"You Can't Catch the Wind in a Net."

Neither can you cure catarrh by local applications. It is a constitutional disease, and is cured by Hood's Sarsaparilla because it is a constitutional remedy. It expels from the blood the impurity which causes the disease, and rebuilds and repairs the inflamed membranes.

Hood's Sarsaparilla
Never Disappoints

Enthusiasm Received a Check.

An enterprising washing machine agent, who has been meeting with good success in Whitneyville, had his ardor sadly dampened the other day. He called at a house in town, and, the mistress being absent, he persuaded her son to let him show up the merits of his machine in a practical way. There were no dirty clothes in the house, consequently the agent persuaded the young man to change his shirt and give him the garment on which to exercise the cleansing power of his new invention. He inserted the shirt in the washer and placed it on the stove made glowing hot with dry edgings. As he alternated his labors in filling the stove and revolving his machine, the lady of the house made her appearance. She marched straight to the oven door and flung it wide open. The smoke from a ruined pot of beans filled the room to suffocation. The agent was forced to make an ignominious retreat. When he seeks permission to test the machine now he looks sort of scared as he remarks in a casual way: "I presume there are no beans in the oven, madam."—Lewiston Journal.

How It Worked.

Mrs. Newlywed (reading)—Love is a balloon that lifts us up to heaven; marriage is the parachute that brings us slowly back to earth again!

Mr. Newlywed (also reading)—Another parachute horror! Man falls 3,000 feet and is dashed to pieces! Same old story! Parachute fails to work!—Puck.

Are You Going East?

If so, you should see that your ticket reads via the Great Rock Island route, and you will get the best. Pullman palace sleeping cars, elegant reclining chair cars "free," and library buffet cars on all through trains. Best dining car service in the world. Popular personally conducted excursions once a week to all points East. For full particulars call on or address any ticket agent, or A. E. COOPER, G. A. P. D., C. R. I. & P. Ry., 246 Washington street, Portland, Or.

Improved Train Equipment.

The O. R. & N. and Oregon Short Line have added a buffet, smoking and library car to their Portland-Chicago through train, and a dining car service has been inauguarated. The train is equipped with the latest chair cars, day coaches and luxurious first-class and ordinary sleepers. Direct connection made at Granger with Union Pacific, and at Ogden with Rio Grande line, from all points in Oregon, Washington and Idaho to all Eastern cities. For information, rates, etc., call on any O. R. & N. agent, or address W. H. Hurlburt, General Passenger Agent, Portland.

Climate, Scenery and Nature's Sanitarium.

Scenery, altitude, sunshine and air, constitute the factors which are rapidly making Colorado the health and pleasure grounds of the world.

Here the sun shines 357 days of the average year, and it blends with the crisp, electric mountain air to produce a climate matchless in the known world. No pen can portray, no brush can picture the majestic grandeur of the scenery along the line of the Denver & Rio Grande Railroad in Colorado. Parties going East should travel via this line which is known all over the world as the Scenic Line of the world. For any information regarding rates, time tables, etc., call on or address R. C. Nichol, general agent, 251 Washington street, Portland, Or., or any agent of the O. R. & N. Co., or Southern Pacific Company.

At Chippewa Falls, Wis., the telephone companies consolidated, and forthwith the rate was doubled.

United States possesses 22,705 merchant vessels.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CAPE NOME.

Incredible Richness of This District Fully Verified by Late Reports.

Each steamer which comes down from the North brings fresh proof of the almost incredible richness of the Cape Nome mining district. At first people were inclined to believe that the reports of splendid riches found in the Cape Nome beaches were simply fairy tales circulated by the transportation companies. But the arrival last week in Seattle of the Roanoke, with its cargo of gold dust, gave the final assurance that Cape Nome is quite as rich as it is painted. This famous treasure ship brought to Seattle more than two millions of dollars in the pretty yellow dust. The purser had charge of $1,300,000 only; but many of the passengers kept their private hoards in their own immediate care, so that a modest estimate of the combined wealth of the returning gold seekers aboard the vessel may be placed at $1,000,000, exclusive of that in the purser's care. It is probable that the real amount went far above this estimate. Every passenger had his bag of dust, heavy or light, according to the amount of energy he expended while in the golden North.

It is safe to prophesy that the stampede to the Cape Nome district next spring will be more eager than the Klondike rush of a few years ago.

Cape Nome has a weighty advantage over the Klondike region in that travelers to the former camp have no perilous river and mountain travel to go through, but are landed from the steamer directly on the gold beach. The Roanoke was but 10 days on the way down from the Cape, and she spent a day and a half of this time at Dutch Harbor.

