Is America's Greatest Medicine. 31, 61c for 31.
Hood's Pills cure indigestion. 25 cents.

As a Brother.
A certain curate was of a painfully nervous temperament, and, in consequence, was constantly making awkward remarks—intended as compliments—to the bishop and others. Having distinguished himself in an unusual degree during the gathering of clergy to an afternoon tea at the bishop's palace, he was taken to task for his failings by a senior curate, who was one of his companions on the way home.
"Look here, Bruce," said the senior, decidedly, "you are a donkey! Why cannot you keep quiet, instead of making your asinine remarks? I am speaking to you now as a brother."
Lord's laughter interrupted him at this point, and for the moment he wondered why.—St. Louis Globe-Democrat.

THANKSGIVING DINNER ON THE OLD FARM.

UNC' RASTUS' POSSUM YARN.

Thanksgiving Story Told by the Old Negro for the Children.
Petition's home, a very modest little four-room establishment, great preparations were being made for the Thanksgiving festivities which the next day was expected to usher in.

The morning came and Aunt Patty took the opossum which Unc' Rastus had caught and placed him in a broad pan and put him in the oven. After the opossum had baked for a while she opened the oven and put in the pan a lot of sweet potatoes which had previously been boiled and split and let them brown in the 'possum fat.

When the animal was done brown the family and their friends gathered around the festal board and the middle-aged girls and the 'big girls, the old folks and the young folks pitched into the dish and made merry over the arrival from the South.

After the dinner they had some music, and wound up with a dance. When the dance was ended the visitors, to the number of seven or eight, left with a chorus of good-bys and jokes and the family were left by themselves.

"Put on some coal on dat fah, you Bonapart," said Unc' Rastus. "My law, dat 'possum remind me of ole Ahksaw, yasm, it sholy do."

"Tell us 'bout it, pa," said Caline, and the other children clamored for the story.
"Well," said Unc' Rastus, "down dah in de Boston mountains whah I've bawn we dun live in one dese heah cabins, log cabins. De chink up twix de logs with mud an' buff's chimney on de outside. We all had nine dogs an' fo'teen in de family. De was er smoke-house an' chicken coop an' er sah-phahphah by de cabin an' er cawn crib. We was in de valley an' a mile down de road live Eph Baker an' his fa' ty. Long 'bout dis time de yeah Eph an' me

we've got much ter be thankful for this year, Liddy."
"Oh, yes, we have. We—"
"Hoi' on, now, hoi' on, Liddy. That's a way you have of rushin' me with arguments an' downin' me afore I gets rightly started. Jest wait till I get through. Our crop was mostly a failer, ovva to too much rain. What we did harvest didn't really pay for 't raisin'. 'T was two-year-old coit was killed by lightning, most of our standin' timber was destroyed by fire an' a good many rods of fence went 't same way. Now you can't honestly say, Liddy, that we're as far along as we was this time a year ago."

"I didn't know you were so worldly, Josh. You talk as though we ought to rebel against Providence whenever the credit side of our bank book doesn't have a steady growth. We're both in 't prime of life with good health. We've been given more time to pay off de mortgage. None of de great disasters we read about has touched us. There is plenty in de cellar and de granary to live on if we were without a dollar. That state of affairs would be a godsend to tens of thousands this winter, Josh. And you know dat Jimmie pulled through after de doctor gave him up and is as hardy as a knot!"

"So he did, de blessed little lump of mischief. But I won't dispute with you, Liddy. You don't give a feller no fair chance. I was goin' to sell dat 20-pound gobbler, but we'll jest keep him fur a certain piece Thanksgiving."

Our Thanksgiving.
We'd thought on this Thanksgiving day we'd eat our pork pie.
With dear old mother at the farm, as in de days gone by.
But greater Power than we had willed That mother shouldn't stay,
For mother's rare Thanksgiving treat / He often felt a wish.

Pumpkin Pies and Thanksgiving.
With the pumpkin borrowed from the Indian, and the Yankee ingenuity that grew up with the New Englander forced to rely on his inventive skill, the pie was an easy creation. The pumpkin, for fruits when the white man came were only such as he found wild and they would not keep through the fall and winter as the modern genius has made possible. The pumpkin, however, was a keeper, and therefore available at late periods of the year for pies and stews, and it has never lost its place on the Thanksgiving table. Nor, to do it justice, is there any reason why it should. The pumpkin pie needs no apologies on Thanksgiving or any other day.

Nor, to do it justice, is there any reason why it should. The pumpkin pie needs no apologies on Thanksgiving or any other day.

Our Own American Day.
No matter what its obscure origin, the American Thanksgiving is our own American day now, and, set in its thoroughly American surroundings, it is a chief among all the happy days of the year. May we all have opportunity and reason to appreciate and share in many of them.

Signs of the Times.
Northwest Settings.
Baker City is to have an extensive candy manufactory.

It is estimated that \$20,000 net was received by Ashland peach-growers this season.

Over 150,000 sacks of grain have been received for shipment at Alameda, Wash., this season.

