The Year Round.

All the year around chronic or neglected rheumatism hangs on. It is worse in chilly, damp weather, but never so bad that St. Jacobs Oil can't promptly and effectually cure it.

"Only the First Step is Difficult."

The first step in Spring should be to cleanse Nature's house from Winter's accumulations. Hood's Sarsaparilla does this work easily. It is America's Greatest Spring Medicine. It purifies the blood, as millions of people say.

It makes the weak strong, as nervous men and women gladly testify. It cures all blood diseases, as thousands of cured voluntarily write. It is just the medicine for you, as you will gladly say after you have given it a fair trial.

Bad Blood—"Although past 70 years of age I am thoroughly well. It was three bottles of Hood's Sarsaparilla that made me so after spending over $60 in medical attendance. My trouble was a raw sore on my ankle."—Mrs. Louisa Mason, Court street, Lowell, Mass.

Running Sores—"After worrying four months I gave my children Hood's Sarsaparilla and it cured them of running sores. Hood's Pills cured me of dyspepsia and constipation."—Mrs. Kate E. Thomas, 31 Governor St., Annapolis, Md.

Consumptive Cough—"Five years ago I had a consumptive cough which reduced me to a skeleton. Was advised to take Hood's Sarsaparilla which I did and recovered normal health. I have been well ever since."—Matilda Bridgewater, Cor. Pearl and Chestnut Sts., Jeffersonville, Ind.

SINGULAR STATEMENT.

From Mrs. Rank to Mrs. Pinkham.

The following letter to Mrs. Pinkham from Mrs. M. Rank, No. 2,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement. She says:

"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me.

"Some years ago I had womb trouble and doctored for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on until last October, I felt something terrible creeping over me, I knew not what, but kept getting worse. I can hardly explain my feelings at that time. I was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left alone.

"Indeed, I thought I would lose my mind. No one knows what I endured.

"I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medicine.'"

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen and answered by women only.

NEWS OF NORTHWEST

A Budget of General News Gathered in Several Pacific Coast States.

The Giroux Mine Case.

In the circuit court at Baker City, Or., Judge Eakin sustained the motion to quash the indictment against E. L. Giroux, charged with obtaining money by false pretenses, it being alleged that the accused salted the Clark-creek mines about four years ago, at which time he was paid $20,000 by the First National bank on behalf of French capitalists, who bought the mines on the fine showing made by the alleged "salted" specimens. The present grand jury is now making another investigation of Giroux's case.

Thought It Was a Fire.

When the six street arc lights of Lakeview, Or., sent forth their brilliancy for the first time the other night, the people of New Pine creek, who saw the glare reflected in the sky, believed the town was having a big conflagration. The operator tried to communicate with Operator Boyd in Lakeview, and being unable to get a reply, concluded that Boyd was out fighting the fire. The alarmed neighbors were soon put at rest when informed that the town was brilliant with electricity.

A Gun Accident.

Noah Bonewitz and Donnell Nelson, equipped with 22-caliber rifles, started up Catching creek, in Coos county, Or., on a squirrel hunt. They had proceeded but a short distance above Charles Barklow's place when young Nelson, in attempting to load his gun, accidentally discharged it, the ball taking effect in Mr. Bonewitz's thigh. The young man was put in a boat and brought to Myrtle Point, where a doctor dressed the wound.

Profitable Dairying.

John Thorall, of Wilson river, Or., delivered at the Fairview creamery during the season of 1898, for seven months, 52,272 pounds of milk from six cows, for which he received in cash $210.34. He also sold three calves for $18, making a net income for the six cows of $241.34, or an average of a fraction over $40 for each cow. There are farmers in Tillamook county who average from $50 to $60 on each cow in 12 months.

Receiver Made It Pay.

The final report of Receiver J. C. Drake, of the Tacoma Gas & Electric Company, has been filed and approved in the federal court in Tacoma. The report shows that during his 17 months' receivership, Mr. Drake managed affairs so as to make the net earning of the company a little more than $20,000. Receiver Drake was allowed $2,550 for his services, and Attorney Stanton Warburton $400.

Wheat From Morrow County.

As nearly as can be estimated at this time there has been shipped from Ione, Lexington and Douglas, three Oregon towns, this year 900 carloads of wheat, with Ione in the lead with 500 cars to her credit. This number of cars will aggregate about 700,000 bushels, which, if sold at an average of 50 cents a bushel, would distribute nearly $400,000 among the farmers of Morrow county.