No expensive tools are required to dig out the gold from the beach. As one of the Roanoke passengers expressed it: "Nome is the greatest country on the earth. Every man's bank account lies in the beach. All he has to do when he is out of money is to go down to the beach and dig it out. I never even dreamed of the wonderful wealth that is to be found along the Nome beaches. Literally I dug out $315 with a common table spoon in 10 minutes. I did this to prove to my friend that there was gold at Cape Nome."

About two thousand people will winter at Nome. Work has mostly stopped on the claims there, as the creeks and the beach are freezing up. The people were engaged in building houses when the Roanoke left. Lumber sells there for $200 per thousand feet. However, money is cheap, and nobody grumbles. Many improvements are being projected for the new community. One of the most important is the wharf which is to be put in next spring at the Cape Nome landing. At present vessels have difficulty in landing supplies on the beach. A company has also been formed to provide the city of Nome with waterworks, bringing pure water from far back in the hills. This will solve the typhoid fever problem, as that disease has been caused by impure water. This water system will be in operation not later than July 20. Electric lights and street railways are to be provided, companies having been organized to secure these improvements.

At the Clackamas Hatchery.

S. W. Downing, superintendent of the government hatchery on the Clackamas, says no salmon eggs are being taken at the hatchery now except those that are transferred from other hatcheries. Superintendent Wisner has just come from the little White Salmon hatchery and delivered 1,500,000 eggs to the Clackamas hatchery. Mr. Downing states that he made a large shipment of Quinnat salmon eggs to New Zealand recently. The eggs were packed in crates between layers of cotton. The fish will be introduced by the New Zealand authorities as an experiment.

Great Quantities of Fish.

Washington state's fish hatcheries are expected to turn out 85,000,000 salmon fry this season. This will be four times as much as the turn-out of any previous year. The United States government is now thoroughly alive to the importance of nursing this branch of food supply.

Will Probably Sell Bonds.

At a recent meeting of the city council of Dallas the finance committee was instructed to prepare a report looking to the matter of advertising a sale of city bonds to the amount of $2,500, the proceeds to be used in paying off the present city hall bonds.

Carbon County Bonded.

The commissioners of Carbon county, Montana, have decided to bond that county in the sum of $43,000 for the purpose of taking up outstanding warrants. These bonds are payable in 20 years, and redeemable in ten years. Interest is not to exceed 5 per cent.

At Boston, is it reported, there are one thousand freight cars standing on side tracks. Thirty freight ships have been taken out of their regular service at that port owing to the war with Africa, and consequently the cars have to be used for storage purposes. Many of these cars are the property of western lines, and are badly needed for transportation of lumber and grain.

A gentleman who is in a position to know what is going on in the federal department at Washington, states the Pendleton East Oregonian, says in his opinion, there will be no final action with reference to the squatters on the reservation within a year from the present. This he bases upon the probabilities of the question being taken up in the department and the time usually consumed in getting such matters to a final issue, after they have been once taken up.

The farmers are now busy harvesting their spuds and sowing their fall crops, says a Southern Oregon exchange. Although the prospect for a fair price is not good, the farmers can do nothing but work ahead and try to solve the problem: Why do some men live well and do no work?

Helena, Mont., Nov. 9.—United States Senator Thomas H. Carter was arrested today and fined $1 for spitting on the sidewalk. The complaint was made by a man arrested and fined yesterday for the same offense. The fine was paid.

HEAVY WOOL MOVEMENT.

Condition in London Prompts Speculative Buying.

R. G. Dun & Co.'s weekly review of trade says:

British disasters in South Africa have brought to view something besides the steady self-reliance of the English people, and that they hold not many American securities to be dislodged in any time of alarm, but are uninclined to take more stocks, and money looks for safe investment. A little decline of ¾c in wheat and 1½c in corn does not hinder exports, though it is some evidence that growers think they have ample supplies.

Atlantic exports of wheat for five weeks have been, flour included, 15,686,500 bushels, against 18,182,631 bushels last year, and Pacific exports 2,713,551 bushels, against 3,917,434 bushels last year. Western receipts of wheat have continued heavy, but have not rivalled last year's extraordinary outpouring, amounting to only 35,958,087 bushels in five weeks, against 49,640,791 bushels last year.

The enormous sales of wool at Boston, 21,557,500 pounds reported, making 25,368,700 pounds at the three chief markets for the week, are extremely important. That not all is for consumption, as the trade is naturally tempted to believe, may be true, and yet actual purchases by the mills of half that quantity would imply extraordinary encouragement respecting the demand for woolen goods. The prices have been generally advanced to an average scarcely below that of May, 1892, and for Ohio washed, light and dark unwashed and pulled wool slightly higher. Expectation of higher prices at London prompts much speculative buying, but the demand for woolen goods is also undeniably encouraging.

Cotton manufacturers have also been in great demand, with prices constantly rising.

PACIFIC COAST TRADE.

