion feet of timber. It is learned from other sources, however, that the Day Bros. have contemplated the purchase of this tract of land for some time. The timber on the townships in question is not as good as in other portions of the county, but it is more accessible and requires less capital to place it in tidewater. Nearly all of this timber can be logged by teams and put in tidewater at small expense. It is stated that in connection with this sale of timber, the Day Bros. are about to erect a large sawmill with a capacity of 150,000 feet of lumber a day. It is thought that the mill will be located at Seaside.

FALL FISHING IS OVER.—Fall fishing on the Columbia is over for this year. From the best estimates obtainable, it is thought that about 115,000 cases have been put up. Of the individual canneries, Cook, of Olney, heads the list with about 40,000 cases. The fall season just past was a remarkable one in several particulars. The pack was the largest in the history of fall fishing on the river, the price paid for silversides was higher than for several years and, owing to the shortage in the spring pack here, on the Sound and in Alaska, the canned article found a ready sale at good figures, and the greater portion of it was shipped as fast as packed. The demand for steelheads was also unprecedented and what few were caught paid for a higher price than was sold for Chinook. The season was almost wholly to the fact that the cold storage men have entered the field to a greater extent than ever before. With the large cold storage plant of Smith Bros. now being erected in Astoria, the preparations being made by Trocetti for enlarging his operations, and increased supply of this class of fish sure to result from the hatcheries now in operation, the outlook for a profitable business in cold storage shipments in the near future is encouraging.

Teacher.—"In this stanza, what is meant by the line, 'The shades of night were falling fast?' Bright scholar.—"The people were pulling down the blinds."

Judge Case, of Auburn precinct, was seen doing business on our streets Friday of last week. The justice court of Auburn precinct is the only one in the county to replenish the county exchequer with cash received from fines. Auburn has sent in two fine—one of \$5.00 and one of \$20.00.

The receipts in the county clerk's office for land redemptions on tax sale certificates so far in November amount to \$334,74. The receipts for fees in that office during the month of October amounted to \$217.45. Last Friday Mr. Balders contributed to the wealth of the county to the extent of \$600 for taxes for 1896 and 1897.

Senator McBride left Portland on the 18th of the present month for New York City, where he would join a number of his co-workers in congress, and there hold a conference upon some important business matters pertaining to their senate duties before congress convenes next month, in compliance with an agreement of the other members, of which committee Senator McBride is also a member.

We have on sale at this office a number of tickets to the benefit entertainment to be given in Portland on December 5th. The proceeds of this benefit will go to the widows and orphans of the victims of the awful explosion on the torpedo boat Davis, recently. The entertainment is given under the auspices of the employees of Wolf & Zwicker's ironworks who will be assisted by Portland's best talent, and promises to be a brilliant affair. The kindly spirit manifested is worthy of consideration, and the undertaking should be encouraged by liberal patronage. Tickets are but one dollar each. Call at this office and purchase.

Churchly Brothers, of Portland, are making preparations to buy and get out an immense amount of cordwood in the vicinity of Deer Island. We have been informed that the move is not temporary, but will develop into an industry of considerable proportions and of a permanent character. These gentlemen have been in the wood business in Portland for several years, and heretofore have procured nearly all the wood they have disposed of in the city at or near Beaverton, in Washington county, but the supply is exhausted and it became necessary for them to seek another source of supply. Deer Island is fortunate in securing such an enterprise, because it means permanent employment for a number of persons at cutting and hauling wood during the entire year, for an unlimited time or until the supply of timber in that vicinity is exhausted. The price of the product delivered at the railroad, to be netted by the people, will be \$1.75 per cord, and it will have the effect of greatly stimulating trade and business in that vicinity.

Tuesday evening of this week marked another epoch in the social history of Avon Lodge Knights of Pythias, of this city. Lodge opened at the usual hour and the rank of Knight was conferred upon a candidate, after which the lodge-room was thrown open to friends, and for three hours the large crowd proceeded to make merry in a manner known only to those whose good fortune it is to participate in such events. An invitation previously sent to Rainier lodge to be present was responded to by fifteen members, accompanied by nearly as many ladies, and the members and friends of the lodge in this city evoked the number to nearly one hundred people. A committee of three popular Knights of Avon lodge had prepared an elaborate spread, consisting of clam chowder, roast chicken, sandwiches, olives, coffee, and numerous delicious edibles, which disappeared with alarming rapidity, after which some time was devoted to speechmaking. Time passed so pleasantly that it was far past midnight before the visitors and friends departed, and even then it was with regret that they left the hall. As the little steamer Annarine left the wharf at nearly 1 o'clock with her precious cargo she was given a farewell by those left on the shore. This was one of the most pleasant affairs ever given in this city, and those who participated in it will long remember it as such.

GOOD COUNTRY ROADS.

