WINNING OVER AN AUDIENCE PERSONAL AND IMPERSONAL

A Story of the Presidential Campaign

A clever bit of campaign repartee is accredited to Lee Fairchild, the California orator, who leaped into national repute in 1896. He was sent into a Southern state to advocate the gold At a certain place he was standard. informed by the committee that the "rally" would begin and end about the same time, and that not since 1883 had any republican speaker been permitted to finish a speech there. Upon learning that the speakers, as

a rule, had been able to get out of town and fill their next appointments, Fairchild determined to make the attempt as billed. Items of General Interest Gleaned From the Thriving Pacific States.

A Family of Ministers. At their home near Portland, last week, Rev. W. B. Lee, D. D., and wife, together with their sons and daughter, had a general family rounion. There are several prominent Presbyterian ministers in this family, the head of the family himself being a minister of much ability. The sons are: Rev. E. Trumbuli Lee, D. D., now pastor of the Second Presbyterian church, Cincinnati; Rev. George H. Lee, of Seattle, who has received and accepted a call to College Hill Presbyterian church, of Cincinnati; Rev. Lewis Earle Lee, pastor of the North Presbyterian church, of Cincinnati; Professor Wallace H. Lee, president of the Albany college, Or.; William A. Lee, head accountant of the American Type Founders' Company, Portland, and Herbert M. Lee, accountant of the Standard Oil Company, Portland. The daughter is Mrs. William M. Fleming of Spokane, Wash. It has been 1 years since they were all together, the last reunion having been held in New York. There is also quite a long list of grandchildren, who helped to make the reunion all the more interesting.

Will Build a Cold Storage. The Pacific American Fisheries Company at Fairhaven, Wash., will build cold storage plant in connection with their cannery and work will be-gin shortly. This department was contemplated when Manager Ouffroy first undertook to organize the big syndicate, but the season was so far ad vanced that all energy was directed to ward the building of the cannery, but now that the cannery building is finished the next work will be done on the cold storage and ice plant. It is the intention to employ a large force of men all fall and winter in the fresh fish department, and the business of shipping fresh and frozen fish to the Eastern states will be engaged in on an extensive scale.

Say Establish a Box Factory.

H. G. Maxon and family recently arrived at Salem from South Bend, It is reported that Mr. Maxon Ind. in company with others will launch a box factory in that city, but Mr. Maxon, when interviewed, discredited this report, but said he would be a close observer and watch for a favorable opening for the location of such a factory. He is prepared to establish a factory of the capcity that the business of Salem or any other locality may re-quire. Should he establish the industry in Salem it would prove a splendid acquisition to that city's manufactur-

ing interests.

Polato Market. Farmers in the vicinity of Corvallis have been receiving 75 cents per sack for new potatoes of late, but they have crowded them into the market till they have overdone the business and the price has gone down to 60 cents per sack. The potatoes are not in condition to keep for any length of time or to ship to any distance, so no one care to keep a stock on hand. If potate were fit to ship, dealers say they could

afford to pay 90 cents a sack for them. Farmers and dealers both are anxiously figuring on the prospect for potatoes bringing a good price this fall and win-