Pay for the Troops.

The transport Valencia, on her way from San Francisco to Manila, carries $1,500,000 intended for the payment of the troops now in the Philippines. This large amount of money is in the custody of Major Eugene Coffin, an additional paymaster of the volunteer service. The West Pointers who are to have their first experience in army life at Manila, are on board the vessel.

Accident From a Dream.

Ira Mahan, son of J. F. Mahan, of Mule, Harney county, Or., went to Ontario the other day on the stage from Burns. While asleep on the stage and dreaming he was pursued by some horrible beast, he leaped from the wagon, striking upon his face among the stones. He received a bad gash on his forehead, but happily escaped any permanent injury.

Married Sixty-Four Years.

"Uncle Tom" Moorehouse and wife, of Weston, Or., have been married 64 years. Mr. Moorehouse is in his 87th year, and his wife is one year older. The latter has never ridden in a railroad car, although she has always enjoyed excellent health, while Mr. Moorehouse has traveled but 100 miles, all told, by rail. They came across the plains to Oregon in 1861.

Struck by a Big Rock.

Mat Sloane, a native of Finland, and for the last seven years residing in or near Carbonado, was brought to Tacoma suffering from a wound that may cause his death. A stone weighing 80 pounds rolled down a mountain side, and, striking him on the left hip, broke a number of bones, and caused a wound from which he lost much blood.

A Big Lawsuit Ended.

The suit of the Buckley Mill Company has finally ended in Tacoma by Judge Williamson, of the superior court, making an order for the sale of the property. A judgment amounting to about $21,000 is to be satisfied. The property in issue includes a sawmill and appurtenances, and a logging road and equipment.

Committed Suicide.

Charles Becker, who owned a butcher shop in the Walla Walla addition to Seattle, committed suicide at his ranch near Maple Leaf, on the Seattle & International railroad, by shooting himself through the head with a 32-calibre rifle. His children say that domestic trouble was the cause.

George Small, of Silver Lake, Or., expects soon to start for California with a band of 100 mules that he expects to sell.

Born in an English Coal Mine.

Mrs. Forsyth, an old lady at the poor farm, in Kittitas county, Wash., was born many thousand feet below the surface of the earth in the coal mines of England, and spent the greater part of her life in digging coal. She is now supposed to be a centenarian.

Contracting Hops in Yakima.

Hop buyers, in Yakima county, it is understood, are now offering to contract the coming crop at 11 cents or better. This is the best price offered for years this early in the season, and indicate a good year for growers.

CHARGES REDUCED.

Dr. Darrin Reduces His Professional Fees—The Poor Treated Free.

Dr. Darrin has reduced his professional fees to half his former charges for one month only, so as to accommodate many of the afflicted who were unable to meet his terms in the past, and also for the benefit of those who have hesitated to apply to him. The worthy poor will be treated free, except medicines, from 10 to 11 daily. Those able to pay, from 10 to 5; evenings, 7 to 8; Sundays, 10 to 12.

That Dr. Darrin is effecting some wonderful cures by electricity and medicines is a fact supported by the strongest evidence, as the following names will show:

Mrs. A. C. Landis, 805 West street, Seattle, cured of a scrufulous sore on leg 20 years ago by Dr. Darrin.

Mrs. P. Hayes' daughter, southwest corner 20th and Marshall streets, Portland. Goitre (large neck) for years, cured with electricity alone.

J. W. Keeney, Long Creek, Grant Co., Or.—Kidney complaint, pains in the back and down the sciatic nerves, restored.

R. C. Cook, Portland, stricture of the urethra, cured after five doctors had failed.

J. A. Lindsley, news agent on the N. P. R. R., residence Mount Tabor, Or.; consumption, bronchitis and catarrh, cured and gained 15 pounds.

W. Hays, 490 Commercial street, East Portland, Or., inflammation neck of bladder and sciatic rheumatism; came on crutches to the doctor. Cured, and left crutches at the doctor's office.

Mrs. F. E. Dewey, 286 Davis street, Portland, nervous and general debility, deafness, heart disease, dyspepsia, liver complaint and female troubles in all its various complications, permanently cured.