A large portion of the Klamath Indians are buying blankets and other supplies in Goose Lake this fall. Many Indian wagons are going and returning from Pine Creek mills each day.

The largest piece of coal that has ever brought to Spokane is now on exhibition there. It weighs 1,400 pounds, and it took seven men to unload it from the car and place it in its present position. It was taken out of the mine owned by the railroad company, at Hoaly.

The Columbia River Logging Company, of Golden, B. C., is preparing to do a big business this winter and the East Kootenay Miner says they want 150 bushels to work in the woods.

NICARAGUA CANAL.

A Great Thing for the Pacific Coast—Would Be a Powerful Aid in Western Development.

The Nicaragua canal is a subject very much discussed just at this time on the Pacific coast.
From statistics carefully gleaned by the most authentic authorities, it is shown that from the different nations of the world and the islands of the sea there would pass through the canal a possible annual traffic of 14,000,000 tons, a probable traffic of 10,000,000 tons, or a certain traffic of 8,000,000 tons, on which, if it toll of \$3.50 a ton was imposed, an annual revenue of \$28,000,000 would be obtained, or over \$19,000,000 over and above operating expenses. A saving of \$3.50 per ton on wheat would amount to, say, 7 cents per bushel, and on lumber to \$5 per 1,000 feet. A careful examination made by the Maritime Canal Company show that a possible one-half of the 8,000,000 tons traffic, which is claimed, will pass through the canal. In America, can commerce, either coastwise or exports and imports. It seems to be fully determined that if the canal is built at all it must be built and operated as the property of the United States government—built with the people's money. It should be open and free and without tonnage charge to all American commerce, coastwise, exports and imports; and to compensate ourselves for our outlay we should lay a toll of at least \$3 per ton on all traffic passing through between foreign nations.

It is estimated that it will require not to exceed \$100,000,000 to construct the canal, although it is claimed, in a recent statement made by Lyman B. Cooley, a celebrated engineer of this country, that, by means of certain cuttings on the part of the commission, and by President McKinley to investigate the feasibility of the project, the cost of the canal will be reduced much below the figure of \$100,000,000, on account of favorable dredging in the lower end of Lake Nicaragua, non-existence of rock in the San Juan river to Toro Rapids, good foundation for immense dam at Ochoa, favorable conditions for embankments at San Francisco basin, and a new site for a dam at Tambo Grande.

The farmers of California, Washington, Oregon and Idaho, now further from the world's markets than any other agriculturalists, would not only be placed as near Liverpool as their competitors in India, Chile and the Argentine, but they would also have an advantage over their competitors of \$3 per ton, or 5 cents a bushel for the wheat from India must bear \$2 per ton toll at the Suez canal, and we would have the Pacific South American states pay \$3 per ton on the Nicaragua canal.

Then, too, our Atlantic and Gulf ports would have this \$3 per ton advantage over all their British and European rivals in the great markets of Japan, Korea, Australia and the Pacific islands, as their rivals would be compelled to pay the \$2 per ton toll, whether they went to market via the Suez canal or the Nicaragua canal.

Still Short of Water.
The drought in California this year has not yet been relieved by fall rains, and on November 1st the South Yuba Water Company served notice on all the mines which are operated by its power that no more water could be furnished until after the rainy season had fully set in, as the company could not count on more than enough to fill their contract to furnish Nevada City and Grass Valley with water for municipal purposes. This will hang up nearly a thousand stamps in the district.

End of the Salmon Season.
The salmon packing season is at an end, there being no more vessels due to arrive from the north, and according to the best authorities, says the San Francisco Call, all the canneries on the coast are 1,000,000 cases, or about 33 per cent short of the pack. The Alaska Packers' Association in some 45,000 cases short, or less than 5 per cent of last year's pack. About 19,000 barrels of salt salmon were shipped from Alaska during the season of 1898.

Shipment of Lead to China.
The Puget Sound Reduction Company, of Everett, Wash., made a shipment of 60 tons of lead last week to the American Trading Company in Shanghai, China. Arrangements have been made for weekly shipments to China and Japan by way of the Canadian Pacific steamship line.

New Brickyard.
A new brickyard will soon be started at Port Orchard, Wash. The machinery has been ready for some time and last week a consignment of small tools was received at the point.

Northwest Settings.
Baker City is to have an extensive candy manufactory.

It is estimated that \$20,000 net was received by Ashland peach-growers this season.

Over 150,000 sacks of grain have been received for shipment at Alameda, Wash., this season.

A large portion of the Klamath Indians are buying blankets and other supplies in Goose Lake this fall. Many Indian wagons are going and returning from Pine Creek mills each day.

Communitarianism.
A Missouri man filed an answer to his wife's suit for divorce an agreement signed by both "to disband."
Mr. Woodruff, the New York man who has accumulated 50 wives, simply makes Chicago's Base-Gates, of seven-wife notoriety, look small.