We were shown this week the medals and diplomas awarded to Mr. W. B. Dillard, of this city, for "the best display of vegetables from one farm," at the Portland exposition this year. It is very evident that no parity was brought to bear in this matter, as the name of the exhibitor was not even known. Both the medal and diploma are made to "J. B. Dillard," instead of the proper owner, Mr. Dillard. They are tokens of which Mr. Dillard may reasonably feel proud.

A tunnel being made into the mountain of rock where the crusher is being operated, will be completed in a very short time. When completed, it will be loaded with sixty bags of black powder and the charge exploded. It is no doubt, will shake things up considerably around town, hence we give the warning, so our people will not think it is an earthquake or a voluntary explosion.

W. M. Messer, who was in town yesterday, Mr. Messer had just returned from Nehalem, where he had finished some surveying that he had promised to do. The city and county jail of St. Helens has not had an occupant for many months. No telling how soon it will be occupied.

VERNONIA VARIETIES. Three cheers for Washington state. Where, O where, are the peeps? The who comes here, says dead. Mr. Ulrich Erickson is spending the winter with his friend Gustav Hult. The first snow of the season fell quite freely for a short time last Wednesday. George Smith has lately moved into the Thomas Leander residence in this city.

Mr. Josh Sessman went out with the mail Monday, instead of the regular carrier. Chas. Armstrong came in from Centerville Saturday after his family and poultry. Harve Anderson came in from Salem a few days ago with his brother, Thomas, of Miss Nehalem. Miss Ross Sessman, who was the guest of Mr. and Mrs. E. W. Keasey the past week, is at home again.

Wedding bells will soon be heard ringing from the vicinity of Upper Beaver, so some rumor say. Wm. Mellinger sr., who has been absent for some time from this valley, returned Monday to his city. Rev. Smith begins a series of meetings at the church Monday, November 14. All are cordially invited to come out and listen to the sermon.

The sermons preached by Rev. Ernst were listened to attentively both at Hayward and at Mountaindale. The quarterly meeting was well attended. Emory Shesley and U. M. Beeghly were employed by Gray to drive to Portland the cattle and sheep purchased by that gentleman in this vicinity. Ya scribe is informed that Mr. and Mrs. E. W. Keasey expect soon to start for Portland to spend the winter. Mr. Keasey's health is quite poor here.

Wm. Smith has moved his family and household effects from the old Sovereign home above town, to the Orin Hiatt residence in this city. Miss Ida Wilson returned from Eliza Tuesday, where she has been engaged in teaching the young sprouts how to shoot for the past nine months. Mr. Gustavson and family expect soon to move to the Keasey, or Homestead, to take care of the Keasey property in the absence of the owner.

Prof. U. C. Adams, who is teaching at Mountaindale, came over Saturday to visit friends in this vicinity. He reports everything locally at Mountaindale. Mr. Wm. Mellinger sr., will soon be a full fledged bartender so we are informed. He goes to Corvallis to assume control of a saloon belonging to George Brian. Our doctor (Hartfield) still continues very poorly and at last reports he intended, as soon as able to stand the ride, to return to Portland to secure medical treatment.

Our school master gave this answer to the question, "What is the cause of such a republican walkover in all the states?" The question was not quite wrapped in mystery, as the result was caused by the war," or words to this effect. The postmaster said it was on account of the prosperity we were having, he should say.

GOOD COUNTRY ROADS.

The Greatest Aid to Development a Country Can Have. Tillamook Herald. At no other season, are the people, and particularly the farmers, so impressed with the necessity for good roads, than when the deluges come. Every farmer that comes to town now damns the roads, and yet there has been money and labor enough expended on the roads in Tillamook county to have made a very fair system of roads throughout the county, and we are led to believe, therefore, that the manner of collecting and expending road money in this state is not the best that could be devised. Good roads are the greatest aid to development a community can have, and every dollar of road money should be expended in a manner that will produce the greatest results. No railroad company would employ other than experts to build its roads or keep them up when once built, and there is no reason why a county should not be particular in exacting good work for the money it expends on its roads as a railroad company. We are not criticizing individuals, but speaking generally. It is a well known fact that many farmers do a great deal more work on the roads than they get paid for, and do good work, too, and some road supervisors do the same thing; and there are very few who do not earn all they get. But there is a wonderful lack of system in county road work, which, if remedied, would increase the value of the work done. There is one way to do this, and that is for the state to place the building and the maintenance of the roads of a county so completely in the hands of the county court that one man might be made responsible for a term of years who would have full charge of all the road work in his county.

CONTEST NOTICE. DEPARTMENT OF THE INTERIOR. (Under Public Land Office.) OREGON CITY, Oregon, Oct. 1, 1899. A SUFFICIENT COPY OF THE FINAL MAP, made under the provisions of the Act of Congress, approved March 3, 1879, for the Township of North, Range 4 West, in Section 1, Township 1 North, Range 4 West, in which it is alleged that the claimant, J.