Dr. Darrin gives free consultation at 265 Morrison street, Portland, Or., from 10 to 5 and 7 to 8 daily. All curable chronic, acute and private diseases confidentially and successfully treated. Circulars and question blanks sent free to any address and correspondence solicited. Most cases can receive home treatment after one visit to the doctor's office. Batteries and belts furnished, with full directions for their use. Difficult surgical operations scientifically performed. Cross eyes, rupture, varicocele, hydrocele and stricture cured and guaranteed in every case.

A Colony of Outlaws.

Writers of fiction have frequently pictured the idea of an unknown tropical paradise turned into a general asylum for outlaws and criminals. In the Bonin isles, not far from Japan, such a refuge has actually been discovered. Men of every nationality who have made civilization too warm for themselves having decamped to this ideal rendezvous, leaving the place to record the unsatisfactory result of their investigations as "gone abroad." No rates or taxes have to be paid, and government seems to be entirely dispensed with. The discovery was made by a Japanese vessel which called at the isle. In future the aliens will have less freedom, and consequently less happiness, for the Japanese dominion will have to be recognized. Their dream is over.—Western Morning News.

Obstacles.

"Ha, ha!" laughed Desdemona, derisively. "Do your worst!"

For, it being a one-night stand, the pillow borrowed from the hotel certainly wasn't large enough to smother anybody.

"Think not to escape me, wretched woman!" cried Othello, deftly felling her with a chunk of cordwood.

Tripe in Batter.

Wipe tripe and cut in pieces for serving. Sprinkle with salt and pepper, dip in batter, fry in a small quantity of hot fat and drain. Tripe batter is made by mixing one cupful of flour with one-quarter of a teaspoonful of salt, add gradually one-half cupful of cold water, and when perfectly smooth add one egg, well-beaten, one-half teaspoonful vinegar and one teaspoonful olive oil or melted butter.—Farm and Home.

Bright Porto Rican Women.

Porto Rican women are reported to be brighter and more enterprising than the men. They attend not only to domestic affairs, but take an active share in trading and transportation. Many carry on farms and keep store. American visitors admire their energy and sagacity and think the women of the island will cut some figure in its future history.—Chicago Chronicle.

An Afterthought.

Mrs. Goadley—It would be a good thing for you if you thought twice before speaking once.

Mr. Goadley—It's too late now. I should have pursued that plan before I proposed to you.—San Francisco Examiner.

A Novel Advertisement.

An original and novel form of advertisement comes from Russia, where a shopkeeper posted up the following announcement: "The reason why I have been able hitherto to sell my goods so much cheaper than anybody else is that I am a bachelor and do not need to make a profit for the maintenance of wife and children. It is now my duty to inform the public that this advantage will shortly be withdrawn from them, as I am about to be married. They will, therefore, do well to make their purchases at once at the old rate." The result was that there was such a rush on the shop by anxious customers that enough extra money was made by the enterprising proprietor to pay the expense of his wedding on an unusually lavish scale.

Aluminum in Books.

It is now possible to roll aluminum into sheets one four-thousandth of an inch thick, in which form it weighs less than ordinary paper, and experiments are under way looking to its use in the manufacture of books. The metal will not oxidize, is practically fire and waterproof, and is immune against the attacks of the various parasites.

Steel Traces for Harness.

A new use for steel has been discovered consisting of traces for harness. A narrow ribbon of steel from one inch to one and a half inches wide and rolled very thin is used. The steel trace is incased in leather. While showing a tensile breaking strain of double that of the best leather the steel trace can be afforded 20 per cent cheaper. The steel is necessarily of the finest quality.

An Important Discovery.

An important discovery which may revolutionize lighting by electricity has just been made. This is incandescence in air. An aluminum tube three-twelfths of a millimeter receives the current through two small platinum wires, the tube becoming effulgent on the passage of the current. No glass bulbs are needed, and the light, it is claimed is much more effulgent, while the cost of manufacture is appreciably less.

Modern Science Recognizes RHEUMATISM as a Disease of the Blood

There is a popular idea that this disease is caused by exposure to cold, and that some localities are infected with it more than others. Such conditions frequently promote the development of the disease, but from the fact that this ailment runs in certain families, it is shown to be hereditary, and consequently a disease of the blood.

Among the oldest and best known residents of Bluffs, Ill., is Adam Vangundy. He has always been prominently identified with the interests of that place. He was the first President of the Board of Trustees, and for a long time has been a Justice of the Peace. He says: "I had been a sufferer of rheumatism for a number of years and the pain at times was very intense. I tried all the proprietary medicines I could think or hear of, but received no relief.