"I have always had a desire to go on the stage," says the St. Louis young woman who was married last Saturday, and is now seeking a divorce. She not only wants to go on the stage, but she wants to begin as a star.

PERIODS OF PAIN.
Menstruation, the balance-wheel of woman's life, is also the base of existence to many because it means a time of great suffering.

While no woman is entirely free from periodical pain, it does not seem to have been nature's plan that women otherwise healthy should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition that produces so much discomfort and robs menstruation of its terrors. Here is proof: DRAB MRS. PINKHAM—How can I thank you enough for what you have done for me? When I wrote to you I was suffering untold pain at time of menstruation; was nervous, had headache all the time, no appetite, that tired feeling, and did not care for anything. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound, one of Blood Purifier, two boxes of Liver Pills, and to-day I am a well person. I would like to have those who suffer from medical ailments know that I am one of the many who have been cured of female complaints by your wonderful medicine and advice.—Miss JENNIE B. MILLS, Leon, Wis. If you are suffering in this way, write to Miss Miles did to Mrs. Pinkham at Lynn, Mass., for the advice which she offers free of charge to all women.

A canal connecting the Mediterranean with the Red sea existed as early as 800 years before the Christian era. Its length is 92 miles.

Seems to Get Rip.
One complaint seems to get ripe in autumn, and that is neuralgia. To soothe the pain, strengthen the nerves and rid the system of it, use St. Jacobs Oil, the best known cure.

From China \$450,000 worth of human hair is exported annually. It comes mostly from the heads of male-factors, paupers and dead people.

How to Get Strong
A system which has become run down by the trying weather of the past summer is not in a condition to meet the severe winter of this climate and will easily fall a prey to disease unless a proper tonic is used.

Dr. Williams' Pink Pills for Pale People are the best medicine in the world for building up and strengthening an enervated system.

Do not confuse these pills with ordinary purgative pills. They do NOT act on the bowels, thereby further weakening the body. They build up the blood and strengthen the nerves.

Major A. C. Bishop, of 715 Third Ave., Detroit, Mich., is a well-known civil engineer. He says: "When I had my last spell of sickness and came out of the hospital I was a sorry sight, and could not walk over a block for several weeks. I noticed some articles in the newspapers regarding Dr. Williams' Pink Pills for Pale People, which convinced me that they were worth trying and I bought two boxes. I did not take them for my complexion but for strength. After using them I felt better, and know they did me a world of good. I recommend them to anybody who needs a tonic or to build up a shattered constitution."—Detroit Free Press.

At all druggists or direct from the Dr. Williams' Medicine Company, Schenectady, N.Y. Price fifty cents per box.

The "American Boy" Battleships.
Every American boy who school boys will succeed in their efforts to raise \$5,000,000 to be used in building a battleship. It costs great sums to build a battleship, but you can build up your health with Houghton's "American Boy" at small expense. This remedy is for all stomach, liver and bowel disorders.

Beachdale's Many Churches.
The town in England best provided with places of worship is the ancient one of Beachdale, where there are 143 churches and chapels. Fifty belong to the Church of England and 95 to the Nonconformists.

Follow It Up.
Sit down and cool off suddenly, and then regret it, for stiffness and soreness is bound to follow. Follow it up with St. Jacobs Oil and you will have nothing to regret from a prompt cure.

The New Frank Leslie's Popular Monthly.
Frank Leslie's Popular Monthly for November is the initial number in the new and improved form of this long-time favorite illustrated family magazine, with a handsome cover in colors and gold. Its price is reduced to ten cents, one dollar per annum. This is unquestionably a wise and popular move on the part of the publishers; and the return of Mrs. Frank Leslie to the editorship of the magazine assures for it a future as brilliant as its past has been prosperous.

Bicycles are taxed in Shoreham, Mass., the average assessment this year being \$50.

Also REWARD BLOOD.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and nervous system of the system, thereby destroying the formation of the disease, and giving the patient strength by building up the constitution, assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. F. J. CLEGG & CO., Toledo, O. Sold by druggists.

Stockings were first used in the 11th century. Before that cloth bandages were used on the foot.

When coming to San Francisco go to Brooklyn Hotel, 235-212 Bush street, American or European plan. Room and board \$1.00 to \$1.50 per day; rooms \$1.00 to \$1.50 per day; single meals 25 cents. Free coach. Chas. Montgomery.

Some scientists assert that the purest air in cities is found about 25 feet above the street surface.

FITS Formidably Cured. Dr. J. C. Williams' Pink Pills for Pale People. Send for FREE TRIAL BOTTLE and TRACT. DR. J. C. WILLIAMS, 181 Arch Street, Philadelphia, Pa.

The Aeolian harp was the invention, it is believed, of Athanasius Kircher, who lived in the seventeenth century, and it is so called from Aeolus, the god or ruler of the winds.

STEEL SPIRAL CONVEYERS...
We carry in stock a large supply of the above conveyers, both right and left, which we will sell at greatly reduced prices. Also all sizes of elevator buckets and belts. Write for price-list and discounts.