Tropical Fruits—Bananas, $1.50@2.50 per bunch; pineapples, nominal; Persian dates, 6@6½c per pound.

Millions Subsist on Rice.

Without question, the grain most extensively used as an article of food all the world over is rice. Hundreds of million of people chiefly subsist on it, and its consumption is constantly increasing. It is the principal diet of at least one-third of the human race, formingthe chief food of the native populations of India, China, Japan, Madagascar; many parts of Africa, and in fact of almost all eastern nations. The Burmese and Siamese are the greatest consumers of it. A Malay laborer gets through 56 pounds monthly; a Burmese or Siamese 46 pounds in the same period. The eastern nations also chiefly obtain their beverages from rice, which is the principal grain distilled in Siam, Japan, and China. Saki, or rice beer, is produced in Japan to the extent of 150,000,000 gallons annually. Although rice is such a universal article of food, it is not so nourishing as wheat or some other grains. More than nine-tenths of its substance consists of starch or water; consequently it forms more fat than muscle. The yield of rice is five times as heavy as that of wheat, the two crops yearly giving from eighty to a hundred bushels per acre.

SALT LAKE CITY.

An Important Factor in Transcontinental Travel.

No one crossing the continent can afford to cut Salt Lake City from his route. The attractions of the place, including the Mormon Temple, Tabernacle and Church institutions, the Great Salt Lake—deader and denser than the Dead Sea in the Holy Land—the picturesque environment and the warm sulphur and hot springs, are greater to the square yard than any locality on the American continent.

The Rio Grande Western Railway, connecting on the East with the Denver & Rio Grande and Colorado Midland Railways and on the West with the Southern Pacific (Central Route) and Oregon Short Line, is the only transcontinetnal line passing directly through Salt Lake City. The route through Salt Lake City via the Rio Grande Western Railway is famous all the year round. On account of the equable climate of Utah and Colorado it is just as popular in winter as in summer. Send 2c to J. D. Mansfield, 253 Washington St., Portland, or Geo. W. Heintz, Acting General Passenger Agent, Salt Lake City, for a copy of "Salt Lake City—the City of the Saints."

The famous cedars are on Mount Lebanon. In 1696 there were sixteen that measured over thirty feet in circumference.

They Hardly Mean It.

Public men speak of their unworthiness, but very few of them would be willing to be taken at their publicly expressed estimation of themselves.—Chicago Daily News.

Tea Poisoning.

Victims of tea poisoning are becoming alarmingly prevalent. Women demand the life and variety of Health, and instead of doing it naturally by building up their system they resort to tea. They should take Hostetter's Stomach Bitters. It tones up the nerves, regulates the bowles and cures dyspepsia.

A carload of dried canned potatoes contains 3,000 bushels, but would hold only 500 bushels in their natural state.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Tracing.

Miss Walsingham—We can trace our ancestry back to the Norman conquest, can't we, mother?

Mrs. Walsingham (sadly)—Yes, but we don't know where your father was last night.—Somerville Journal.

The Burmese.

The Burmese will sacrifice any prospect of money-making to go to a feast. These are called pives, and often the entertainment is elaborate. I remember going to one in Upper Burma. There was a good deal of dancing, but neither the host nor his guest danced; that would have been undignified. The dancers were paid, and they twirled lazily or jumped excitedly as occasion required. Most of the time, however, was spent in chatter and smoking. Smoking is the only thing at which the Burmese are industrious. They start smoking at the early age of 3, and they smoke themselves into the next world. Girls smoke quite as assiduously as the men, and as the cigars are very big many a pretty mouth is strained to accomodate a giant cheroot.—Pall Mall Magazine.

The walnut was originally called the gaulinut in England, because it came from France (Gaul). Walnuts played an important part at the siege of Amiens, near the end of the sixteenth century, when a party of Spanish soldiers, dressed as French peasants, brought a cartload of nuts to sell and, as the gates opened for them to enter, the nuts were spilled upon the ground, and sentinels stooped to pick them up, when the Spanish soldiers pounced upon them, killed them and guarded the gates while the Spanish army entered.

$100 REWARD $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

Insomnia

Did you ever have that feeling of oppression, like a weight on your chest, or a load of cobble-stones in your stomach, keeping you awake nights with a horrible sensation of anxiety, or tossing restlessly in terrible dreams, that make the cold perspiration break out all over you? That's insomnia, or sleeplessness, and some unfortunates suffer with it night after night, until their reason is in danger and they are on the edge of going mad. The cause of this fearful ailment is in the stomach and bowels, and a Cascaret taken at night will soon bring relief and give the sufferer sweet, refreshing sleep. **Always insist on getting CASCARETS!**

air t' thim hobo-mobo troocks!—Puck.

"I have been using CASCARETS for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented."
THOS. GILLARD, Elgin, Ill.