"I finally placed my case with several physicians and doctored with them for some time, but they failed to do me any good. Finally, with my hopes of relief nearly exhausted I read an article regarding Dr. Williams' Pink Pills for Pale People, which induced me to try them. I was anxious to get rid of the terrible disease and bought two boxes of the pills. I began using them about March, 1897. After I had taken two boxes I was completely cured, and the pain has never returned. I think it is the best medicine I have ever taken, and am willing at any time to testify to its good merits."—*Bluffs (Ill.) Times.*

Dainty Parasols.

Artistic beauty adequately expresses the array of sunshade and parasols now rapidly appearing for the summer of 1899. Dainties and beauty of material, combined with good taste, are their leading characteristics. Their size is rather larger than that of previous seasons, the majority being 20 and 22 inches. The coaching shape is the favorite, while many for full dress occasions are heavy with ribbon-edged flounces. The lace parasol will be little used. For those desiring something exclusive, regardless of expense, the handsomest ones are exquisitely embroidered in bow-knots, serpentines and polka dots on plain taffeta backgrounds. These are very beautifully lined also. Crosswise effects are very prominent, and the ones with striped borders will find greatest favor with those desiring a reasonably-priced sunshade. The finish at the top was an elaboration new on parasols last year, and this year the idea has been carried even to greater lengths. One beauty has a top finished in imitation of a ruffled collarette tied with a bow of ribbon and it was decidedly fetching. A cord and tassel or a bow of ribbon invariably ornament all handles.

RHEUMATISM, SCIATICA AND CATARRH

Cured By "5 DROPS" Three Years Ago.

DOCTORS PRONOUNCED HIM INCURABLE

He is still well and writes, on Oct. 10, 1898: "I feel it a duty that I owe to God and suffering humanity to announce to you and all the world what "5 DROPS" has done for me."

SIBERIA, PERRY CO., IND., JAN. 29, 1896.

SWANSON RHEUMATIC CURE COMPANY:—I would like to thank you for your great remedy, "5 DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and I had Catarrh of the Head for 20 years. I was so poorly that I lost the use of my legs and arms, and could not move without pain. I was so crippled that I had done but little work for seven long years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and I believed him. But now, AFTER USING "5 DROPS" ONLY TWO MONTHS, I can truly say I HAVE NOT FELT SO WELL FOR SEVEN YEARS. This medicine does more than is claimed for it. At this time my Catarrh is much better and I have scarcely any Rheumatism at all, and the heart weakness and pain are gone. My hearing is now good and my eyesight is much better. I have gained more than 10 pounds of flesh and can do a full day's work. It is the best medicine I ever saw to give a mother who has a young child, for it has the same effect on the child as on the mother. It wards off Croup and cures the Hives of the child, and causes sweet and refreshing sleep to both young and old. WM. M. KELLEMS.

SIX TESTIFY TO ITS TRUTH.

In a letter of October 10, 1898, from Mr. Kellems, he says: "I feel it a duty that I owe to God and suffering humanity to announce to you and all the world that I am yet in the ring with untold thousands of others, to testify to the great merits of your valuable remedy called "5 DROPS." I believe I was the first sufferer in this part of the earth to learn of the existence of "5 DROPS," some three years ago. I was then badly afflicted with Rheumatism, Catarrh, etc., which my letter of Jan. 29, 1896, fully speaks of. All I can say is "5 DROPS" cured me. To make a long story short, "5 DROPS" needs no recommendation in this part of the country, as everybody knows the "5 DROPS" remedies around here. IT HAS CURED more cases of Rheumatism, Sciatica, Neuralgia and many other pains than any other medicine that has ever been sold or heard of. For the last three years I have noticed the affect "5 DROPS" has on the sick, through my own observations as well as my brother, who is a practicing physician, and USES THE "5 DROPS" IN HIS PRACTICE. All ye that wish for further information, write and you are sure to get a reply without any delay. I will (as I have done in this letter) cheerfully recommend it to any one that I may come in contact with. I myself can never forget what this remedy has done for me and many others. Yours very truly,

WM. M. KELLEMS, Siberia, Ind.

Witnesses to the above: Jas. Brady, J. R. Cox, E. R. Huff, S. Taylor, Dr. S. W. Kellems, Jno. Hays, all of Siberia, Ind.
