A very unfortunate accident happener last Friday to the two-and-one-year-old son of Mr. R. B. Mason, who resides near Yankton. An older child was chopping on a block of wood with a hatchet when the little boy toddled up and thrust his hand on the block just as the hatchet came down. The first three fingers of the right hand were entirely fingers of the right hand were entirely severed from the hand, near the knuck-les, and the little finger was cut almost off, but Dr. Ross, who was called, replaced the member with a few stitches, and thinks the finger will heal and continue to grow. The accident is a very unfortunate one, indeed.

In this issue will be seen a list of county warrants which have never been presented within sixty days after July 1809, will be cancelled and their payment refused. The law touching this matter is very explicit, requiring that a similar notice shall be caused by the county court to be printed each year. Many of the warrants advertised in that notice have been signed for at the clerk's office, but payment on them was never ent on them was never demanded, and the law states that if payment on warrants is not demanded within seven years after its issuance, the county court shall order it cancelled, after the compliance with certain pro-

Eugene Blakesley, who is employed on railroad construction work near Starbortly after arriving at Manila he was attacked with fever, and remained in the hospital continuously for over seven months. Because of his sickness he had little opportunity to gather information concerning the islands, but says that while he would not care to live there, yet the time is at hand for the inauguration of a system of civilization among the natives. The islands, Hollie says, are rich in natural resources and can be made a valuable adjunct to the commercial interests of this government.

It will be remembered that a few years ago Mr. O. D. Garrison's little eyear-old boy succeeded in killing a deer, and now comes the news that a 200-pound bear was killed on the l4th of this month by his 13-year-old daughter, Mabel. Mr. Garrison lives on Scappoose creek, and the having killed quite a number this spring, it had created in the mind of the little girl an ambition to kill one herself. On the 14th Mr. Garrison and family, accompanied by Ed Gore and Paul Bonser, left for a little hunting excursion to Bald mountain, and it was agreed that if a bear was sighted Mabel was to have Baid mountain, and it was agreed that if a bear was sighted Mabel was to have the first chance at his life. As luck the first chance at his life. As luck would have it they had not proceeded far when one was seen about 150 yards ahead, and a rifle was immediately handed the little girl by her father, and she was told to take good aim. At the first shot old bruin fell over dead with a bullet in his head. Mr. and Mrs. Garrison can justly feel proud of the feat accomplished by their little daughter.

On election day the judges have a precinct register into which the county clerk have been expensed to the county clerk being the protect mine and my neighbors proty. After the election the precinct registers go back to the county seat with the returns. There is a general register of the whole county in each clerk's office. Notarios and others authorised to register voters will get 10 cents each for registration of voters outside of the county seats.
